Performing Shakespearean Appropriations Darlena Ciraulo, Matthew Kozusko, Robert Sawyer, 2022-06-29 Performing Shakespearean Appropriations explores the production and consumption of Shakespeare in acts of adaptation and appropriation across time periods and through a range of performance topics. The ten essays, moving from the seventeenth to the twenty-first century, address uses of Shakespeare in the novel, television, cinema, and digital media. Drawing on Christy Desmet's work, several contributors figure appropriation as a posthumanist enterprise that engages with electronic Shakespeare by dismantling, reassembling, and recreating Shakespearean texts in and for digital platforms. The collection thus looks at media and performance technologies diachronically in its focus on Shakespeare's afterlives. Contributors also construe the notion of "performance" broadly to include performances of selves, of communities, of agencies, and of authenticity—either Shakespeare's, or the user's, or both. The essays examine both specific performances and larger trends across media, and they consider a full range of modes: from formal and professional to casual and amateur; from the fixed and traditional to the ephemeral, the itinerant, and the irreverent.

YOU and Your Own Universe Silviu Pristavu, 2022-04-22 What if you found out that you're not who you believe you are? What if I told you that you're not who your family thinks you are? What if you're not the person that people around you see and hear ... What if the human being is, in reality, the fusing element of two worlds – physical and spiritual? What if, in the human body, you can find both physical and spiritual, where the spiritual manifests physically. What if what we call the mind, as we know it, is actually the gate through which the two worlds meet, cross, and exchange information? What You are, as a spiritual being, can't be described in any human language. What You are can't be seen by any human eyes. What You say can't be heard by any physical ears. You are the awareness in you – the consciousness. You are the love, the joy, and the happiness that bursts out of you. You are the creator of your body and the creator of Your Own Universe. You are limitless. You are wealth. You are health. You are all these things combined and more. You are something that can only be felt through your physical body, and you will feel You long before you finish reading this book. This book is not religious! It doesn't aim to favour one religion or discredit another. If anything, it's a tool for any religion that's been created from the beginning of humanity and helps explain phenomena that couldn't have been explained otherwise. It supports science equally; however, it doesn't just support theories that are based purely on physical evidence, though it may provide answers where these haven't been found yet, if one is open to accepting a different point of view. It was written to serve as a manual for life, explaining how things become what they are and providing confidence and strength to teens getting ready to face the world on their own, and to adults who feel lost, without a purpose, and in need of guidance toward a happy life.

Taboos and Controversial Issues in Foreign Language Education Christian Ludwig, Theresa Summer, 2023-02-24 This edited volume provides innovative insights into how critical language pedagogy and taboo topics can inform and transform the teaching and learning of foreign languages. The book investigates the potential as well as the challenges involved in dealing with taboo topics in the foreign language classroom. Traditionally subsumed under the acronym PARSNIP (politics, alcohol, religion, narcotics, isms, and pork). By examining how additional controversial topics such as disability, racism, conspiracy theories and taboo language can be integrated into conceptual teaching frameworks and teaching practice, this

edited volume draws on examples from literary texts and pop culture such as young adult novels, music videos, or rap songs and investigates their potential for developing critical literacies. The book considers foreign language teaching outside of English teaching contexts and sets the groundwork for addressing the integration of taboo topics in foreign language education theory, research, and practice. Filling an important gap in educational research, the book will be of great interest to researchers, academics, and students of foreign language education, critical pedagogy, and applied linguistics. It will also be useful reading for teacher trainers and educators of foreign language education. Chapter 1 of this book is available for free in PDF format as Open Access from the individual product page at www.taylorfrancis.com. Shimmering Literacies Bronwyn T. Williams, 2009 This book examines the powerful role of popular culture in the daily online literacy practices of young people. Whether as subject matter, discourse, or through rhetorical patterns, popular culture dominates both the form and the content of online reading and writing. In order to understand not only how but why online technologies have changed literacy and popular culture practices, this book looks at online participatory popular culture from MySpace and Facebook pages to fan forums to fan fiction. Interviews and observations reveal the skills and practices students develop, as they sit multitasking at their computers, across popular culture genres and electronic media. For educators, the book provides significant insights into popular culture literacy practices, thus illuminating how students are making meaning and performing identity every day as they read and write online.
