*The Primary ICT & E-learning Co-ordinator's Manual* James Wright, 2008-01-23 [This book] certainly isn't one of the dry educational tomes that often bedeck the shelves of the staffroom; it is an informative, accessible text which evolves into an enjoyable read. There aren't too many practitioner manuals that can boast that particular combination. A useful guide for the ICT leader seeking a practical/effective annual structure for their ICT leadership role' - Teach Primary Magazine This practical manual is the second part of a 2-volume set that together makes up a detailed 2-year training programme for primary ICT and E-learning co-ordinators. The second book takes coordinators through the second year of the programme but may also be used as a starting point by more experienced staff. The structured training programme, timed over three terms, includes:

- o a complete review of E-Safety procedures in the light of the Every Child Matters agenda
- o Developing a funding model in order to plan for ICT developments, together with a broader ICT action planning review to embed a revised E learning vision through a series of long-term sustainable actions
- o Reviewing the curriculum in order to examine how the E Learning community will adapt its core practices to facilitate new technology
- o the evolving role of school websites as they assume interactivity and examine the place of E Learning within the extended schools agenda
- o Reviewing the use of ICT as a tool for management systems and discussing how ICT can be used to support different groups of children
- o examining self-evaluation strategies linked to the school's SEF, the Ofsted Section 5 Framework and Every Child Matters.

The books have a companion website, which will offer downloadable versions of the photocopiable sheets from the book, as well as links to other sources of help and advice.

**Our Social World** Jeanne H. Ballantine,Keith A. Roberts,Kathleen Odell Korgen,2018-11-29 Our Social World:

Introduction to Sociology inspires students to develop their sociological imaginations, to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. Organized around the Social World model, a conceptual framework that demonstrates the relationships among individuals (the micro level); organizations, institutions, and subcultures (the meso level); and societies and global structures (the macro level), Jeanne H. Ballantine, Keith A. Roberts, and Kathleen Odell Korgen use this framework to help students develop the practice of using three levels of analysis, and to view sociology as an integrated whole, rather than a set of discrete subjects. The Seventh Edition includes new coverage of climate change, the influence of robots and artificial intelligence on workers, race relations in the Trump era, issues related to transgender identity and gender fluidity, sexual harassment in the workplace and the #MeToo movement, declining marriage rates, the impact of tracking for students at all academic achievement levels, smoking as an example of health and inequality in the US, gun violence and the student movement to control access to guns, social media, and Russian interference in the 2016 election.
