The Purpose of Life, Why are we Here M.G. Hocking, Professor of Materials Chemistry, University of London, 2016-02-19 There is much evidence that we have lived before, and our purpose is to progress to a more advanced state. The evidence also indicates that a 'God' must exist to cause such re-births - on other continents and hundreds of years later. The consequences of bad deeds done in previous lives explains present suffering, which seems otherwise unjust. Future lives lie before us and from available evidence these will be strongly influenced by our actions in our present life.

Technologies for Intuition Alaina Lemon, 2018 Cold War paranoia can only partly describe or explain the 20th century dreams of telepathy. The nightmare shades of mind control and crowd frenzy have long alternated with the pastels of love and collective effervescence. Both extremes materialized over time, along tangled circuits of wars, events and interactions staged across borders since at least the 19th century. The Cold War and its fences fed fascination with the workings and the failures of contact and communication. Opposed sides accused each other of jamming media and spinning propaganda even while they mirrored fantasies of connection. This book contrasts and connects Russian and American channels and means to check channels, with special attention to intersections of the telepathic with the theatrical. It theorizes links between historically layered struggles over technologies for intuition and dominant models of communication, commonsense or theoretical. It demonstrates that theories resting on models of individual sincerity and of dyadic communication warp understandings of the USSR and Russia--and thus of the USA, as well. It proposes that attention to the means of making and checking contact, that is, to the phatic functions in language, offers a way out of the impasses and paradoxes of paranoia-- Provided by publisher.
