Making Changes in STEM Education Julia M. Williams,2023-06-02 Many science, engineering, technology, and math (STEM) faculty wish to make an academic change at the course, department, college, or university level, but they lack the specific tools and training that can help them achieve the changes they desire. *Making Changes in STEM Education: The Change Maker's Toolkit* is a practical guide based on academic change research and designed to equip STEM faculty and administrators with the skills necessary to accomplish their academic change goals. Each tool is categorized by a dominant theme in change work, such as opportunities for change, strategic vision, communication, teamwork, stakeholders, and partnerships, and is presented in context by the author, herself a change leader in STEM. In addition, the author provides interviews with STEM faculty and leaders who are engaged in their own change projects, offering additional insight into how the tools can be applied to a variety of educational contexts. The book is ideal for STEM faculty who are working to change their courses, curricula, departments, and campuses and STEM administrators who lead such change work to support their faculties, as well as graduate students in STEM who plan to enter an academic position upon graduation and expect to work on academic change projects. Falling for the Competition Darby Baham,2024-11-26 He's her biggest competition. And the key to her success. When Keisha Edwards collides with Rhodes scholar Julian Langley, she briefly considers switching from her MBA to chemistry—because theirs is off the charts! But when Tall, Dark and Arrogant asks for her number? The answer is no. Besides, if Keisha's going to graduate top of her class, she doesn't have time for romance. Julian is no novice when it comes to beautiful women, yet when Keisha turns him down, it stings. But not as much as discovering she's in his MBA program—and she's the one to beat for top marks. Well, the competition is on—until they're assigned to a group project. As their chemistry threatens to boil over, it'll be a test to see if these frenemies can work together to succeed in business...and in love... From Harlequin Special Edition: Believe in love. The Balance Claire,Dluuwixwaay,Jesus of Nazareth,2023-02-14 The sixth Chosen One of ancient prophecy is now walking earth as an unknown woman living a normal life. When her channel opens, however, Varahn suddenly faces the reality that heaven exists, and her ordinary life is upended. Varahn is told she's been "chosen by the Holy Spirit to protect earth from a total extinction of life. Varahn knows human activities are already rushing earth to ecological and climate catastrophe. The process of extinction is actively underway. Although she cherishes her home, she's completely overwhelmed to think such an urgent and momentous responsibility would depend upon her. Is this real? How can she possibly reverse this trajectory? Varahn's every day felt experience is of earth. But once she's chosen, a heavenly split of her consciousness appears at the center of the homeomorphic hologram, asleep in the very place last occupied by the Absolute God of the Hebrew Torah and the Christian Old Testament. Others in heaven mistakenly conclude Varahn must be Absolute Goddess, seeking to control All That Is. They attack her pre-emptively in ways that threaten to make her crucial task impossible. Jesus of Nazareth is profoundly concerned for both Varahn and the healing of earth. When a disbelieving Varahn decides to start a diary soon after her channel opens, Jesus recognizes that despite it being perceived as a fantasy, should He and the Holy Spirit channel back to Varahn the heavenly view of her story, Varahn might be convinced that she has in fact been chosen, and be fully empowered for her task. In Varahn's remarkable transcription of channeled truths and personal experience, Jesus also sees an extraordinary opportunity to share his own heartfelt sense of his historical role on earth, as well as future hopes for his teachings.
