Islam within Judaism and Christianity, A Voice From The Past Ahmed Shendy Yousef, 2014 Islam within Judaism and Christianity is a truth, truth that is clear and bright in the midst of a dark world that has lost its way through misunderstandings that are guided by Satan. This book will remove the veil off of God's concealed messages, and it will impact the twisted long life of preaching that was used for indecent political power and financial gains, causing billions of innocent lives lost throughout history. Through Islam within Judaism and Christianity I would like to introduce you to the messages of God from the holy Bible and The Quran so that you can discover that we are all followers of Moses, Jesus and Mohammed. We are one nation that belongs to the same one God, so we may consider changing our attention from striking one another to striking our one enemy, Satan! This is a book that assists you in better understanding one another in pursuit of making our world a better place and doing it together. Ahmed S. Yousef, PT. Ph.D.

Quran - The Final Testament - Authorised English Version Dr. Rashad Khalifa Ph.D., 2010-12-16 Proclaiming One unifying religion for all the people. The Book is, without a doubt, a revelation from the Lord of the Universe. The Final Testament comes with built-in physical evidence that it is God's message to you; it is mathematically composed beyond human capability. This proves that God is the Truth, and that He revives the dead, and that He is Omnipotent. Our Salvation in the hereafter lies on upholding The Quran. The Quran is God's Final Testament to the world. Unlike any other book, the Quran is taught by God (55:1-2); He teaches us what we need at the time we need it. This is why we read the Quran hundreds of times without getting bored. We can read a novel, for example, only once. But the Quran can be read an infinite number of times, and we derive new and valuable information from it every time. Since the Quran is God's message to all the people, regardless of their language, the Quran is accessible to the believers, regardless of their language (41:44). This explains a profound phenomenon: the believers who do not know Arabic know the Quran better than the Arabic speaking unbelievers. Because of the invisible forces serving the Quran, it is readily and enjoyably accessible to the sincere believers, and utterly

inaccessible to the unbelievers (17:45, 18:57, 56:79).

Unveiling the True Identity of Jesus Christ The Sincere Seeker Collection, 2022-02-23 While Islamic theology differs from Christianity's, Muslims and Christians hold Jesus Christ in high esteem. He is a central figure in both religions, loved, admired, respected, and revered. Both Muslims and Christians believe in Jesus' virgin birth, ability to perform miracles and return at the end of time. However, both religions differ in Christ's nature and life occurrences. While Christians accept Jesus Christ as the divine Son of God, Muslims take him as a human and one of God's mighty noble Messengers sent to relay God's Message to his people, just as many past Prophets did. This book encourages Christians and non-Muslims alike to cross-examine what the Bible and Jesus Christ state about God, His message to humanity, the nature of Jesus Christ, and related concepts. If done sincerely, one should conclude that neither Jesus Christ nor the Bible teaches what the Church teaches today. One concludes that Jesus Christ and the Bible never mention Jesus Christ as the Son of God, part of the Trinity, nor did they teach the concepts of crucifixion, redemption, or permission to abandon the law of the Prophet Moses PBUH. Many well-intentioned Christians follow modern Christianity, a corrupted version of the teachings of Jesus Christ - those he never preached nor taught. This book provides irrefutable proof from the Bible and common logic that Allah is our Creator, and Jesus Christ was a Muslim and human Prophet sent to the nation before us, the Children of Israel. It provides irrefutable evidence from the Bible that the Revelation of Jesus Christ was tampered with by humans after his departure and that the Bible we read today is not the inspired Word of God. One must use their God-given gift of intellect and logic to investigate, ponder, and reflect without allowing their emotions and cultural biases to cloud their judgment, blindly following their Church. To my dear Christian, you must research and know the reality of Jesus Christ and his message so you may be guided to God, enter Paradise eternally, and avoid the ultimate punishment. Topics in the book include: Understanding the Concept of God Sending Messengers to Relay His Message Basic Understanding of the Similarities and Differences Between Islam, Christianity, & Judaism Who is Allah? Whom Are Jesus Christ and Mary PBUT? Whom Was Jesus Christ Sent to Address? What Was His Mission? Did He Come with a New Law as Christians Claim? Is Jesus God, Son of God, or Prophet of God? What does the Bible Say? Trinity Crucial Differences Between God & Jesus Christ Who is the Author of the Bible? Does the Bible Contain Errors & Contradictions? Pornography, Incest, & Immorality in the Bible Is Jesus Christ God Because He was Born With no Father? Christians Claim Jesus Christ is Divine, and his Ability to Perform Miracles is Proof The Bible Labels Jesus Christ as 'The Son of God' Son of Man' 'Lord' 'His Servant' 'The Father and I are one' 'For There are Three That Bear Record in Heaven' The Word 'Begotten' in the Bible 'I am the way and the truth and the life' The Role of Paul in Christianity and How He Destroyed the Teachings of Jesus Christ Paganism on Christianity Atonement Was Jesus Christ Crucified? Proofs that Islam is the Only True Religion of God Scientific & Mathematical Miracles, Quality & Eloquence, Prophecies, Predictions, Knowledge of Past Events of the Holy Quran The Prophet Muhammad PBUH in a Nutshell & Prophesied in The

Turning Point Humera T. Ahsanullah,2013-01-16 ? It is the desire in a person that makes one seek the truth. And it is the silent whispers of the heart that stirs those desires to take the courageous path. Like the whispers of my heart to have my independent thinking, to examine everything. Like the yearning in me to find out why I exist and what really is the concept of God. This, led me to embark on my journey of discovery, I was ready to take on the challenge. Like me, every one of us desires to know the answers to the meaning of their lives and beliefs. Few gather the courage to walk this road. Fear of what they might discover at the Turning Point of the road grips them, fear of losing the comfort zone they possess shatters them and fear of being alone in the end terrifies them. So they shun their desire for truth and subdue their courage for questioning and challenging. What Turning Point has to offer is only for those who are ready to meet their fears, take the challenge and find the answers. If our Creator is the truth, our puny challenges and questions can do no harm to its existence. Are you ready?

Mathematical Miracles in the Writing of the Qur'an Part 1 Sarwat Parvez,2025-03-24 The Quran, the divine revelation to humanity, has been revered for its unparalleled linguistic beauty, deep wisdom, and profound guidance. However, beyond its spiritual and literary dimensions, the Quran also exhibits a striking numerical structure, revealing intricate mathematical patterns that point to divine precision in its composition. For centuries, scholars and researchers have marveled at the

Quran's numerical harmony, uncovering patterns in its word repetitions, verse counts, letter arrangements, and mathematical relationships. These patterns are not arbitrary; they reflect an intelligent design embedded within the sacred text, reinforcing its divine origin. This book, *Mathematical Miracles in the Writing of the Qur'an*, embarks on a journey to explore these fascinating numerical phenomena, Surah by Surah, beginning with Surah Al-Fatiha, the opening chapter of the Quran. Through meticulous analysis, we will uncover connections to the Fibonacci sequence, the Golden Ratio, prime numbers, and the mysterious recurrence of the number 19-a number explicitly referenced in the Quran itself. By examining the mathematical structure within the Quran, we gain a deeper appreciation for the text's divine authorship and the meticulous balance that governs its arrangement. This study is not merely an intellectual pursuit; it is an invitation to reflect on the Quran's depth and its undeniable precision. As we begin this journey with Surah Al-Fatiha, let us uncover the hidden numerical patterns that affirm the Quran's miraculous nature.

Atlas of Creation Hârun Yahya, 2006 Some 150 years ago, the British naturalist Charles Darwin proposed a theory based on various observations made during his travels, but which could not be supported by any subsequent scientific findings. In essence, his theory of evolution consisted of various scenarios, assumptions and conjectures that Darwin dreamed up in his own imagination. According to his evolution scenario, inanimate substances came together by chance to give rise to the first living cell. No doubt this claim was highly inaccurate, and one that could not be corroborated by any scientific evidence or findings. Again according to that myth, this single-celled life form gradually and again by chance turned into the first living species of microbe in other words, it evolved. According to the evolution error, all the life forms on Earth, from bacteria on up to human beings, emerged as the result of this same imaginary process. Darwin's claims were of course based on no scientific evidence or findings. But since the scientific understanding and technological means available at the time were at a fairly primitive level, the full extent of the ridiculous and unrealistic nature of his assertions did not emerge fully into the light of day. In such a climate, Darwin's scenarios received general acceptance from a wide number of circles. - Publisher.

The Unchallenged Truth Rashad Imam, Mohammad Fazili, 2013-10-13 Every word, indeed every letter in Quran is

placed in accordance with a mathematical design that is clearly beyond human ability as established with the ultimate in scientific proof, namely, mathematics, the evidence here comes in the form of extremely intricate code. In addition to the challenge posed to all 'jin and men' to bring a surah like that of Quran, which they could not do then, nor can anyone bring it ever after, here is a challenge of mathematical control of number of letters in Quran. This evidence proves the authenticity and perfect preservation of Quran and also confirms the miracles of previous messengers, including Noah, Abraham, Moses, David, Solomon and Jesus. None of us witnessed the parting of Red Sea or the virgin birth of Christ, but upon reviewing the evidence presented here and examining the appropriate narration, the reader becomes as positively certain as an eye-witness.
