**Urban Redevelopment and Neighborhood Gentrification in Global Contexts** Carol Camp Yeakey, Ming Yin, Byung-Hoon Cheon, 2025-09-30 This book focuses on urban redevelopment and neighborhood gentrification in three global contexts: New York City (USA), London (UK) and Seoul (South Korea). It examines the processes and challenges that impact the various constituencies who live and work in these different global neighborhoods, in comparative contexts. In so doing, the authors explore the complexities wrought by our global economy through globalization and competition, and the rapid pace of urbanization, as they impact urban redevelopment and neighborhood gentrification in global cities. While all societies seek to advance, the volume's recurring question is *cui bono*, who benefits from modern day urban redevelopment and neighborhood gentrification, irrespective of geographical setting, and raises the question, 'but, where are the poor to live?'

**Statistics for Criminology and Criminal Justice** Jacinta M. Gau, 2018-02-27 ...It is a great textbook for undergrads who are being exposed to statistics in the field for the first time and for Master's students who need a better grasp of the fundamentals of statistics before taking more advanced courses... —Calli M. Cain, University of Nebraska at Omaha A must-have textbook for Instructors and students alike in the fields of Criminology and Criminal Justice. The book is user-friendly. —Bonny Mhlana, Western Illinois University An Introduction to Statistics in Criminology and Criminal Justice Statistics for Criminology and Criminal Justice, Third Edition demonstrates how statistics is relevant to a student's life and future career by illustrating the logical connections between basic statistical concepts and their real-world implications in criminology and criminal justice. Written for students with a limited mathematical background, author Jacinta Gau eases student anxiety around statistics by simplifying the overarching goal of each statistical technique and providing step-by-step instructions for working through the formulas and numbers. Students use real data from the field to build a foundational knowledge of statistics, rather than merely memorizing key terms or formulas. New to the Third Edition NEW Thinking Critically feature encourages students to apply the concepts from the chapter to real-life scenarios, with open-ended questions that are designed to inspire students to think about the nuances of science, statistics, and their application to criminal justice. Additional illustrations and examples in every chapter keep students engaged with the content and offer ample opportunities for them to practice the techniques. New and updated data sets from a wide range of relevant sources, such as the NCVS and UCR, BJS, LEMAS, the Census of Jails, and much more have been incorporated to give students insights into the state of

criminal justice research today. New research on critical topics encourages students to discuss changes happening in the field such as the Census of Jails, inmate-on-staff assaults in prisons, and homicide rates. Practicing Statistics Whiteboard Videos, available in SAGE edge, walk students through statistical calculations to reinforce key concepts. Previous edition errors have been corrected by a statistician. Give your students the SAGE edge! SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review, study, and further exploration, keeping both instructors and students on the cutting edge of teaching and learning.

Gentrification and its Benefits. Expanding Businesses and Reducing Crime Rates Caroline Mutuku, 2018-07-11 Essay from the year 2018 in the subject Business economics - Economic and Social History, grade: 1.2, , language: English, abstract: Gentrification involves urban development in which the wealthier class displaces the low and middle classes. This displacement is driven by increased property values and high cost of housing. In most cases, gentrification process in a given community, primarily an urban community, is manifested by a significant decrease of average family sizes and an increase of average income. Some of the benefits of gentrification include expansion of businesses, economic development and reduced crime rates. It is also associated with negative consequences such as population displacement, loss of social diversity and homelessness. However, there are management strategies which can address these challenges including rent control, zoning ordinances and community land trusts.

**Handbook of Migration and Globalisation** Anna Triandafyllidou, 2024-04-12 This thoroughly revised and updated Handbook brings together an international range of contributors to highlight the deep interdependence between migration and globalisation, and explore the impact of economic, social, and political globalisation on international population flows. It provides an interdisciplinary perspective on a discussion that has been intensifying and diversifying over the past 25 years. This title contains one or more Open Access chapters.

**Shameless Sociology** Jennifer Beggs Weber, Pamela M. Hunt, 2020-09-23 In 2011, Showtime premiered *Shameless*, a comedy-drama about the audacious behaviors of the Gallaghers, a white, working-class family living in Chicago's South Side. In 2020, the series headed into the production of its eleventh and final season, making it the longest-running original scripted program in Showtime's history. *Shameless* explores topics such as poverty, alcoholism, teen pregnancy, and mental illness. The series has been credited with "reinventing working-class TV" and for humanizing groups that are typically "othered" or simply laughed at. However, others have critiqued the show for relying on and promoting stereotypes, and for the cavalier ways in which it portrays controversial social issues like rape and abortion. *Shameless Sociology: Critical Perspectives on a Popular Television Series* offers a critical eye toward topics such as gentrification, pregnancy and abortion, racial and gender

inequality, and homophobia, and illustrates the ways in which Shameless sometimes confronts and topples stereotypes, yet, at other times, serves to reinforce and perpetuate them. Given the broad appeal of the show and the diverse topics it covers, this book will appeal to the general public, as well as researchers of media, culture, and social inequalities, and undergraduate and graduate students at institutions of higher education.

Advances in Soft Computing Lourdes Martínez-Villaseñor, Ildar Batyrshin, Antonio Marín-Hernández, 2019-10-26 This volume constitutes the proceedings of the 18th Mexican Conference on Artificial Intelligence, MICAÍ 2019, held in Xalapa, Mexico, in October/November 2019. The 59 full papers presented in this volume were carefully reviewed and selected from 148 submissions. They cover topics such as: machine learning; optimization and planning; fuzzy systems, reasoning and intelligent applications; and vision and robotics.

*Washington, DC's Challenges* Abdul K Bangura, 2005 This is the fourth in a series of books dealing with Washington, DC. Like the first three, this also is the outgrowth of special seminars conducted in the Department of Political Science at Howard University. We examine Washington, DC's challenges, because it is vital to know the conditions under which the residents of the most powerful city in the world continue to live, based on sound empirical evidence.

**Copaganda** Alec Karakatsanis, 2025-04-15 From the prizewinning rising legal star, the deeply researched and definitive book on the way the media and police distract us from what matters “Alec Karakatsanis is a leading voice in the legal struggle to dismantle mass incarceration. . . . What he says cannot be ignored.” —James Forman, Jr. “Copaganda” is a special kind of propaganda employed by police, prosecutors, and news media. It stokes fear of police-recorded crime and distorts society’s responses to it. As the United States incarcerates five times more people per capita than it did in 1970—despite record low crime rates—a sprawling and profitable punishment bureaucracy spends a lot of time and money to manipulate what we think that bureaucracy does and why. Copaganda is all around us. When you hear on the radio that crime is up when it’s actually down—that’s copaganda. When your local TV station obsessively focuses on shoplifting by poor people while ignoring crimes of wage theft, tax evasion, and environmental pollution that harm far more people—that’s copaganda. When you hear on your daily podcast that there is a “shortage” of prison guards rather than too many people in prison—that’s copaganda. When your newspaper quotes an “expert” saying that more money for police, prosecutors, and prisons is the answer to violence despite scientific evidence to the contrary—that’s copaganda. Recognized by Teen Vogue as “one of the most prominent voices” on the criminal legal system and a featured guest on shows like The Daily Show with Trevor Noah and The Breakfast Club, Karakatsanis brings his sharp legal expertise, trenchant political analysis, and humorous personal storytelling to delve into one of the most critical topics in our society today.

**Crime Prevention Through Environmental Design** Garland F. White, 2006 This book argues that the level of social

and physical capital in communities can influence the amount of crime. Communities are conceived as varying across positive, weak, or negative levels of social and physical capital. Negative social and physical capital produce higher levels of disorder and crime. Conversely, positive social and physical capital enables residents to lower social problems in communities. Weak social and physical capital allows more disorder because the community's defenses against crime and disorder are not strong enough to combat these problems. The general perspectives include broken windows, defensible space, hot spots, collective efficacy, social disorganization, underclass gang communities, the post-industrialized communities and routine activities theory. The ameliorative programs include the weed and seed program, the moving to opportunity program, community policing, and empowerment zones.

**Place Matters** Peter Dreier, John H. Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends facing America's cities and older suburbs and challenges us to put America's urban crisis back on the national agenda.
