Worship Formation Steven D. Brooks, 2020-02-17 Worship Formation provides a thoughtful perspective on Christian worship and addresses how each element within a worship service spiritually forms the worshiper. Brooks challenges the reader toward an understanding that worshiping through music, prayer, Scripture reading, Communion, sermon, stillness, giving, and baptism engages the worshiper in spiritual formation. Worship Formation encourages the worshiper to not just go through the motions when they gather for worship, but to realize that they are being formed through each element of worship, and challenges those in leadership to be thoughtful in their approach to planning and leading worship services.

Back for the Future: Sociological Theory and Today's Big Issues James Simpson, 2015-12-02 What would the great

founders of modern sociology have to say about happiness, modern capitalism, generation rent or pop music? What were their ideas about? Back For the Future introduces the concept of sociological investigation and describes the theoretical approaches of Emile Durkheim, Karl Marx and Max Weber in the context of their times and through the big challenges in society today. The book discusses world happiness research, the internet and 'glocalisation', sexual freedom and gender, 'collective effervescence', modern capitalism, the ever-present bureaucratic model of management in society, social behaviour and cognitive bias amongst many other topics in today's world. You even get fine art samples, a fun puzzle and a great You Tube link to illustrate the ideas! In reader testing Back for the Future was highly rated as an introductory reader, a teaching and learning aid and as a student text that cuts across disciplinary boundaries.

Theater of State James Ball, 2019-11-15 In this innovative study of performance in international relations, James R. Ball III asks why states and their representatives come to the United Nations to perform for a global audience and how those audiences may intervene in the spectacle of global politics. Theater of State looks at key spaces in which global politics play out: in debating forums of the UN, at the International Criminal Court in The Hague, and in peacekeeping operations in Africa and the Middle East, as well as in a variety of related media productions. Ball argues that culture and politics form a unified field organized by the theatricality of its actors and the engaged spectatorship of its audiences. He provides a theory of global political spectatorship: of how the world watches itself in institutions and beyond, and of what citizens and diplomats do by watching. This study of the lived experience of spectacular politics on the world stage draws on theories of theater, performance, and politics to offer new ways of approaching issues of war, cosmopolitanism, international justice, governance, and activism. Situated at the nexus of two disciplines, performance studies and political science, this volume encourages conversations between the two so that each might offer lessons to the other.

Henri Lefebvre, Metaphilosophy, and Modernity Patrick Gamsby, 2025-08-22 Henri Lefebvre, Metaphilosophy, and Modernity provides a new interpretation of the work of Henri Lefebvre (1901-1991), reframing it as being above all a metaphilosophy of modernity. Henri Lefebvre is increasingly being recognized as one of the great twentieth-century thinkers. Nevertheless, the majority of scholarship on Lefebvre predominantly focuses on his theorizing of space, often taking Lefebvre's The Production of Space as the point of departure, and/or on his theorizing of everyday life, with his multi-volume Critique of Everyday Life as the focal point. This book argues that it is Lefebvre's concept of metaphilosophy that provides the connective tissues for these works, one that is chiefly concerned with deciphering the enigma of modernity. The book will appeal to a wide interdisciplinary and international audience from the fields of sociology, philosophy, cultural studies, geography, the history of ideas, and literary studies. This includes scholars and students interested in Henri Lefebvre's writings, everyday life, modernity, space/time, leisure/work, continental thought, critical theory, Marxism, and technology.

The Poetry of Pop Adam Bradley, 2017-03-28 A trailblazing exploration of the poetic power of popular songs, from Tin

Pan Alley to the Beatles to Beyoncé and beyond. Encompassing a century of recorded music, this pathbreaking book reveals the poetic artistry of popular songs. Pop songs are music first. They also comprise the most widely disseminated poetic expression of our time. Adam Bradley traces the song lyric across musical genres from early twentieth-century Delta blues to mid-century rock 'n' roll to today's hits. George and Ira Gershwin's "Fascinating Rhythm." The Rolling Stones' "(I Can't Get No) Satisfaction." Rihanna's "Diamonds." These songs are united in their exacting attention to the craft of language and sound. Bradley shows that pop music is a poetry that must be heard more than read, uncovering the rhythms, rhymes, and metaphors expressed in the singing voice. At once a work of musical interpretation, cultural analysis, literary criticism, and personal storytelling, this book illustrates how words and music come together to produce compelling poetry, often where we least expect it.
