*I fell in love with you and I cried* Rachel Hill, 2022-04-02 *I fell in love with you and I cried* is a spiritual, personal and travel memoir of a year in India and Southeast Asia. In April 2017 my husband and I asked ourselves, what would we do if we could do anything? We decided to sell up, leave our jobs and go travelling, along the way unpicking the conditioning of property, career and security and exploring what a life with less stuff would look like. We gave away most of our possessions and in March 2018 we went to India, where we spent seven months in all, then Thailand, Tokyo, Nepal, Cambodia and Vietnam. My book documents the trip through the eyes of a relatively inexperienced traveller. The sights, sounds and colours of India and Southeast Asia as well as the physical and emotional challenges of a year of travel. This was a pre Covid19 trip of a lifetime; making connections with local people and fellow travellers and putting beliefs about minimalism into practice by living out of a small backpack for a year of slow travel.

The Earth Is Enough Harry Middleton, 1996-02-01 In this touching memoir of his boyhood on a farm in the Ozark foothills, Harry Middleton joins the front rank of nature writers alongside Edward Hoagland and Annie Dillard. It is the year 1965, a year rife with change in the world and in the life of a boy whose tragic loss of innocence leads him to the healing landscape of the Ozarks. Haunted by indescribable longing, twelve year old Harry is turned over to two enigmatic guardians, men as old as the hills they farm and as elusive and beautiful as the trout they fish for with religious devotion. Seeking strength and purpose from life, Harry learns from his uncle, grandfather, and their crazy Sioux neighbor, Elias Wonder, that the pulse of life beats from within the deep constancy of the earth, and from one's devotion to it. Amidst the rhythm of an ancient cadence, Harry discovers his home: a farm, a mountain stream, and the eye of a trout rising.

Food Culture in India Colleen Taylor Sen, 2004-07-30 The extreme diversity of Indian food culture—including the dizzying array of ingredients and dishes—is made manageable in this groundbreaking reference. India has no national dish or cuisine; however, certain ingredients, dishes, and cooking styles are typical of much of the subcontinent's foodways. There are also common ways of thinking about food. The balanced coverage found herein covers many states ignored by previous food writers. Students will find much of cultural interest here to complement country studies and foodies will discover fresh perspectives. From prehistoric times there has been considerable mixing of cultures and cuisines within India. Today, the endless variations in cuisine reflect religious, community, regional, and economic differences and histories. Sen, a noted

author on Indian cuisine, consummately encapsulates the foodways in historical context, including the influence of the British period (the Raj). Among the topics covered are the restrictions of various religions and castes and the northern wheat-based vs. the southern rice-based cuisine, with an extensive review of each regional cuisine with typical meals. She characterizes the only-recent restaurant culture, with mention of Indian fare offered abroad. In addition, the Indian sweet tooth so apparent in the dishes made for many festivals and celebrations is highlighted. The roles of diet and health are also explained, with an emphasis on Ayurveda, which is gaining support in Western countries. A plethora of recipes for different regions and occasions complements the text.
