Postfeminism and Contemporary Vampire Romance Lea Gerhards, 2022-05-19 In this book, Lea Gerhards traces connections between three recent vampire romance series; the Twilight film series (2008-2012), The Vampire Diaries (2009-2017) and True Blood (2008-2014), exploring their tremendous discursive and ideological power in order to understand the cultural politics of these extremely popular texts. She uses contemporary vampire romance to examine postfeminist ideologies and discuss gender, sexuality, subjectivity, agency and the body. Discussing a range of conflicting meanings contained in the narratives, Gerhards critically looks at genre's engagement with everyday sexism and violence against women, power relations in heterosexual relationships, sexual autonomy and pleasure, (self-) empowerment, and (self-) surveillance. She asks: Why are these genre texts so popular right now, what specific desires, issues and fears are addressed and negotiated by them, and what kinds of pleasures do they offer?

The Dark Fantastic Ebony Elizabeth Thomas, 2020-09-22 Winner, 2022 Children's Literature Association Book Award, given by the Children's Literature Association Winner, 2020 World Fantasy Awards Winner, 2020 British Fantasy Awards, Nonfiction Finalist, Creative Nonfiction IGNYTE Award, given by FIYACON for BIPOC+ in Speculative Fiction Reveals the diversity crisis in children's and young adult media as not only a lack of representation, but a lack of imagination. Stories provide portals into other worlds, both real and imagined. The promise of escape draws people from all backgrounds to speculative fiction, but when people of color seek passageways into the fantastic, the doors are often barred. This problem lies not only with children's publishing, but also with the television and film executives tasked with adapting these stories into a visual world. When characters of color do appear, they are often marginalized or subjected to violence, reinforcing for audiences that not all lives matter. The Dark Fantastic is an engaging and provocative exploration of race in popular youth and young adult speculative fiction. Grounded in her experiences as YA novelist, fanfiction writer, and scholar of education, Thomas considers four black girl protagonists from some of the most popular stories of the early 21st century: Bonnie Bennett from the CW's The Vampire Diaries, Rue from Suzanne Collins's The Hunger Games, Gwen from the BBC's Merlin, and Angelina Johnson from J.K. Rowling's Harry Potter. Analyzing their narratives and audience reactions to them reveals how these characters mirror the violence against black and brown people in our own world. In response, Thomas uncovers and builds upon a tradition of fantasy and radical imagination in Black feminism and Afrofuturism to reveal new possibilities.

Through fanfiction and other modes of counter-storytelling, young people of color have reinvisioned fantastic worlds that reflect their own experiences, their own lives. As Thomas powerfully asserts, “we dark girls deserve more, because we are more.”

The Celebration of Death in Contemporary Culture Dina Khapaeva, 2017-03-06 The Celebration of Death in Contemporary Culture investigates the emergence and meaning of the cult of death. Over the last three decades, Halloween has grown to rival Christmas in its popularity. Dark tourism has emerged as a rapidly expanding industry. “Corpse chic” and “skull style” have entered mainstream fashion, while elements of gothic, horror, torture porn, and slasher movies have streamed into more conventional genres. Monsters have become pop culture heroes: vampires, zombies, and serial killers now appeal broadly to audiences of all ages. This book breaks new ground by viewing these phenomena as aspects of a single movement and documenting its development in contemporary Western culture. This book links the mounting demand for images of violent death with dramatic changes in death-related social rituals. It offers a conceptual framework that connects observations of fictional worlds—including The Twilight Saga, The Vampire Diaries, and the Harry Potter series—with real-world sociocultural practices, analyzing the aesthetic, intellectual, and historical underpinnings of the cult of death. It also places the celebration of death in the context of a longstanding critique of humanism and investigates the role played by 20th-century French theory, posthumanism, transhumanism, and the animal rights movement in shaping the current antihumanist atmosphere. This timely, thought-provoking book will appeal to scholars of culture, film, literature, anthropology, and American and Russian studies, as well as general readers seeking to understand a defining phenomenon of our age.

The Vampire in Bram Stoker's "Dracula" and Stephenie Meyer's "Twilight" Series Katharina Wagner, 2020-07-09 Master's Thesis from the year 2020 in the subject English Language and Literature Studies - Literature, grade: 1,3, University of Cologne (Englisches Seminar I), language: English, abstract: The allegation of the vampire's metamorphosis and the less frequent academic recognition of newer vampire fiction are what motivates this Thesis to examine the vampire yet once again. With the help of Bram Stoker's *Dracula* (1897) and Stephenie Meyer's *Twilight Series* (2005-2008), this paper will investigate the research question if the vampire of older literary works and the vampire of newer literary works are in fact so different from each other as previous academic works suggest. Throughout the last years, a large number of new vampire fictions, television shows and movies emerged, and the vampire slowly gains a representation in academic works. Most of these works deal with the vampire's symbolic nature, his function and what he represents, but it is evident that older works get treated significantly different than newer ones and they almost never include the vampire's folkloric or real' background. People of the academic works around the figure of the vampire will agree that a significant change in the vampire's nature

between the nineteenth and the twenty-first century took place, because while our ancestor's vampires, such as human blood-sucking Nosferatu or Dracula, bring terror and evil to its people and are academically recognized far more often, the vampires nowadays seem to be tamed, sympathetic beings that utterly reject human blood.
