Development and Democracy: Relations in Conflict ,2017-08-28 Technological progress in the 21st Century still remains monopolized by the developed countries, thereby determining the direction and rhythm of growth in developing countries which must import their technological infrastructure. This colonized model of industrialization leads to a perpetual outflow of resources abroad and to structured social exclusion that placed narrow limits on democracy and the distribution of overall wellbeing. Why did Latin American societies fail to create an internal division of labour that could adequately provide for the development of productive forces? How did this affect the prospects for democracy in the region? *Development and Democracy: Relations in Conflict* examines the conflicting relations between technological development and democracy as they unfold in a new and ever more challenging environment. Economía y sociedad mexicana 1940 - 2020 Jaime Estay Reyno,2021-08-30 El libro que el lector tiene en sus manos es resultado del trabajo de profesores de la academia de Economía y Sociedad Mexicana que pertenecen a las distintas escuelas preparatorias de la Benemérita Universidad Autónoma de Puebla, quienes en reuniones semanales durante algo más de un año, y bajo la coordinación del autor de este prólogo, fueron definiendo los contenidos del texto y discutiendo los avances que se fueron presentando, hasta llegar a la presente versión final de la obra. El texto está dedicado al análisis del desenvolvimiento de la economía y sociedad mexicana en un lapso largo, que va desde el modelo de Industrialización Sustitutiva de Importaciones (isi), hasta la situación más reciente, de finales del año 2020, identificando la implantación y desarrollo de ese modelo, la vigencia posterior del neoliberalismo y los cambios que se están viviendo desde el año 2018, con la llegada al gobierno de la Cuarta Transformación. Para cada uno de esos tres periodos, se revisa el contexto internacional, el marco teórico referencial de las estrategias gubernamentales aplicadas en México y las principales tendencias del escenario económico y político nacional, así como del ámbito de la cultura.

Al Filo De Las Independencias En América Latina Dulce María Méndez García,2014-04-17 Despues del saqueo de los recursos naturales y humanos provocado por las diversas conquistas de los pases europeos en Amrica Latina se ejecutaron

las luchas de independencia como una necesidad de recuperar la dignidad de los pueblos. Dulce Mara Mndez, de manera objetiva, expone causas, actitudes y nombres de quienes contribuyeron a la independencia de cada pas. Pero, hasta dnde ha sido efectiva la independencia de Amrica Latina?, en manos de quines se han doblegado los pases ante las diversas formas de manipulacin de los imperios?, existe la libertad y la independencia anhelada? En la obra *Al filo de las independencias en Amrica Latina*, se expone el proceso que tom cada nacin en pos de la libertad y las razones del caos que han provocado la globalizacin y la regionalizacin en un panorama difuso, donde las relaciones comerciales se presentan inciertas para los llamados pases subdesarrollados. Adems, la prdida de valores ticos y morales contribuye a incrementar el narcotrfico y los grupos que operan al margen de la ley, los que representan un fuerte contingente negativo no slo para el continente americano sino para el mundo entero. Dulce Mara Mndez, al plantear reflexiones profundas sobre el tema, afirma que: Amrica Latina, ms que un conjunto de pases delimitados espacialmente en un continente, y ms que una referencia cartogrfica y demogrfica, es una regin plural, prdiga y prometedora. *Al filo de las independencias en Amrica Latina* es un texto de referencia imprescindible para todo pblico. Se invita al lector a adentrarse en las consideraciones y la vinculacin histrico-cultural planteadas por su autora. Dra. Blanca Lilia Mendoza Hidalgo Universidad de San Carlos de Guatemala

Development and Semi-periphery Renato Boschi, Carlos Henrique Santana, 2013-11-01 'Development and Semi-periphery' presents a collection of articles that focus on comparative analysis of development trajectories in the semi-peripheral countries of South America and Central Eastern Europe. As opposed to the transitology studies that were prevalent in the 1990s, and that treated the neoliberal context in these two regions separately, the articles in this book instead offer a new comparative analysis focusing on the consequences of neoliberal reforms and the new actors that deal with their results. The essays discuss the various forms of state that have unfolded in different peripheral countries, their role in the social engineering of economic models and social policies, and the impact of state capacities and ideas on institutional innovation. The volume also compares transformations in political culture, collective identities and contentious politics in both areas.

The Future of Work Adrián Sotelo Valencia, 2015-10-20 This book analyses the processes, mutations and trends currently characterising the world of work that are bound up within the deep contradictions of a global capitalist system troubled by systemic crisis, where the old Fordist and Keynesian state order has been substituted by a minimal, pro-business neoliberal State founded on the intensive restructuring of economic and productive systems and work organisation, characterised by labour deregulation, flexibility, super-exploitation and social precariousness. This is a work that illustrates the paradigmatic transition from social and labour relations based on job security, comprehensive collective agreements and guaranteed social rights, towards new social relations that find their technical, political and organizational roots in job insecurity, work rotation and monumental social insecurity, generally expressed in the systemic and growing loss of social

and labour rights by workers the world over. First published in Spanish by the Facultad de Ciencias Políticas y Sociales de la UNAM and Editorial Miguel Ángel de Porrúa as Los rumbos del trabajo. Superexplotación y precariedad social en el siglo XXI, Mexico, 2012.

Democratizar desde la sociedad civil Rendón Corona, Armando,2025-01-15 Si bien la democracia es la forma de gobierno con mayor presencia en el mundo moderno, en la actualidad se le ha demeritado debido a las dificultades para participar en ella, y por propiciar el aumento de la desigualdad social. Sin embargo, en Democratizar desde la sociedad civil, Armando Rendón reivindica la importancia de la participación ciudadana en la conformación de un gobierno justo y satisfactorio para toda la comunidad. Asimismo, por medio de ejemplos, análisis y reflexiones, resalta lo valioso de las movilizaciones de masas, pues éstas hacen énfasis en lo que necesita cambiarse para mejorar la calidad de vida.

Conflictos étnicos y etnonacionalismos en las Américas Natividad Gutiérrez,2009 Con este proyecto se ha buscado actualizar la investigación sobre nacionalismo y conflictos étnicos en los países del continente americano, con el fin de abonar nuevas discusiones que sean útiles para la implementación de políticas públicas y legislaciones acordes a la realidad encontrada.

Sistemas productivos locales en México Xavier Paunero Amigo,Leonel Corona Treviño,2007 Desde una perspectiva de las experiencias europeas se propone comparar el perfil de especialización que caracteriza e identifica a algunos territorios sobre el conjunto nacional, como son los sistemas productivos locales mexicanos incluidos en el presente libro. Esto es sólo un punto de partida que tomará forma en la medida en que se impulse el análisis hacia el ámbito de las políticas regionales que se dinamicen las ventajas reveladas en esas regiones. \n\n
