Genre Screenwriting Stephen V. Duncan, 2014-09-18 It's simple: films need to have commercial value for the studios to produce them, distributors to sell them, and theater chains to screen them. While talent definitely plays a part in the writing process, it can be the well-executed formulaic approaches to the popular genres that will first get you noticed in the industry. *Genre Screenwriting: How to Write Popular Screenplays That Sell* does not attempt to probe in the deepest psyche of screenwriters and directors of famous or seminal films, nor does it attempt to analyze the deep theoretic machinations of films. Duncan's simple goal is to give the reader, the screenwriter, a practical guide to writing each popular film genre. Employing methods as diverse as using fairy tales to illustrate the 'how to' process for each popular genre, and discussing these popular genres in modern television and its relation to its big screen counterpart, Duncan provides a one-stop shop for novices and professionals alike.

Reelpolitik Ideologies in American Political Film Beverly Merrill Kelley, 2012-03-22 In *Reelpolitik Ideologies in American Political Film*, Beverly Merrill Kelley examines more than a century of political movie history, providing a thorough historical background for diametrically opposed political ideologies in order to facilitate debate and dialectical learning. Kelley explores 185 American political movies (categorized by ideological themes and presented in chronological order) in order to illustrate the history of film as well as the history of the specific political ideology. Each chapter includes a case study which provides an in-depth analysis of the single film that best illustrates the ideology at hand, including: The

Candidate (populism), Wall Street (elitism), The Godfather (fascism), All the President's Men (anti-fascism), Patton (interventionism), and M*A*S*H (isolationism). *Reelpolitik Ideologies in American Political Film* establishes a paradigmatic analysis of political films that details the cyclical nature of ideological dialectic throughout American history and identifies the values, attitudes, and beliefs of the voters who choose not to affiliate with Republicans and Democrats, and who often determine the outcomes of elections. The text also includes an extensive ideological filmology spanning more than 100 years of American cinema. This study represents a bold investigation of the political and social values of American film, and is an essential text in the study of the relationship between culture and politics.

The Right Stuff Tom Charity, 2019-07-25 This study places 'The Right Stuff' in the historical context of the political history of the Space Race. It explores director Philip Kaufman's subversive adventurism, his mastery of cinematic form, and the way in which the film combines the mythology of the Western with counter-cultural concerns.

Richard Attenborough Sally Dux, 2016-05-16 Richard Attenborough's film career has stretched across seven decades; surprisingly, Sally Dux's book is the first detailed scholarly analysis of his work as a filmmaker. Concentrating on his work behind the camera, she explores his initial role as a producer, including his partnerships with Bryan Forbes in Beaver Films (1959-64) and with Allied Film Makers (1960-64). As we know, Attenborough went on to direct twelve films, many of which achieved great acclaim, most notably *Gandhi*, which won eight Academy Awards in 1982. Attenborough is most renowned for his biographical films including *Young Winston*, *Cry Freedom*, *Chaplin* and *Shadowlands*, which helped to establish the genre within British cinema. Although his work has often attracted controversy, particularly regarding the representation of individuals and historical events, his films are noted for extracting acclaimed performances from unknown actors such as Ben Kingsley (*Gandhi*), while maintaining his moral and thematic concerns.
