**Fashion Projects** Francesca Granata, 2023-12-06 Fashion Projects: 15 Years of Fashion in Dialogue anthologizes the New York-based journal Fashion Projects. The book is an index of a particular time within the fashion studies landscape and the attendant fields of fashion writing, fashion curation, and critical fashion practice during which the field witnessed a meteoric rise. The long-running non-profit journal Fashion Projects was described by The Paris Review as “a journal devoted to critical discourse in fashion,” Fashion Projects was founded in New York in 2005 as a zine. It gradually morphed into a larger journal straddling the academic and general interest worlds, with international distribution and an ardent readership. It served as a platform to highlight the importance of fashion within current critical discourses through longform interviews with a range of curators, critics, artists and designers. This book collects together the best articles from the journal, most

issues of which are now unavailable. From exploring the rise of digital fashion media with Penny Martin (the founding editor-in-chief of SHOWstudio) to the continued importance of connoisseurship with Harold Koda (former Curator in Chief of the Met's Costume Institute), the anthology records the increasing centrality of fashion to contemporary critical discourse.

*Fashion Styling* Jacqueline McAssey, Sophie Benson, Clare Buckley, 2021-12-16 Learn to style for advertisements, magazines and portfolios and take your first steps into one of fashion communication's most dynamic and rewarding careers. With hands-on practical advice on working as part of a team, developing a visual vocabulary and managing a shoot, you'll be encouraged to experiment and develop your own original creative concepts. This revised edition includes a new chapter on the future of the industry, exploring how the role is changing and the stylist's position as an entrepreneur. There are also new interviews with professional stylists and 120 new images to demonstrate each technique.

Digital Fashion Communication Alice Noris, Lorenzo Cantoni, 2022-08-29 Fashion is an integral part of popular culture, closely intertwined with tales, magazines, photography, cinema, television, music and sports...up to the emergence of dedicated exhibitions and museums. Fashion is undergoing a major digital transformation: garments and apparels are presented and sold online, and fashion trends and styles are launched, discussed and negotiated mainly in the digital arena. While going well beyond national and linguistic borders, digital fashion communication requires further cultural sensitivity: otherwise, it might ignite inter-cultural misunderstandings and communication crises. This book presents the recent transformation of fashion from being a Cinderella to becoming a major cultural attractor and academic research subject, as well as the implications of its digital transformation. Through several cases, it documents intercultural communication crises and provides strategies to interpret and prevent them.
