Wrapper Robert Mangurian,Mary-Ann Ray,1999 Of his Museum of Jurassic Technology, David Wilson once said, Part of the assigned task is to reintegrate people with wonder. And wonder is what museum visitors do, especially at exhibits like a woman's horn, a bat frozen in a slab of lead, and microminiature sculptures framed in the eyes of needles. Asked to redesign this Los Angeles museum's facade after suffering structural damage in an earthquake, Southern California architects Robert Mangurian and Mary Ann Ray explore the vast and unimaginable possibilities.

Nature's Museums Carla Yanni,2005-09-09 Yanni (art history, Rutgers U.) examines the relationship between architecture and science in the 19th century by considering the physical placement and display of natural artifacts in Victorian natural history museums. She begins by discussing the problem of classification, the social history of collecting, as well as architectural competitions an

The Delirious Museum Calum Storrie, 2007-10-24 The Delirious Museum is a remarkable, illuminating work, which presents an original view of the idea of the museum in the twenty-first century, re-imagining the possibilities for museums and their displays and re-examining the blurred boundaries between museums and the cities around them. On his quest for the Delirious Museum, Storrie takes a journey that begins in the Louvre and continues through Paris, London, Los Angeles and Las Vegas. He encounters on his way the museum architecture of John Soane, Carlo Scarpa and Daniel Libeskind, the exhibitions of El Lissitzky and of Frederick Kiesler, and the work of artists as varied as Marcel Duchamp, Andy Warhol, Marcel Broodthaers, Sophie Calle and Mark Dion.

Museums 101 Mark Walhimer, 2015-05-28 Looking for an A-Z, one-stop, comprehensive book on museums? Wish you were able to have one of the world's leading museum consultants spend a couple of days with you, talking you through how to start a museum, how museums work, how to set up an exhibit, and more? If so, Museums 101 is the answer to your wishes. In one short volume, Mark Walhimer covers:

- Essential Background, such as what is a museum, a quick history of museums, and 10 steps to starting a museum
- Operational Basics, such as branding, marketing, strategic planning, governance, accessibility, and day-to-day operations
- What goes on behind the scenes in a museum, ranging from finances to fundraising to art handling, exhibit management, and research
- The Visitor Experience, planning a museum, designing exhibits for visitors, programming, and exhibit evaluation.

Features that even the most experienced museum professionals will find useful include a community outreach checklist, a fundraising checklist, a questionnaire for people considering starting a new museum, and an exhaustive, well-organized list of online resources for museum operations. The book's contents were overseen by a six-member international advisory board. Valuable appendixes you'll use every day include a museum toolbox full of useful forms, checklists, and worksheets, and a glossary of essential museum-related terms. In addition to the printed book, Museums 101 also features a companion website exclusively for readers of the book. The website—museums101.com—features:

- downloadable sample documents,
- a glossary,

Curious Collectors, Collected Curiosities Janelle A. Schwartz, Nhora Lucía Serrano, 2020-05-22 *Curious Collectors, Collected Curiosities: An Interdisciplinary Study* asks its readers to enter into an investigation of the nature of collecting as an aesthetic exercise. Spanning the sixteenth century through today, this book gathers together the work of current scholars to re-envision the task of collectors and their collections in broad strokes. Each chapter appropriates the idea of a cabinet of curiosity in order to expand its boundaries of meaning and to complicate our understanding of the acts of display and observation. These chapters also demonstrate that collecting is a universal trope which nevertheless depends on time and place for its particular expressions. Whether the collection is made up of literary texts and criticism, visual art, including mechanical reproductions, taxidermy and photography, historical travelogues, museum exhibitions, blockbuster films, or airline in-flight briefing cards, it conveys an urgent relevance to our consumer age, in which information is abundant and attention is a commodity.

Voluntary Detours Lianne McTavish, 2021-10-15 After visiting hundreds of museums across Alberta, Lianne McTavish chronicles some of the most challenging and unexpected sites where the idea of the museum is being reshaped. The concept of the visit as a “voluntary detour” encapsulates the way visitors travel along backroads to find small-town and rural museums, as well as the agreement to turn away from standard museum scripts when they arrive. Addressing themes of place, land, colonization, rurality, heritage, childhood, and play, McTavish reveals the museum visitor as multifaceted, with locals and tourists often interpreting museums very differently. Case studies include the World Famous Gopher Hole Museum, Fort Chipewyan Bicentennial Museum, Blackfoot Crossing Historical Park, and the Museum of Fear and Wonder. A key chapter analyzing sites devoted to resource extraction explores how these places promote settler colonial understandings of land use. By contrast, Indigenous museums and cultural centres defy colonial messages in displays that adapt and refuse conventional museum formats. Honouring local, rural, and Indigenous knowledge, *Voluntary Detours* enriches critical accounts of the past, present, and future of museums.
