**A World Without Boundaries** Ge Xiong, 2015 More than a century after the Hmong fled atrocities in southern China,

they became trapped in a long civil war in Laos and were involved in more than a decade-long alliance with the United States, fighting against the Communists' expansion in Indochina during the Vietnam War. The Hmong who sided with the United States in the war had faced two major impacts. First, the war had caused unimaginable suffering, a great loss of lives, and a dramatic effect on their natural way of life. Second, after the war, those who managed to escape to Thailand had felt their future was in limbo, while those left behind faced starvation, mass massacres, and persecution. In *A World Without Boundaries*, Xiong weaves descriptive details of haunting and vivid accounts of suffering of a people in a social and political culture that not only perpetuated nepotism, corruption, and wars, but also fostered an inequality among ethnicities, genders, and social economic castes. It is a story of acts of violence, bloodshed, and heartbreak, of love and sacrifice, and above all, of a people who continue to endure many difficulties, yet strive to achieve a better life in an increasingly complex world after they have lost everything. Book jacket.

**A World Without Women** David F. Noble, 2013-01-23 In this groundbreaking work of history, David Noble examines the origins and implications of the masculine culture of Western science and technology. He begins by asking why women have figure so little in the development of science, and then proceeds—in a fascinating and radical analysis—to trace their absence to a deep-rooted legacy of the male-dominated Western religious community. He shows how over the last thousand years science and the practice and institutions of higher learning were dominated by Christian clerics, whose ascetic culture from the late medieval period militated against the inclusion of women in scientific enterprise. He further demonstrates how the attitudes that took hold then remained more or less intact through the Reformation, and still subtly permeate out thinking despite the secularization of learning. Noble also describes how during the first millennium and after, women at times gained amazingly broad intellectual freedom and participated both in clerical activities and in scholarly pursuits. But, as Noble shows, these episodic forays occurred only in the wake of anticlerical movements within the church and without. He suggest finally an impulse toward “defeminization” at the core of the modern scientific and technological enterprise as it work to wrest from one-half of humanity its part in production (the Industrial Revolution’s male appropriation of labor) and reproduction (the millennium-old quest for the artificial womb). An important book that profoundly examine how the culture of Western Science came to be a world without women.

*A World Without Money* The Friends of 4 Million Young Workers, Dominique Blanc, 2020-08-23 *Un Monde Sans Argent: Le Communisme* was originally published in three parts, as three separate pamphlets, in France, between 1975-6. It was produced by Dominique Blanc, shortly after the dissolution of the Organisation des Jeunes Travailleurs révolutionnaires. The name Quatre Millions de Jeune Travailleurs was apparently 'adopted' from a 1971 PSU youth publication (Parti Socialiste

Unifié - a French Socialist Party), presumably to satisfy French publishing laws, and texts continued to be published under this name through the 1970's including the widely distributed tract A Bas Le Proletariat/Vive Le Communisme. Whatever, though, the book speaks for itself. Just read it.

**A rich life without money** Heidemarie Schwermer,2022-01-14 Heidemarie Schwermer lived without money from 1996 to 2016. Little by little, the former teacher and psychotherapist broke away from the prevailing constraints of society and found her feet in her newly acquired freedom. As well as telling the story of an extraordinary life, the book also encourages us to re-evaluate our system of values and to try our hands at interacting with each other in a different way. In 2008, she received the Tiziano Terzani Peace Prize for the Italian translation.
