Raffaella Di Napoli

Five Past Midnight in Bhopal Dominique Lapierre, 2025-05-01 A gripping, kaleidoscopic account of a horrific industrial disaster that shook the world, from world-renowned humanitarian and internationally bestselling author Dominique Lapierre. It was December 3, 1984. In the ancient city of Bhopal, a cloud of toxic gas escaped from an American pesticide plant, killing and injuring thousands of people. When the noxious clouds cleared, the worst industrial disaster in history had taken place. Now, Dominique Lapierre brings the hundreds of characters, conflicts, and adventures together in an unforgettable tale of love and hope. Readers will meet the poetry-loving factory worker who unleashes the apocalypse, the young Indian bride who was to be married that terrible night, and the doctors who died that night saving others.

Five Past Midnight in Bhopal Dominique Lapierre, 2008-02 It was five past midnight on 3 Dec. 1984 when a terrifying cloud of toxic gas escaped from an American pesticide plant in Bhopal, India. Killing 30,000 & injuring 500,000 more, it was the most murderous industrial disaster in history. This book puts faces to the masses that were killed or injured. Hundreds of characters, situations & adventures are telescoped in this fresco full of love, heroism, faith & hope. This is a real tragedy of crucial relevance to our times. And the people of Bhopal are still suffering, with 150,000 people chronically affected. No court of law has ever passed judgment on Union Carbide for the crime committed & Warren Anderson, its then chairman. A beautifully written, moving account of the night that forever changed India.

Willful Neglect Charles S. Faddis, 2010-03-02 The Central Intelligence Agency's most respected former Middle East counterterrorism officer applies a critical lens to the state of America's Homeland Security system and asks, Are we really any safer than we were on 9/11? Have the vast new bureaucracies that have arisen and the billions spent translated into real protection? Or has complacency set in? His answer is terrifying.

Fatal Airs Scott Christianson, 2010-07-15 This is the first book to examine the deadly history and potential apocalyptic future of both natural and man-made lethal gases that threaten our world. *Fatal Airs: The Deadly History and Apocalyptic Future of Lethal Gases That Threaten Our World* relates the fascinating—and appalling—stories of the discovery, development, applications, and occupational and public health hazards of natural and man-made gases. Some of these gases have figured in mass extinctions. Others have created havoc through their use in chemical warfare or their accidental release. Among the hundreds of man-made lethal gases, several have been singled out for attention, including chlorine,

phosgene, mustard gas, lewisite, hydrogen cyanide, and the nerve agents tabun, sarin, soman, VX, and methyl isocyanate. The book also examines some naturally occurring gases, such as carbon dioxide, sulfur dioxide, hydrogen sulfide, carbon monoxide, methane, and radon. Colorful accounts capture the characteristics and history of each of these mysterious substances, focusing on key episodes in scientific discovery and exploration since World War I.

Utopia's Ghost Reinhold Martin, 2010-04-15 Written at the intersection of culture, politics & the city, particularly in the context of corporate globalization, 'Utopia's Ghost' challenges dominant theoretical paradigms & opens new avenues for architectural scholarship & cultural analysis.

Gangster Capitalism Michael Woodiwiss,2005 We know all about organized crime. Blockbuster movies and books, and thousands of news stories continually tell an eager public that organized crime is what gangsters do. Closely knit, ethnically distinct, and ruthlessly efficient, these mafias control the drugs trade, people trafficking and other serious crimes. If only states would take the threat seriously and recognize the global nature of modern organized crime, the FBI's success against the New York mafias could be replicated throughout the world. The wicked trade in addictive drugs could be halted. The trouble is, as Michael Woodiwiss demonstrates in shocking and surprising detail, what everyone knows is pretty much completely wrong. Organized crime is dominated by employees of multinational companies, politicians and bureaucrats. Gangsters are a problem, but they are minor players when compared with the intelligence and law enforcement agencies that selectively enforce drugs prohibition and profit from it. The position of large corporations in the global economy provides the most mouth-watering opportunities for illegal profits. Woodiwiss shows how respectable businessmen and revered statesmen have seized these opportunities in an orgy of fraud and illegal violence that would leave the most hardened Mafioso speechless with admiration.
