How to Organize and Write a Legal Memorandum Paul Falon, 2020-06-09 Legal memoranda are business documents, in which the writer communicates information to help the reader make a decision about one or more aspects of a legal matter they are addressing. This book explains how to organize and write legal memoranda that will communicate information to the reader clearly and effectively. It is written primarily for first-year law students, but upper-class law students and practicing attorneys can also use it, to produce more effective legal memoranda or written legal analyses generally. Professors and students will benefit from: The book's emphasis on the basic rule for organizing business documents effectively—to state the most important information first—which applies to the legal memorandum as a whole, to its parts and subparts, and even to most of its paragraphs and individual sentences. The book's reader-focused orientation, which anticipates information that a reader will find helpful in a memorandum and explains how, and where, the writer should include it. The individual chapters on the different parts of a legal memorandum, which provide concise but specific instruction about the purpose, format, organization, and effective presentation of each one. The separate chapter on informal and e-mail memoranda, which adapts the skills and strategies for organizing and writing formal legal memoranda to the shorter and less formal memoranda that attorneys frequently write. The chapter on How to Write Clearly, which contains specific guidelines for writing clear sentences and paragraphs, presenting related information clearly, and using correct grammar, precise word choice, and a clear, professional style. The extensive, annotated examples throughout the book, which illustrate how to organize and write the different parts of a memorandum—and how not to organize and write them.

Legal Method and Writing Charles R. Calleros, 2002 By incorporating broad topical coverage, case analysis, study skills, and appellate briefs, *Legal Method and Writing* has proven its effectiveness to loyal users nationwide. Some of the many strengths of this exceptionally clear and complete text: after a comprehensive introduction to legal analysis, the book addresses different types of legal writing Writing in Law School, Writing in the Law Office, Advocacy, Appellate Briefs, Pretrial Advocacy, and Writing to Parties connects legal analysis to the writing process and shows parallels between the analytic structure of office memoranda and that of a law student's case briefs, course outlines, and essay examination answers goes beyond the typical memo and brief to explain how to write pleadings, motions, contracts, and letters the documents lawyers will write in practice excellent examples are often drawn from Contracts and Torts to make the material accessible to first-year students illustrations, exercises, and assignments present diversity in ethnicity, gender and sexual orientation practical exercises in the text give students an opportunity to sharpen their skills, and additional exercises appear in the appendices Changes make the Fourth Edition a stronger teaching and learning tool: new material on the ALWD manual and the 17th edition of the Bluebook in the citation chapter completely updated, with new examples, illustrations, and supporting citations, including exercises based on the author's popular teaching demonstrations carefully edited to control length and increase efficiency

Legal Writing and Analysis Michael D. Murray, Christy Hallam DeSanctis, 2009 The Murray and DeSanctis titles are designed for the current generation of law students whose familiarity and comfort with on-line and computer-based learning create a demand for teaching resources that take advantage of that familiarity and comfort level. *Legal Writing and Analysis* provides a process-based text covering all aspects of first year legal analysis and objective legal writing topics. It employs the TREAT paradigm and the doctrine of explanatory synthesis, designed with reference to rhetorical theory to maximize the effectiveness of audience-directed legal writing. Paired with the book is an electronic, computer-based version of the text that adds links to on-line databases and internet-based resources and supplements the text with pop-up definitions from Black's Law Dictionary. The electronic version of the text is searchable and highly portable, with internal and external navigation links, making them more valuable for use in class and out. The interactive text employs a layout that departs from the traditional, all-text casebook format through use of callout text boxes, diagrams, and color/border segregated feature sections for hypotheticals, references to scholarly debates, or other useful information for law students.
