History, Hagiography and Biblical Exegesis Jennifer O'Reilly, 2019-05-31 When she died in 2016, Dr Jennifer O'Reilly left behind a body of published and unpublished work in three areas of medieval studies: the iconography of the Gospel Books produced in early medieval Ireland and Anglo-Saxon England; the writings of Bede and his older Irish contemporary, Adomnán of Iona; and the early lives of Thomas Becket. In these three areas she explored the connections between historical texts, artistic images and biblical exegesis. This volume is a collection of 16 essays, old and new, relating history and exegesis in the writings of Bede and Adomnán, and in the lives of Thomas Becket. The first part consists of seven studies of Bede's writings, notably his biblical commentaries and his Ecclesiastical History. Two of the essays are published here for the first time. The five studies in the second part, devoted to Adomnán, discuss his life of Saint Columba (the Vita Columbae) and his guide to the Holy Places (De locis sanctis). One essay ('The Bible as Map'), published posthumously, compares his presentation of a major theme, the earthly and heavenly Jerusalem, with the approach adopted by Bede. The third section consists of two essays on the lives of Thomas Becket that were composed shortly after his death. They examine, in the context of patristic exegesis, the biblical images invoked in the texts in order to show how the saint's biographers understood the complex relationship between hagiography and history. With the exception of the Jarrow Lecture on Bede and the essays on Becket, the studies in both parts were published originally in edited books, some of them now hard to come by. (CS1078).

Making Men Belinda Edmondson, 1999 Explores the gendered subjectivity of West Indian writers and their dependence on models from Victorian England for their narratives of self and nation.

Quote, 1952

Man's Fate and God's Choice Bhimeswara Challa, 2021-06-29 Stagnate as a 'creepy caterpillar' or transform into a 'beauteous butterfly'-this path-breaking book of a rare genre suggests-is the seminal choice before mankind, and every one of us. In this setting, the book raises some fundamental questions: What is man's rightful place in the cosmos and his manifest

destiny on earth? Why are we so self-righteously self-destructive? Are we a doomed species? Or 'divine' beings struggling to overcome the hubris of the human intellect? Is God getting weary of mankind? How should we synergize human effort and Divine Grace? The book posits that any betterment in human behavior needs a cathartic change at the deepest levels. That requires diluting the dominance of the mind and reawakening the long-dormant intelligence of the human heart. To meet that challenge, we need minimum numbers, a 'critical mass' to create self-sustained momentum for transformation through consciousness change. And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species-scale difference. The book offers a menu of ideas and an agenda of action. This book could be itself become an input to mobilize that very 'critical mass' it advocates for human transformation. Well-planned and cohesively written, the book is noteworthy for its delightful blend of information and arguments, and reveals the depth of the author's understanding of the human predicament... This is a closely argued and thought-provoking book... The Hindu, 13 Sept 2011 [This book] is a gripping exposition on human nature and self-transformation without preference to religion... Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self-transformation... harmonizing the head and the heart is the way for humans to function as spiritual beings. Recommended by the USR. The US Review of Books [The author] reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness. The strength of this treatise is the sweep of Challa's reach and his treatment of a vastly complex set of issues that bedevil humankind today... India International Center Quarterly, Summer 2012 As a thinker and erudite scholar, [the author] has made a profound study of the world situation and the moral decadence of man... [This book] deserves to be on the shelves of university, college and public libraries... Triveni Magazine, July-Sept 2011 It is difficult to pigeon-hole this book as... a 'prophetic discourse', a 'journey into the human mind', a 'guide for human survival', a 'spiritual treatise'. It is an amalgam of all these and more... the volume reaches out to those who are already uneasy about the way we on this earth are progressing. The Book Review, India, June 2013
