Ban This! Christina Ellis, Renee Ellis, Edha Gupta, Ben Hodge, Patricia Jackson, Olivia Pituch, 2025-09-16 "Each demand to ban a book is a demand to deny each person's constitutionally protected right to choose and read books that raise important issues and lift up the voices of those who are often silenced." —Deborah Caldwell-Stone, director of the ALA Office for Intellectual Freedom In September 2021, the school board in York, Pennsylvania, voted to remove a record-breaking number of books from school libraries in its community. The Panther Anti-Racist Union (PARU) at Central York High School, comprised of four students and two advisors, successfully fought the ban by organizing protests, speaking at school board meetings, and participating in media interviews to raise awareness. In *Ban This!: How One School Fought Two Book Bans and Won* (and How You Can Too), the members of PARU—Christina Ellis, Renee Ellis, Edha Gupta, Ben Hodge, Patricia A.

Jackson, Olivia Pituch—give actionable advice on how to respond to book challenges that happen in your school and community. Learn how to push back against book bans with arguments against the common reasons given to ban books in schools and public libraries, speak out against censorship, and win the right to intellectual freedom.

Children's Literature and Culture Rebecca Rowe, 2025-08-08 Children's Literature and Culture: An Introduction guides readers in the study of culture in, around, and through children's literature. Children's literature has long been used as a mechanism by which a culture passes its values from one generation to the next. Because of this culturally didactic purpose,

children's literature can be viewed as one of the most fruitful areas of study of any given culture. At the same time, studying the cultures from which works of children's literature emerge and in which they circulate can also help better understand not only the ideas of childhood that underpin individual texts for children but the role they play in the construction and transmission of different cultural ideologies. This book teaches readers this double work of using culture to understand children's literature and vice versa. This volume traces the scholarly methodologies and histories that have attended the study of each of the 20 chapters' given subject—from the representation of race in and around children's literature to questions of censorship to how libraries can and do shape children's literature. In the process, it prepares readers to confidently enter and forward scholarly debates and to teach such debates to their own students.

Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals Hartsfield, Danielle E., 2021-06-25 Perspectives and identity are typically reinforced at a young age, giving teachers the responsibility of selecting reading material that could potentially change how the child sees the world. This is the importance of sharing diverse literature with today's children and young adults, which introduces them to texts that deal with religion, gender identities, racial identities, socioeconomic conditions, etc. Teachers and librarians play significant roles in placing diverse books in the hands of young readers. However, to achieve the goal of increasing young people's access to diverse books, educators and librarians must receive quality instruction on this topic within their university preparation programs. The Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals is a comprehensive reference source that curates promising practices that teachers and librarians are currently applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature. Given the importance of sharing diverse books with today's young people, university educators must be aware of engaging and effective methods for teaching diverse literature to pre-service teachers and librarians. Covering topics such as syllabus development, diversity, social justice, and activity planning, this text is essential for university-level teacher educators, library educators who prepare pre-service teachers and librarians, university educators, faculty, adjunct instructors, researchers, and students.
