In Real Life Cory Doctorow, 2014-10-14 Anda loves Coarsegold Online, the massively-multiplayer role playing game that she spends most of her free time on. It's a place where she can be a leader, a fighter, a hero. It's a place where she can meet people from all over the world, and make friends. Gaming is, for Anda, entirely a good thing. But things become a lot more complicated when Anda befriends a gold farmer -- a poor Chinese kid whose avatar in the game illegally collects valuable objects and then sells them to players from developed countries with money to burn. This behavior is strictly against the rules in Coarsegold, but Anda soon comes to realize that questions of right and wrong are a lot less straightforward when a real person's real livelihood is at stake. From acclaimed teen author Cory Doctorow and rising star cartoonist Jen Wang, *In Real Life* is a sensitive, thoughtful look at adolescence, gaming, poverty, and culture-clash. This title has common Core connections. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**EcoComix** Sidney I. Dobrin, 2020-10-02 Exploring image and imagination in conjunction with natural environments, the animal, and the human, this collection of essays turns the ecocritical and ecompositional gaze upon comic studies. The comic form has a long tradition of representing environmental rhetoric. Through discussions of comics including *A.D.: New Orleans After the Deluge*, *We3*, *Concrete*, and *Black Orchid*, these essays bring the rich work of ecological criticism into dialogue with the multi-faceted landscape of comics, graphic novels, web-comics, cartoons, and animation. The contributors ask not only how nature and environment are portrayed in these texts but also how these textual forms inform how we come to know nature and environment--or what we understand those terms to represent. Interdisciplinary in approach, this collection welcomes diverse approaches that integrate not only ecocriticism and comics studies, but animal studies, posthumanism, ecofeminism, queer ecology, semiotics, visual rhetoric and communication, ecoseeing, image-text studies, space and spatial theories, writing studies, media ecology, ecomedia, and other methodological approaches.

**Teaching Young Adult Literature Today** Judith A. Hayn, Jeffrey S. Kaplan, Karina R. Clemmons, 2016-11-02 *Teaching Young Adult Literature Today* introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads—smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles

to using YAL; selecting quality YAL for classrooms while balancing these with curriculum requirements; engaging disenfranchised readers; pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects, such as the absence of lesbian, gay, bisexual, transgender and questioning (LGBTQ) young adult literature in secondary classrooms; and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen. This book has been updated to reflect the wealth of new YA literature that has been published since the first edition appeared in March 2012, and to reflect new trends in technology that influences how adolescents are reading and responding to literature.

*Incredible Doom: Volume 2* Matthew Bogart, Jesse Holden, 2022-09-06 “A thrilling tale of found family discovered between lines of code.”—Sara Alfageeh, co-creator of Squire WELCOME TO EVOL HOUSE... It may look to the unwitting outsider like a broken-down ranch house in the Ohio suburbs—but to those in the know, Evol House is the unexpected sanctuary of truant teens, punk rockers, nerds, and outcasts. At least, that’s what it’s supposed to be. Lately, it feels like everything’s falling apart. In this thrilling sequel to graphic novel *Incredible Doom: Volume 1*, Samir finds that life as a teenage runaway isn’t all he thought it would be; Allison spirals trying to impress her new “friends”, Tina considers leaving town to follow a passionate new connection; and Richard faces down a volatile classmate with a score to settle. Can these friendships, forged on the internet—the most controversial tool of the modern era—survive the “real world”... or will they drop like a bad connection? Praise for *Incredible Doom 1*: “Perfectly captures the mystery and wonder of the early days of the internet.” —Andy Baio, author of *Waxy.org* and co-founder of *XOXO* A rush of love for brave beginnings—of both the early internet and the teens who used it to find themselves and each other. —Eleanor Davis, author of *The Hard Tomorrow* and *How to Be Happy* A compelling story complimented by pleasingly minimal art that skillfully evokes a sense of loneliness and isolation. —Savanna Ganucheau, co-creator of *Bloom* A sharp and authentic wild ride that brought me back to my teenage years as a punk with a dial-up connection.” —Kevin Panetta, co-creator of *Bloom* “A poignant and often hilarious reminder that technology is at its best when it’s easing the ache of loneliness and bringing people together. —Jeff Zentner, Morris Award-winning author of *The Serpent King* “The human stories of desperation, of reaching out, and of discovering new worlds really shine here.” —Booklist (starred review) “A retro-tech drama that gets so much of the Nineties right that it hurts.” —School Library Journal (starred review)

*Picks and Shovels* Cory Doctorow, 2025-02-18 New York Times bestselling author Cory Doctorow returns to the world of *Red Team Blues* to bring us the origin story of Martin Hench and the most powerful new tool for crime ever invented: the

personal computer. The year is 1986. The city is San Francisco. Here, Martin Hench will invent the forensic accountant--what a bounty hunter is to people, he is to money--but for now he's an MIT dropout odd-jobbing his way around a city still reeling from the invention of a revolutionary new technology that will change everything about crime forever, one we now take completely for granted. When Marty finds himself hired by Silicon Valley PC startup Fidelity Computing to investigate a group of disgruntled ex-employees who've founded a competitor startup, he quickly realizes he's on the wrong side. Marty ditches the greasy old guys running Fidelity Computing without a second thought, utterly infatuated with the electric atmosphere of Computing Freedom. Located in the heart of the Mission, this group of brilliant young women found themselves exhausted by the predatory business practices of Fidelity Computing and set out to beat them at their own game, making better computers and driving Fidelity Computing out of business. But this optimistic startup, fueled by young love and California-style burritos, has no idea the depth of the evil they're seeking to unroot or the risks they run. In this company-eat-company city, Martin and his friends will be lucky to escape with their lives. *Second Life In-World Travel Guide* Sean Percival, 2008 Some new users to Second Life may find that it can be very difficult to navigate this new 3D space and even harder to find some of the more interesting places to visit. Many of the best places to visit in Second Life have remained a secret to the most active and seasoned users, until now! Now there is a guide for everyone who wants to access the top destinations on Second Life. This book provides over 200 destinations in six areas - shopping, entertainment, education, real life in Second Life, adults only, and where to live to over 100 top destinations in shopping, entertainment, adults only, virtual travel, education, and where to live. Answering questions like - where to go for a night out on the town, how to find the best shopping experience or find a specific area like Adidas. The book briefly covers the basics of navigating Second Life with tips on flying, teleporting and creating landmarks, then jumps into the main areas of travel. It also includes profiles of some of the people behind these locations. In most cases they are just as colorful as some of the places they create. Each location will be highlighted with a brief write up, screen shots, and location information.

The Lost Cause Cory Doctorow, 2023-11-14 It's thirty years from now. We're making progress, mitigating climate change, slowly but surely. But what about all the angry old people who can't let go? For young Americans a generation from now, climate change isn't controversial. It's just an overwhelming fact of life. And so are the great efforts to contain and mitigate it. Entire cities are being moved inland from the rising seas. Vast clean-energy projects are springing up everywhere. Disaster relief, the mitigation of floods and superstorms, has become a skill for which tens of millions of people are trained

every year. The effort is global. It employs everyone who wants to work. Even when national politics oscillates back to right-wing leaders, the momentum is too great; these vast programs cannot be stopped in their tracks. But there are still those Americans, mostly elderly, who cling to their red baseball caps, their grievances, their huge vehicles, their anger. To their alternative news sources that reassure them that their resentment is right and pure and that climate change is just a giant scam. And they're your grandfather, your uncle, your great-aunt. And they're not going anywhere. And they're armed to the teeth. The Lost Cause asks: What do we do about people who cling to the belief that their own children are the enemy? When, in fact, they're often the elders that we love? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Nebula Awards Showcase 2005** Jack Dann, 2005 In an annual tradition, the members of the Science Fiction and Fantasy Writers of America present the Nebula Awards to honour the authors of the year's most astounding fiction - compelling stories that widen the boundaries of the genre. Includes Eleanor Arnason, Richard Bowes, Jeffrey Ford, Harlan Ellison, Neil Gaiman, Elizabeth Moon, Robert Silverberg and James Van Pelt.

*Little Brother & Homeland* Cory Doctorow, 2020-07-07 Cory Doctorow's two New York Times-bestselling novels of youthful rebellion against the torture-and-surveillance state - now available in a softcover omnibus "A wonderful, important book ... I'd recommend Little Brother over pretty much any book I've read this year." -Neil Gaiman Little Brother Marcus Yallow is seventeen years old when he skips school and finds himself caught in the aftermath of a terrorist attack on San Francisco. In the wrong place at the wrong time, Marcus and his friends are apprehended by the Department of Homeland Security and whisked away to a secret prison where they are brutally interrogated for days. When the DHS finally releases them, Marcus discovers that his city has become a police state. He knows that no one will believe him, which leaves him one option: to take down the DHS himself. Can one brilliant teenage hacker actually fight back? Maybe, but only if he's very careful...and if he chooses his friends well. *Homeland* A few years after the events of Little Brother, California's economy collapses and Marcus finds himself employed by a crusading politician who promises reform. Then his former nemesis, Masha, emerges with a thumbdrive containing WikiLeaks-style evidence of government wrongdoing. When Marcus witnesses Masha's kidnapping by the same agents who detained and tortured him earlier, he has to decide whether to save her or leak the archive that will cost his employer the election and put thousands at risk. Surrounded by friends who consider him a hacker hero, stalked by people who look like they're used to inflicting pain, Marcus has to act, and act fast. "As dead serious as Nineteen Eighty-Four, as potentially important a 'novel of ideas,' with a much more engaging central character and an apparently inexhaustible supply of information on everything from brewing coffee to sneaky surveillance and how to defeat it." —The Wall Street Journal on *Homeland* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**The Bezzle** Cory Doctorow, 2024-02-20 New York Times bestseller Cory Doctorow's *The Bezzle* is a high stakes thriller where the lives of the hundreds of thousands of inmates in California's prisons are traded like stock shares. The year is 2006. Martin Hench is at the top of his game as a self-employed forensic accountant, a veteran of the long guerrilla war between people who want to hide money, and people who want to find it. He spends his downtime on Catalina Island, where scenic, imported bison wander the bluffs and frozen, reheated fast food burgers cost 25\$. Wait, what? When Marty disrupts a seemingly innocuous scheme during a vacation on Catalina Island, he has no idea he's kicked off a chain of events that will overtake the next decade of his life. Martin has made his most dangerous mistake yet: trespassed into the playgrounds of the ultra-wealthy and spoiled their fun. To them, money is a tool, a game, and a way to keep score, and they've found their newest mark—California's Department of Corrections. Secure in the knowledge that they're living behind far too many firewalls of shell companies and investors ever to be identified, they are interested not in the lives they ruin, but only in how much money they can extract from the government and the hundreds of thousands of prisoners they have at their mercy. A seething rebuke of the privatized prison system that delves deeply into the arcane and baroque financial chicanery involved in the 2008 financial crash, *The Bezzle* is a sizzling follow-up to *Red Team Blues*. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Bulletin of the American Society for Information Science and Technology**, 2004

**Enshittification** Cory Doctorow, 2025-10-07 *Enshittification*: it's not just you—the internet sucks now. Here's why, and here's how we can disenshittify it. We're living through the Enshittocene, the Great Enshittening, a time in which the services that matter to us, that we rely on, are turning into giant piles of shit. It's frustrating. Demoralizing. Even terrifying. *Enshittification* identifies the problem and proposes a solution. When Cory Doctorow coined the term *enshittification*, he was not just finding a funner way to say "things are getting worse." He was making a specific diagnosis about the state of the digital world and how it is affecting all of our lives (and not for the better). The once-glorious internet was colonized by platforms that made all-but-magical promises to their users—and, at least initially, seemed to deliver on them. But once users were locked in, the platforms turned on them to make their business customers happy. Then the platforms turned to abusing their business customers to claw back all the value for themselves. In the end, the platforms die. Doctorow's argument clearly resonated. Once named, it became obvious that *enshittification* is everywhere, so much so that the American Dialect Society named it its 2023 Word of the Year, and was cited as an inspiration for the 2025 season of *Black Mirror*. Here, now, in *Enshittification* the book, Doctorow moves the conversation beyond the overwhelming sense of our inevitably *enshittified* fate. He shows us the specific decisions that led us here, who made them, and—most important—how they can be undone.
