Beginner Piano Lessons for Kids Book Jay Wamsted,2018-09-24 The Beginner Piano Lessons for Kids Book with Online Video & Audio Access by Jay Wamsted was designed to help the absolute beginning student learn to play the piano or keyboard. This step by step course is designed for elementary school-aged children (ages 5-11) and quickly teaches the student to play songs they will know and love. These lessons start by playing with just the right hand and gradually build to adding the left hand thumb and learning how to play with both hands. Song arrangements were carefully selected to provide an easy transition from learning the basics to covering more interesting rhythms, techniques, and musical ideas. The book features standard music notation for each song and exercise along with fingering notation and hand shifts to make the course easier to learn. This method includes online access to over an hour of video instruction that will help the child play with proper form and timing. The video shows the piano, both hands, and the sheet music on-screen at the same time. The audio tracks allow the student to practice and play along with easy songs at two speeds. The slower speed features just the piano playing the song. The faster version includes vocals and other instruments in a performance-like setting. The combination of book, video, and audio make this the easiest to understand piano course for kids available.Songlist: Mary Had a Little Lamb, Ode to Joy, Hot Cross Buns, Jingle Bells, Oh When the Saints, Twinkle Twinkle Little Star, Rain Rain Go Away, This Old Man, Hush Little Baby, I Have a Little Dreidel, Frere Jacques, Alouette, Yankee Doodle- Watch & Learn, Inc.

Play Easy Piano Songs with just One Hand Helen Winter, This book is for adults who are absolute beginners in music. You don't have to read sheet music or have any kind of musical background. No previous knowledge is necessary. None at all. If you don't know musical notes well, you can PLAY BY LETTER. There are 7 sections and 43 songs. All songs are adapted for beginners and can be played with just one hand. Some songs in this book have several versions, with one of them being more advanced. This will allow you to see how the same melody can be played in different keys. Whatever your age, it is never too late to begin to play the piano (or any keyboard instrument). For middle-aged people, learning a musical instrument can be a

great digital detox, and it also can unlock the door to a new interest or forgotten emotions. Songs from Around the World

First Piano Book for Beginners Victor Shevtsov,2014-11-17 The First Piano Book for Beginners is the latest version of the Little Pianist First Steps method books. Although the First Piano Book for Beginners presents the same pedagogical ideas and contains the same as in previous edition instructive repertoire, a different form of the book was used. Instead of lesson by lesson structure the material is presented in the consecutive order of piano playing skills, which are explored in the book. This gives the teachers more freedom and flexibility in adjusting the speed of learning to the abilities and individual needs of different students. One of the most important strategic pedagogical goals presented in The First Piano Book for Beginners is to build in strict order the process of mastering by the student the basic piano playing skills. It is also essential to understand that only freedom of all playing movements and flexibility of hands and arms can make the acquisition of correct piano playing skills and habits possible. Freedom and flexibility of hands is the fundamental principle of piano playing. The

teaching strategies and carefully selected repertoire in our book allows the teacher to focus on developing in students the ability to relax hand and to keep it flexible. We understand how important it is to start working on this essential technical device from the first stage teaching beginners and to keep working on it throughout all the years of training young musicians. Only freedom and flexibility of playing movements allows to produce beautiful tone, coordinate different articulations and lay the foundation for all piano technical skills. The above-stated principle of hand freedom and flexibility dictates a particular order of learning different technical elements on the piano, and the selection of the repertoire, so as to better suit this goal. To develop the student's ability to play the piano without tension, we start with exercises and little tunes based on detached notes. At first, all tunes are written for either only the right or only the left hand. Such material allows both the teacher and the student to focus on the mechanism of hand relaxation in its most pure and simplified form. Here is the order in which we introduce basic piano playing skills in our method: Non legato (detached) notes Two-note and three-note slurs Staccato notes Legato notes

Magic Piano Book for 4 Year Olds - Primer Level B Lucia Timkova, 2013-07-14 This method provides solid training for beginners, from the youngest to the oldest, using easy ways to make quick progress without difficulties in understanding. To help with the teaching process, many colored pictures and graphics use the student's visual memory to get a strong and secure grasp of the basics uses. Students gain an understanding of the basic important theory using many coloured pictures to prompt their visual memory to help them understand and use it in their exercises in practice songs and to practice/test it in the workbook. Note-reading skills. The students are to say the names of the notes aloud and count them while they play the exercises on the piano. This makes students realize what notes they are playing, which is not easy. They don't learn it by memorising using the finger guide or by memorising the melody. Rather, they have to know the exact note names. They read notes from the very start. Each finger or a new note is individually and strongly developed using a lot of exercises for particular subjects from the beginning with a graduated, consistent method. Another strength is the introduction of ensemble playing from the very beginning. Beginner students have to play each exercise three times: say letter names while they play, count while they play, and play with a teacher. This is important for the teacher to help guide the student and to make sure that students understand the individual notes and already know how to play each exercise before they go home. When the students can read music, performing becomes a joy rather than a dreaded experience. In the workbook, which is included for each level you are going to confirm the notes and the theory/terminology you have learned during the lesson in three steps, which should be done in each lesson. Writing the notes, finding the notes on the staff/stave in different orders and playing the game Noughts and Crosses where students are drawing and explaining the symbols to help them remember it. After students have completed books A/B for four year olds, 1A/1B and 2A/2B, they are competent in music terminology and sight reading. They have a solid enough understanding to begin studying books of other composers; Classical or Christmas books at that particular level. Magic Piano book 1A begins by reviewing the same concepts taught in Magic Piano A/B for four year olds and also introduces new concepts for the left hand, with progression to book 1B. Using CD http://www.amazon.com/Magic-piano-book-Lucia-Timkova/dp/B00N37Q0VU/ref=sr_1_1?ie=UTF8&qid=1420202341&sr=8-1&keywords=Magic+piano+book+accompaniments+A-B+Lucia+timkova you can simulate the use of a metronome, and in a fun environment, train for use of a metronome, and have you, or your student play along with nice background music to the theme of the song! Definitely worth it when used with the designed book.
