*Starting Strong V Transitions from Early Childhood Education and Care to Primary Education* OECD,2017-06-21 The transition from early childhood education to primary school is a big step for all children, and a step which more and more children are having to take. Quality transitions Should be well-prepared and child-centred, managed by trained staff collaborating with one another, and guided by ...

Education Policy Outlook 2022 Transforming Pathways for Lifelong Learners OECD,2022-11-21 Building on the OECD's Framework of Responsiveness and Resilience in Education Policy, as well as analysis of international policies and practices from over 40 education systems, this report identifies three policy areas that education policymakers can undertake in 2023: 1) enhancing the relevance of learning pathways, 2) easing transitions throughout learners' pathways, and 3) nurturing learners' aspirations. Lessons emerging from recent policy efforts are synthesised into key policy pointers for 2023.

**Documentation Manual for Occupational Therapy** Crystal Gateley,2024-06-01 The best-selling, newly updated occupational therapy textbook *Documentation Manual for Occupational Therapy*, Fifth Edition, is made for students and early-career practitioners learning the critical skill of documentation. The workbook format offers students ample opportunities to practice writing occupation-based problem statements and goals, intervention plans, SOAP notes, and other forms of documentation. The Fifth Edition has also been updated to reflect changes in the American Occupational Therapy Association's Occupational Therapy Practice Framework: Domain and Process, Fourth Edition. What's included in *Documentation Manual for Occupational Therapy*: Numerous worksheets for students to practice individual skills with suggested answers provided in the Appendix Updated information on coding, billing, and reimbursement to reflect recent Medicare changes, particularly in post-acute care settings Examples from a variety of contemporary occupational therapy practice settings Included with the text are online supplemental materials for faculty use in the classroom. Instructors in

educational settings can visit the site for an Instructor's Manual with resources to develop an entire course on professional documentation or to use the textbook across several courses. One of the most critical skills that occupational therapy practitioners must learn is effective documentation to guide client care, communicate with colleagues, and maximize reimbursement. The newly updated and expanded Documentation Manual for Occupational Therapy, Fifth Edition, will help students master their documentation skills before they ever step foot into practice.

**Shuttered Schools** Ebony M. Duncan-Shippy, 2019-04-01 Since the late 1990s, mass school closures have reshaped urban education across the United States. Popular media coverage and research reports link this resurgence of school closures in major cities like Chicago and Philadelphia to charter school expansion, municipal budget deficits, and racial segregation. However, this phenomenon is largely overlooked in contemporary education scholarship. *Shuttered Schools: Race, Community, and School Closures in American Cities* (Information Age Publishing) is an interdisciplinary volume that integrates multiple perspectives to study the complex practice of school closure—an issue that transcends education. Academics, practitioners, activists, and policymakers will recognize the far-reaching implications of these decisions for school communities. *Shuttered Schools* features rigorous new studies of school closures in cities across the United States. This research contextualizes contemporary school closures and accounts for their disproportionate impact on African American students. With topics ranging from gentrification and redevelopment to student experiences with school loss, research presented in this text incorporates various methods (e.g., case studies, interviews, regression techniques, and textual analysis) to evaluate the intended and unintended consequences of closure for students, families, and communities. This work demonstrates that shifts in the social, economic, and political contexts of education inform closure practice in meaningful ways. The impacts of shuttering schools are neither colorblind nor class-neutral, but indeed interact with social contexts in ways that reify existing social inequalities in education.

**Teaching Children and Adolescents with Special Needs** Judy L. Olson, Lisa A. Dieker, 2008 With collaboration so vital to today's educational arena, this thorough, well-organized, highly readable text concentrates on the general process of teaching--the basic how to do it--to help prospective teachers of children with mild disabilities in grades K-12 learn to work effectively with students, other teachers, and families. Basing coverage on their extensive experience, the authors present practical, research-based teaching strategies that relate to everyday occurrences in schools; provide motivating, experience-based activities; and offer numerous detailed lesson plans. Their personal, conversational writing style makes even complex concepts accessible, while their extensive coverage gives readers a solid understanding of what works and what doesn't in both special education classrooms and inclusive settings. For future teachers of elementary school students with mild

disabilities and learning problems.

*Transfer from the Primary Classroom* Maurice Galton,Linda Hargreaves,2003-12-16 The ORACLE (Observation and Classroom Learning and Evaluation) and its follow-up study address the following questions: Has teaching in the primary school changed over the past twenty years? Has pupil performance improved or declined? Are the links between certain teacher approaches and pupil achievement still the same? Has the National Curriculum had any important consequences for the way in which transfer is conducted? One of the main claims of the National Curriculum is that it has provided greater continuity through the various stages and this should be reflected in smoother transition from one school to the next. This book focuses on the issue of transfer from the primary to the secondary school, using data from the ORACLE project. This study which took place from 1975 to 1980, followed by 'Son of ORACLE', the study of group-work in the primary classroom 1980 to 1983, has had an enormous influence on the debate on primary education. The studies described in detail what took place in primary classrooms, the teaching styles used by teachers and the responses made by pupils. It linked these processes to pupil performance. Finally, it followed the pupils as they transferred out of the primary school into the secondary phase of education. At present a new research project is being carried out in Leicester. It involves studying primary schools for one year and then following the children as they transfer to the secondary phase or to a middle school. The project involves two thirds of the schools used in the original ORACLE research. In addition, the same observation instruments and the same tests, modified for cultural differences, are being used.

**Successful Inclusion for Educational Leaders** Larry Dean Bartlett,Gregory R. Weisenstein,Susan Larson Etscheidt,2002 This book outlines and explains the requirements of special education law as it applies to regular and special education. It tackles the difficult and sometimes complicated issues of inclusion, student discipline, IEP development, transitioning, and working with parents. Its strength is presenting special education law in easy-to-understand language and its use of best practices in implementing the law. Inclusion Basics; Working with Parents and Parent Rights; Due Process Hearings, Mediation, and Complaints; Identification and Evaluation of Students; Individualized Education Programs; Placement; Preschool and Infant and Toddler Programs; Secondary School Considerations; Discipline; Student Relationships; Staff Relationships and Staffing Patterns; Budget and Funding; Autism; Emotional Disturbance/Behavior Disorders (EBD); Mental Retardation/Mental Disabilities (MD); Specific Learning Disability (LD); Orthopedic Impairment/Physical Disabilities; Speech or Language Impairment; Other Health Impairment (OHI); and Low Incidence Disabilities.

**School Children and the Challenge of Managing AI Technologies** Emanuela Guarcello,Abele Longo,2024-06-14 This edited volume recognises the need to cultivate a critical and acute understanding of AI technologies amongst primary and elementary school children, enabling them to meet the challenge of a human- and ethically oriented management of AI technologies. Focusing on school settings from both the national and international level to form comparative case studies, chapters present a robust conceptual and foundational framework within a global context as the idea of AI and our relationship to it advances apace. The book uses research garnered from interviews and observational data, qualitative and quantitative research, and theoretical findings gathered from single schools or institutions across the world. Providing an innovative perspective in promoting the importance of a critical, creative and ethical orientation based on aesthetic experiences, the book focuses on development in areas like visual arts, literature, environmental education, robotics, photography and screen education, movement and play. Ultimately, the book responds to an urgent and time-sensitive call to provide guidance on AI to primary education researchers and will be of interest to academics, scholars and researchers in the fields of primary and elementary education, technology in education, children's rights education, and moral and values education more broadly.
