Sequential Art: Interdisciplinary Approaches to the Graphic Novel Kathrin Muschalik,Florian Fiddrich,2019-07-22 This volume was first published by Inter-Disciplinary Press in 2016. No matter whether you call it picture book, manga, strip, graphic novel, or simply comic, it is undeniable that over the past thirty years, the image of sequential art in all its varieties has changed from a cheap form of entertainment for youngsters to a medium as cherished as novels and films. This timely publication aims to engage critically with issues in and around the production and perception of all types of graphic narratives. Mirroring the hybridity and complexity of graphic novels themselves, this essay collection brings together the works of scholars from various fields ranging from literature and culture to history, from social science to art. From manifold perspectives, it elaborates on topics like the perception and production of comics in and by different cultures, intertextuality and narrative techniques, the construction of identities within and by graphic narratives as well as the interpretation and depiction of historical landmarks by comic book artists.

Growing Up Asian American in Young Adult Fiction Ymitri Mathison,2017-11-20 Winner of the Children's Literature Association's 2020 Edited Book Award Contributions by Hena Ahmad, Linda Pierce Allen, Mary J. Henderson Couzelis, Sarah Park Dahlen, Lan Dong, Tomo Hattori, Jennifer Ho, Ymitri Mathison, Leah Milne, Joy Takako Taylor, and Traise Yamamoto Often referred to as the model minority, Asian American children and adolescents feel pressured to perform academically and be disinterested in sports, with the exception of martial arts. Boys are often stereotyped as physically unattractive nerds and girls as petite and beautiful. Many Americans remain unaware of the diversity of ethnicities and races the term Asian American comprises, with Asian American adolescents proving to be more invisible than adults. As a result, Asian American adolescents are continually searching for their identity and own place in American society. For these kids, being or considered to be American becomes a challenge in itself as they assert their Asian and American identities; claim their own

ethnic identity, be they immigrant or American-born; and negotiate their ethnic communities. The contributors to *Growing Up Asian American in Young Adult Fiction* focus on moving beyond stereotypes to examine how Asian American children and adolescents define their unique identities. Chapters focus on primary texts from many ethnicities, such as Chinese, Korean, Filipino, Japanese, Vietnamese, South Asian, and Hawaiian. Individual chapters, crossing cultural, linguistic, and racial boundaries, negotiate the complex terrain of Asian American children's and teenagers' identities. Chapters cover such topics as internalized racism and self-loathing; hypersexualization of Asian American females in graphic novels; interracial friendships; transnational adoptions and birth searches; food as a means of assimilation and resistance; commodity racism and the tourist gaze; the hostile and alienating environment generated by the War on Terror; and many other topics.
