Loving Justice Kathryn D. Temple, 2019-06-25 A history of legal emotions in William Blackstone's England and their relationship to justice William Blackstone's masterpiece, *Commentaries on the Laws of England* (1765-1769), famously took the "ungodly jumble" of English law and transformed it into an elegant and easily transportable four-volume summary. Soon after publication, the work became an international monument not only to English law, but to universal English concepts of justice and what Blackstone called "the immutable laws of good and evil." Most legal historians regard the *Commentaries* as a brilliant application of Enlightenment reasoning to English legal history. *Loving Justice* contends that Blackstone's work extends beyond making sense of English law to invoke emotions such as desire, disgust, sadness, embarrassment, terror, tenderness, and happiness. By enlisting an affective aesthetics to represent English law as just, Blackstone created an evocative poetics of justice whose influence persists across the Western world. In doing so, he encouraged readers to feel as much as reason their way to justice. Ultimately, Temple argues that the *Commentaries* offers a complex map of our affective relationship to juridical culture, one that illuminates both individual and communal understandings of our search for justice, and is crucial for understanding both justice and injustice today.

Expanding the Black Film Canon Lisa Doris Alexander, 2019-08-30 If the sheer diversity of recent hits from *Twelve Years a Slave* and *Moonlight* to *Get Out*, *Black Panther*, and *BlackkKlansman* tells us anything, it might be that there's no such thing as black film per se. This book is especially timely, then, in expanding our idea of what black films are and, going back to the 1960s, showing us new and interesting ways to understand them. When critics and scholars write about films from the Blaxploitation movement—such as *Cotton Comes to Harlem*, *Shaft*, *Superfly*, and *Cleopatra Jones*—they emphasize their importance as films made for black audiences. Consequently, Lisa Doris Alexander points out, a film like the highly popular, Oscar-nominated *Blazing Saddles*—costarring and co-written by Richard Pryor—is generally left out of the discussion because it doesn't fit the profile of what a black film of the period should be. This is the kind of categorical thinking that Alexander seeks to broaden, looking at films from the 60s to the present day in the context of their time. Applying insights from black feminist thought and critical race theory to one film per decade, she analyzes what each can tell us about the status of black people and race relations in the United States at the time of its release. By teasing out the importance of certain films excluded from the black film canon, Alexander hopes to expand that canon to include films typically relegated to the category of popular entertainment—and to show how these offer more nuanced representations of black characters even as they confront, negate, or parody the controlling images that have defined black filmic characters for decades.

Popular Culture, Crime, and Justice Frankie Y. Bailey, Donna C. Hale, 1997 Popular Culture, Crime, And Justice closely examines how the criminal justice system is presented in the mass media from a variety of perspectives and, along the way, helps us to sort out our own thinking about the validity of this information.

The Routledge Handbook of Language and Dialogue Edda Weigand, 2017-06-27 The Routledge Handbook of Language and Dialogue is the first comprehensive overview of the emerging and rapidly growing sub-discipline in linguistics, Language and Dialogue. Edited by one of the top scholars in the field, Edda Weigand, and comprising contributions written by a variety of likewise influential figures, the handbook aims to describe the history of modern linguistics as reasoned progress leading from de Saussure and the simplicity of artificial terms to the complexity of human action and behaviour, which is based on the integration of human abilities such as speaking, thinking, perceiving, and having emotions. The book is divided into three sections: the first focuses on the history of modern linguistics and related disciplines; the second part focuses on the core issues and open debates in the field of Language and Dialogue and introduces the arguments pro and contra certain positions; and the third section focuses on the three components that fundamentally affect language use: human nature, institutions, and culture. This handbook is the ideal resource for those interested in the relationship between Language and Dialogue, and will be of use to students and researchers in Linguistics and related fields such as Discourse Analysis, Cognitive Linguistics, and Communication.
