*Odd and deviant behaviour in selected short stories by Edgar Allan Poe and Flannery O'Connor* Anna Broda, 2008-05-14 Thesis (M.A.) from the year 2008 in the subject American Studies - Literature, grade: good, University of Silesia (The Institute of British and American Culture and Literature), language: English, abstract: The aim of the present thesis is to analyse the dark sides of human nature in the literary works by the two prominent American writers, Edgar Allan Poe and Flannery O'Connor. The thesis presents the types of characters whose behaviour is stigmatized with madness, brutality and alienation. The introduction portrays Poe's and O'Connor's profiles in comparison with their contemporary writers. The differences between Edgar Allan Poe and other representatives of Romanticism are discussed. Comparably, the reader is acquainted with these features of Flannery O'Connor's innovative writing that enriched the literary tradition of American South. The introduction presents the major themes of E. A. Poe's and F. O'Connor's fiction, such as inner conflict, death wish, violence and mental deformities. The first chapter describes the impact of the writers' life experiences and personal interests on their literary output. The chapter mentions the traumatic experiences from the authors' lives, such as Poe's early orphanhood and O'Connor's combat with her incurable disease. The chapter is also devoted to the writers' fascination with a sphere of human psyche and their interest in psychopathology. The aim of the second chapter is to depict the heroes whose depravation is so extreme that they lose the ability to decide about themselves and are subjected to the influence of a mysterious force to regain their internal balance. The force is meant to free these figures from their anguish and internal chaos. The third chapter presents the picture of intellectual in Poe's and O'Connor's short stories. This figure aims at exceeding the limits of human mind. As a result, he suppresses his spirit. The chapter portrays contrasting views of both authors on the issue of human intellect. The aim of the fourth chapter is to acquaint the reader with emotions of the characters who experience the conflict with the world and are driven to self-destruction. The conflict, whose main sources are evil and emotional devastation, is presented in such stories as "William Wilson" by E. A. Poe and "The Life You Save May Be Your Own" by F. O'Connor. The last part of the thesis presents the aims Poe and O'Connor had in portraying odd and deviant behaviour.

**The Drug Users Bible [Extended Edition]** Dominic Milton Trott, 2022-09-12 Note that this is the complete and final version of The Drug Users Bible. People are dying because of ignorance. They are dying because unremitting propaganda is denying them vital safety information. They are dying because legislators and the media are censoring the science, and are

ruthlessly pushing an ideological agenda instead. They are dying because the first casualty of war is truth, and the war on drugs is no different. This book makes a significant contribution in confronting this harrowing and tragic narrative. Over a 12 year period the author of this book self-administered over 180 psychoactive substances; both chemicals and plants. For each he recorded the life-sensitive safety data, including the anticipated onset times, the common threshold doses, the routes of administration, and the expected duration of the experience. In addition, for every compound he also produced a trip report, detailing the qualitative experience itself. This delivered another invaluable insight, enabling, for example, an objective assessment of the extent of any loss of judgement and self-control. This is a substantial body of work, embracing a wealth of direct support material, including addiction/overdose advice, relative harm tables, and legal briefings. Its contents also extend to cover aspects such as drug tourism, psychedelic exploration and drug related culture. It is crammed with detailed reference data, and even includes its own drug dictionary. The Drug Users Bible is a unique and unprecedented volume of encyclopaedic research, embracing the full extent of the drugscape. Its objective is to provide, without fear or compromise, core and critical information to support the health, welfare and well-being of the 250 million people in the world who use drugs. The book itself is lavishly illustrated with hundreds of photographs, taken by the author himself.

**THE TEN COMMANDMENTS** The first section comprises a comprehensive introduction to crucial drug concepts and practices. This, in itself, is indispensable prior-reading for anyone who chooses to use a psychoactive substance. It contains, for example, a detailed risk mitigation procedure: 'The 10 Commandments of Safer Drug Use'. This presents a generic set of easily understood steps to aid personal safety, inclusive of an illustrated explanation of how to identify test the substances themselves.

**THE PSYCHOACTIVE DRUGS** The full gamut of psychoactive chemicals and botanicals is meticulously covered. Well known examples include heroin, cannabis, xanax, kratom, cocaine, DMT, methamphetamine, ketamine, LSD, ayahuasca, alcohol, and MDMA. Lesser known examples include 4-ho-met, calea, ephenidine, mad honey, mapacho, a-PHP, and yohimbe. The scope also extends well beyond the most common categories, of psychedelics, stimulants, depressants and dissociatives. Included, for example, are dream herbs and nootropics. The investigation of psychoactivity was unbounded and unfettered.

**THE WORLDSCAPE** Drug use does not occur in a vacuum, so the final section considers the wider context, with in-depth examination of everything from travel to the horrors of the war on drugs. Facts, science and genuine statistics replace the myths, fabrications and propaganda of the prevailing social order, again with welfare and safety emphasized.

**EDUCATION SAVES LIVES** Education underpins harm reduction, and is the primary driver throughout. Indeed, personal safety is the first and last message, and guides the entire narrative. This is a book for drug users and their families. It is a book which will help to avert tragedy. It is a book which will save lives.

*New Perspectives on Dystopian Fiction in Literature and Other Media* Saija Isomaa, Jyrki Korpua, Jouni Teittinen, 2020-08-27 This collection of essays examines various forms of dystopian fiction in literature, television, and digital

games. It frames the timely trend of dystopian fiction as a thematic field that accommodates several genres from societal dystopia to apocalyptic narratives and climate fiction, many of them examining the hazards of science and technology to human societies and the ecosystem. These are genres of the Anthropocene par excellence, capturing the dilemmas of the human condition in the current, increasingly precarious epoch. The essays offer new interpretations of classical and contemporary works, including the canonised prose of Orwell, Atwood and Cormac McCarthy, modern pop culture classics like *Battlestar Galactica*, *Fallout* and *Hunger Games*, and the work of Johanna Sinisalo, a pioneer of Finnish speculative fiction. From Thomas Pynchon to *Watership Down*, the volume's multifaceted approach offers fresh perspectives to those already familiar with existing research, but it is no less accessible for newcomers to the ever-expanding field of dystopian studies.
