The Profession and Practice of Horticultural Therapy Rebecca L. Haller,Karen L. Kennedy,Christine L. Capra,2019-02-04  
The Profession and Practice of Horticultural Therapy is a comprehensive guide to the theories that horticultural therapists use as a foundation for their practice and provides wide-ranging illustrative models of programming. This book aims to enhance understanding and provide insight into the profession for both new and experienced practitioners. It is directed to students in the field, along with health care and human service professionals, to successfully develop and manage horticultural therapy programming. The book is organized into four sections: an overview of the horticultural therapy profession, theories supporting horticultural therapy use, models for programs, and tools for the therapist. Horticultural therapy serves the needs of the whole individual when practitioners have a broad and deep comprehension of the theories, techniques, and strategies for effective program development and management. The Profession and Practice of Horticultural Therapy provides relevant and current information on the field with the intent to inspire best practices and creative, effective programs.

The publication of the yearbook did not become annual until 1887, as such there are no yearbooks for 1885 or 1886. The only other interruption in yearbooks was for the years 1973 and 1974. There are still yearbooks from these years, but they were published by the Wisconsin Alumni Association rather than the student body, as such they are spare, consisting mostly of portraits of students. UW Archives currently holds at least one copy of every published volume. The 1st copy of each volume is held onsite at UW Archives while the second and third copies, where they exist, are held offsite.
