The Martians of Science István Hargittai,2008 Hargittai tells the story of five remarkable Hungarians: Wigner won a Nobel Prize in theoretical physics; Szilard was the first to see that a chain reaction based on neutrons was possible, initiated the Manhattan Project, but left physics to try to restrict nuclear arms; von Neumann could solve difficult problems in his head and developed the modern computer for more complex problems; von Kármán became the first director of NASA's Jet Propulsion Laboratory, providing the scientific basis for the U.S. Air Force; and Teller was the father of the hydrogen bomb, whose name is now synonymous with the controversial Star Wars initiative of the 1980s.

Life Is Sweet Addie Johnson,2008-05-01 Gratitude makes life sweeter—and better. Here's a collection of things to be happy about. Research tells us that people who appreciate where their bread is buttered and how sweet the jam on their toast is tend to be healthier, live longer, and enjoy more successful lives (although they may not define success as having the most marbles). And for sure, other people want to spend more time around them! In *Life is Sweet*, Addie Johnson has gathered things that have made her happy—stories, quotes, achievements achieved and unpleasant tasks done, good laughs, time spent with children and animals, health or progress toward it—and encourages us to look around and find our own fodder for happiness. It's a source we can turn to again and again—whenever we need a taste of sweetness in our lives.

Culture Rebel Connie Jakab,2012-08 You were called to be dangerous, not desperate. Connie Jakab is a force to be reckoned with. She will settle for nothing less than wholesale change—both in the way women view themselves as well as the way society suppresses their life transforming capacities.

The Big Book of Irony Jon Winokur,2013-12-10 Jon Winokur defines and classifies irony and contrasts it with coincidence and cynicism, and other oft-confused concepts that many think are ironic. He looks at the different forms irony can take, from an irony deficiency to visual irony to an understatement, using photographs and relate-able examples from pop culture. * *Irony in Action* looks at irony in language, both verbal and visual, while *Bastions of Irony* and *Masters of Irony* look at institutions and individuals steeped in irony, though not always intentionally. PLUS: * *The Annals of Irony* looks at irony, and its lack thereof, throughout history. A delight for anyone with a smart, dark sense of humor.

Racist & Sexist Quotations Robert Fikes,1992

Astro-Nuts Logan Hunder,2019-04-02 Laser-sharp zingers and out-of-this-world puns pile up at an astronomical pace in this zero gravitas sci-fi spoof from the author of *Witches Be Crazy*. Never meddle with unidentified spying objects . . . The year is: The Future. Mars and Earth are like that divorced couple who don't exactly like each other but have at least stopped fighting in public. Floating somewhere in between them, amid all the garbage and Gene Roddenberry's ashes, a transport vessel called the SS Jefferson is homeward bound. Its crew might have even made it on time for once, too . . . Captain Cox is no stranger to encountering the odd pickle in space, but when a tantalizingly derelict ship crosses paths with the Jefferson, he unwittingly parks in the middle of a NASA-ty interplanetary squabble. Faced with a marauding Martian and a squad of snobby secret agents, Cox and crew embark on a mad scramble across the solar system, to save themselves from either murder-via-space rifle or imprisonment in the notorious Guantanamo Docking Bay. Maybe they'll also get around to dealing with the biological weapon that accidentally wound up in their fridge, too. Logan J. Hunder's *Astro-Nuts* in this riotously funny send-up of spaceships and space exploration. Discover adventure, love, loss, gain, losing what was gained, gaining some of it back, and all the different ways the Outer Space Treaty can be violated.
