Nation & Narration Homi K Bhabha,2013-04-15 Bhabha, in his preface, writes 'Nations, like narratives, lose their origins in the myths of time and only fully encounter their horizons in the mind's eye'. From this seemingly impossibly metaphorical beginning, this volume confronts the realities of the concept of nationhood as it is lived and the profound ambivalence of language as it is written. From Gillian Beer's reading of Virginia Woolf, Rachel Bowlby's cultural history of Uncle Tom's Cabin and Francis Mulhern's study of Leaviste's 'English ethics'; to Doris Sommer's study of the 'magical realism' of Latin American fiction and Sneja Gunew's analysis of Australian writing, Nation and Narration is a celebration of the fact that English is no longer an English national consciousness, which is not nationalist, but is the only thing that will give us an international dimension.

Odious Debt Edward Jones Corredera,2024-10-21 What are fallen tyrants owed? What makes debt illegitimate? And when is bankruptcy moral? Drawing on new archival sources, this book shows how Latin American nations have wrestled with the morality of indebtedness and insolvency since their foundation, and outlines how their history can shed new light on contemporary global dilemmas. With a focus on the early modern Spanish Empire and modern Mexico, Colombia, and Argentina, and based on archival research carried out across seven countries, *Odious Debt* studies 400 years of history and unearths overlooked congressional debates and understudied thinkers. The book shows how discussions on the morality of debt and default played a structuring role in the construction and codification of national constitutions, identities, and international legal norms in Latin America. This new history of the moral economy of the Hispanic World from the 1520s to the 1920s illuminates contemporary issues in international law and international relations. Latin American jurists developed a global critique of economics and international law that continues to generate pressing questions about debt, bankruptcy, reparations, and the pursuit of a moral global economy.
