IN THE BEGINNING: Great Opening Lines From Your Favorite Books Hans Bauer, 2023-11-04 Dear Reader, IN THE BEGINNING presents the all-important first sentence of 1,000 famous and not-so-famous novels (plus a handful of short stories). A smorgasbord of popular fiction from around the world, ideally, these opening lines will have a tremendous attraction for lovers of literature everywhere. IN THE BEGINNING is more than just a novelty book. Anyone who loves books not only enjoys being reminded of their favorites, but also delights in finding a good one they've missed. Those who relish reading and writing will savor a collection that brings back memories of beloved books, and often, the times in which they were read. From Virginia Woolf to Tom Wolfe, from Edith Wharton to Stephen King, from Ernest Hemingway to Gabriel Garcia Marquez, masterpieces of world literature are juxtaposed with trendy best-sellers, romances with westerns, classics with cult favorites. Some lines are well-remembered, others rarely recalled; still others are brilliant beginnings from relatively obscure books. But in every case, IN THE BEGINNING confirms how powerful a sentence can be. Bumping into a familiar line from a beloved novel fills the reader's mind with imagery. ("The great fish moved silently through the night water, propelled by short sweeps of its crescent tale." (Jaws, by Peter Benchley). While dazzling openers don't guarantee a worthwhile novel, expectations run high when we're introduced with: "Paint me a railroad station then, ten minutes before dark." (John Cheever's Bullet Park) or "There were 117 psychoanalysts on the Pan-Am flight to Vienna and I'd been psychoanalyzed by at least six of them." (Fear of Flying by Erica Jong). Some books reach their zenith with wonderful first lines that are never matched: "I had this story from one that had no business to tell it to me, or to any other." That's our initial meeting with the Tarzan series. Conversely, some rather mundane opening lines are made better because we know the marvelous story that follows, like B. Traven's Treasure of the Sierra Madre: "The bench on which Dobbs was sitting was not so good." Perhaps not truly memorable, but a truly unforgettable character, and Bogie didn't do badly by him either. Enjoy. Hans Bauer

Children's Reading Choices Martin Coles, Christine Hall, 2002-01-04 Children's Reading Choices discusses the reading habits of children aged between 10 and 14. The book reports the findings of the Children's Reading Choices project - conducted by the authors from the University of Nottingham and the largest national survey of children's reading choices since the 1970s. The book includes reports and discussion on: * girls' and boys' reading preferences and the differences

between their reading habits * the place of series books, teenage magazines and comics in children's reading * the most popular authors and titles at different ages * purchasing habits and library use.

Literacy and Popular Culture Jackie Marsh, Elaine Millard, 2000 Most children engage with a range of popular cultural forms outside of school. Their experiences with film, television, computer games and other cultural texts are very motivating, but often find no place within the official curriculum, where children are usually restricted to conventional forms of literacy. This book demonstrates how to use children's interests in popular culture to develop literacy in the primary classroom. The authors provide a theoretical basis for such work through an exploration of related theory and research, drawing from the fields of education, sociology and cultural studies. Teachers are often concerned about issues of sexism, racism, violence and commercialism within the disco

Keeping Kids Reading Mary Leonhardt,1998 Avid readers are fluent readers: they absorb information more easily, they write better, they perform better on standardized tests. In *Keeping Kids Reading*, Mary Leonhardt shows parents how to instill a love of reading in their children and how to nurture that love, in spite of the temptations of television, video games, and computers. Based on observation and interviews with students and more than twenty-five years in the classroom, Leonhardt has formulated an innovative new concept called reading pathways that facilitates parents' understanding of their children's taste in books. Once you recognize your children's reading patterns, you'll find it easy, using Leonardt's methods, to appeal to their individual tastes and help move them along the path to a lifelong love of reading.
