Internet and the Law Aaron Schwabach, 2014-01-15 The world of Internet law is constantly changing and is difficult to follow, even for those for whom doing so is a full-time job. This updated, everything-you-need-to-know reference removes the uncertainty. *Internet and the Law: Technology, Society, and Compromises, Second Edition* is the go-to source for anyone who needs clear explanations of complex legal concepts related to online practices and content. This wide-ranging, alphabetical reference explores diverse areas of law, including territorial jurisdiction and taxation, that are relevant to or affected by advances in information technology and the rise of the Internet. Particular emphasis is placed on intellectual property law and laws regarding freedom of expression. The Internet, as this book shows, raises questions not only about how to protect intellectual creations, but about what should be protected. Entries also discuss how the Web has brought First Amendment rights and free expression into question as society grapples with attempts to control leaks and to restrict content such as pornography, spam, defamation, and criminal speech.

Mind over Magick Richard Kaczynski,2025-10-07 • Draws on peer-reviewed research in psychology and cognitive neuroscience, such as real-time brain imaging, to examine the effects of mystical states and magical practice • Shows how being “in the zone,” as described by athletes and performers, is consistent with the ritualist’s state of mind when working magic • Suggests rituals and routines to strengthen one’s practice of magic, witchcraft, meditation, and yoga with empirically proven tools By looking through the lens of psychology, cognitive neuroscience, and real-time brain imaging, Mind over Magick shows how and why ritual magical practice can produce profound experiences with tangible benefits. Richard Kaczynski draws on a wealth of peer-reviewed research to shed new light on magic. He uses psychological studies, including the infamous Stanford Prison Experiment in which subjects role-played as prisoners and guards, to reveal the power of magical vestments and personas and the effects they have on ritual practitioners. He shows how being “in the zone,” as described by athletes and performers, is consistent with the ritualist’s state of mind when working magic. He also reveals what neurological processes are involved when one encounters and works with spirits. Mind over Magick includes empirically proven rituals to strengthen one’s practice of magic, witchcraft, yoga, and meditation. Readers can then apply the scientific method to evaluate their own spiritual praxis and determine what works best for them. For solitary practitioners and group participants alike, the author shares what happens, both on a psychological and neurological level, when they enter sacred spaces and use ritual implements as well as enter deep meditative states. He also details the importance of initiation as a rite of passage and transformative method of instruction. By approaching the art of practicing magic as a

science, readers are encouraged to hone a more effective and empirically grounded practice.

Consuming Atmospheres Chloe Steadman,Jack Coffin,2023-10-09 Atmosphere is a term often used in everyday life to describe how a consumption space feels and has long been an important theme within marketing. There has been renewed interest in atmosphere over recent years in marketing and beyond, with the concept at a crucial point in its development. However, research about atmosphere is often confined into disciplinary silos. *Consuming Atmospheres* unsettles such disciplinary boundaries by delivering an interdisciplinary collection of cutting-edge work on atmosphere and consumption. Specifically, the book brings together experts from various disciplinary backgrounds to explore how atmospheres are designed, experienced, and researched. Within these three thematic parts organising the collection, atmosphere is explored across a range of consumption and geographic contexts, including pop-up stores, music festivals, tourist spaces, town centres, sports stadia, amusement arcades, food and drink, urban squats, and seaside piers across England, Scotland, Denmark, and Slovenia. The book will appeal to academics and postgraduate students within marketing and beyond, given the chapter authors have backgrounds in marketing, consumer research, geography, sociology, youth studies, art and design, place management, and law. It may also be of interest to practitioners endeavouring to co-create more effective consumption atmospheres, such as marketers, retailers, and place managers.

By Angels Driven Chris Lippard,1996-08-16 Derek Jarman was one of the most innovative British filmmakers of his generation. Working largely outside the British film establishment and within tight budgetary constraints, he produced a series of features and shorter films that are highly personal and yet responsive to major issues of our time. For Jarman, the most compelling of these was undoubtedly the celebration of gay culture and the battle for gay rights—in which he was prominent until his death. This book brings together seven new essays on Jarman's work, one of the director's last interviews, and supporting filmography and bibliography. This book brings together seven new essays on Jarman's work, one of the director's last interviews, and supporting filmography and bibliography. The contributions examine the full range of his output from *Sebastiane* (1976) to *Blue* (1993), and include discussion of his approach to narration, his role as gay activist, his commitment to English artistic traditions and fascination with the age of Shakespeare, and the changing aesthetic preferences of his last films.
