Marketing and Advertising in the Online-to-Offline (O2O) World Dinana, Hesham Osama,2022-10-28 The field of marketing has changed for the good as the lines between the online and the offline worlds continue to blur and merge as new metaverses emerge. The evolution of online-to-offline and offline-to-online strategies and business models are transforming the research agenda for academicians and work practices for professionals. Further study on this evolution is required to fully understand the opportunities and future directions. Marketing and Advertising in the Online-to-Offline (O2O) World presents an insight into online and offline marketing strategies and practices and focuses on the emerging trend in the online and offline worlds. The book also explores the potential use of emerging technologies such as virtual reality, mixed reality, and big data analytics in different marketing and advertising functions. Covering key topics such as consumer behavior, brand equity, advertising, and brand performance, this reference work is ideal for business owners, industry professionals, managers, administrators, policymakers, researchers, academicians, scholars, practitioners, instructors, and students.

Entrepreneurship and Development in Nepal Pawan Adhikari,Jay Mitra,Shovita Dhakal Adhikari,Rupesh Krishna Shrestha,2024-09-27 This book illustrates a connection between entrepreneurship and development in an emerging economy context, focusing on Nepal. That entrepreneurship contributes to sustainable development by creating jobs, elevating economic growth, promoting innovation, and mitigating social and environmental challenges is discussed in other works. Entrepreneurship is linked to several sustainable development goals. However, relatively little is known about entrepreneurship in Nepal at an international level and rarely have researchers attempted to explore the relationship between entrepreneurship and development in the Nepalese context. In this regard, this book generates valuable insights, not only contributing to policy implications but also setting a direction for entrepreneurship research in Nepal within a wider context of sustainable development. In particular, the book discusses several important issues on entrepreneurship, including migrant entrepreneurship, entrepreneurial ecosystem, social entrepreneurship, entrepreneurial finance, community-based entrepreneurship, and tourism entrepreneurship, issues which are intrinsically connected to the sustainable development of the country. In addition to policy contributions, the book provides a direction for facilitating theoretically underpinned work in entrepreneurship and development in the Nepalese context. The factors driving entrepreneurship, including specific social-cultural and historical factors that remain relevant for emerging economies, and emancipation, inclusion and

participation, which are central to achieving development, are to be theorized in order to better understand the relationship between entrepreneurship and development. The topics covered by the book will be of interest to policy-makers from ministries and departments, international organizations, and development partners.

International Business in the 21st Century Bruce D. Keillor,Vijay R. Kannan,2011-05-04 This comprehensive, three-volume set covers every aspect of international business operations and offers a detailed discussion of important issues looming on the horizon. Managerial Economics in a Global Economy Dominick Salvatore,2007 *Managerial Economics in a Global Economy*, Sixth Edition, synthesizes economic theory, decision science, and various aspects of business administration studies, examining how they interact as a firm attempts to reach optimal profitability and efficiency in the face of constraints. It features 129 real-world case studies and six longer, detailed studies--more than any other text on the market. In addition, author Dominick Salvatore fully integrates material on the international ramifications of managerial decisions into the entire text, instead of segregating it in a separate chapter or in a few case studies. The book is divided into five parts. Part One examines the nature and scope of managerial economics, presents the theory of the firm, and reviews optimization techniques. Part Two analyzes demand. Part Three presents the theory and measurement of the firm's production and costs. Part Four brings together demand analysis with production and cost analysis to show how price and output are determined under various forms of market organization. Part Five examines regulation and antitrust, the role of government in the

economy, risk analysis, long-term investment decisions, and capital budgeting. *Managerial Economics in a Global Economy*, Sixth Edition, is ideal for upper-level undergraduate and graduate courses in managerial economics.

Regional Economic Outlook, November 2008, Asia and Pacific International Monetary Fund. Asia and Pacific Dept,2008-11-24 The November 2008 Asia and Pacific REO focuses on the difficult economic environment facing policymakers in the region. Chapter 1 provides an overview of the outlook for the region. With growth slowing, and the global financial crisis increasingly affecting the region, macroeconomic and financial policies will need to be proactive. Chapter 2 looks more closely at inflation in Asia, finding that it is increasingly imported and volatile, which raises important questions about monetary policy frameworks in the future. Chapter 3 takes a longer-term look at how the expected rapid aging of the region may affect capital flows and financial markets in the years to come.
