## Francesco Petrarca

*Desiring Voices* Mary B. Moore, 2000 Moore (English, Marshall U.) analyzes and contextualizes the Petrarchan love sonnet sequences of Gaspara Stampa, Louise Labe, Lady Mary Wroth, Charlotte Smith, Elizabeth Barrett Browning, and Edna St. Vincent Millay. Close readings of the poems are accompanied by theory and criticism regarding constructs of women, historical events, and biographical material, illuminating the poets, Petrarchism as a convention, ideas about women, and the range and limitations of female roles as erotic subjects and objects. **The Canzoniere** Francesco Petrarca, 2000-11 Francesco Petrarca (1304-74) has been described as the 'first modern man of letters' and his influence on the European lyric tradition has been widespread. The poems of his *Canzoniere*, closely associated as they are with the enigmatic figure of Laura, were soon to become the models for love-poetry in nearly all major European literatures in the Renaissance. The new translations here use the same rhyme schemes and broadly the same metres as those used by Petrarch himself. The facing English texts are thus not intended to be absolutely literal, but to reflect the inner meanings and moods of the originals, with some further literal translations of difficult passages added in the notes. The notes to the poems also cover their likely dates, mythological allusions, certain background settings, and a number of other calendrical and structural features which appear to emerge from the actual sequencing of the collection itself. There is also a section on old Italian syntax. and other linguistic aids. The new translation of Petrarch's *Rerum Vulgarium Fragmenta* is in two separate volumes.

Adrian Willaert and the Theory of Interval Affect Timothy R. McKinney, 2016-03-23 In the writings of Nicola Vicentino (1555) and Gioseffo Zarlino (1558) is found, for the first time, a systematic means of explaining music's expressive power based upon the specific melodic and harmonic intervals from which it is constructed. This theory of interval affect originates not with these theorists, however, but with their teacher, influential Venetian composer Adrian Willaert (1490-1562). Because Willaert left no theoretical writings of his own, Timothy McKinney uses Willaert's music to reconstruct his innovative theories concerning how music might communicate extramusical ideas. For Willaert, the appellations major and minor no longer signified merely the larger and smaller of a pair of like-numbered intervals; rather, they became categories of sonic character, the members of which are related by a shared sounding property of majoriness or minoriness that could be

manipulated for expressive purposes. This book engages with the madrigals of Willaert's landmark *Musica nova* collection and demonstrates that they articulate a theory of musical affect more complex and forward-looking than recognized currently. The book also traces the origins of one of the most widespread musical associations in Western culture: the notion that major intervals, chords and scales are suitable for the expression of happy affections, and minor for sad ones. McKinney concludes by discussing the influence of Willaert's theory on the madrigals of composers such as Vicentino, Zarlino, Cipriano de Rore, Girolamo Parabosco, Perissone Cambio, Francesco dalla Viola, and Baldassare Donato, and describes the eventual transformation of the theory of interval affect from the Renaissance view based upon individual intervals measured from the bass, to the Baroque view based upon invertible triadic entities.

**The Cambridge History of Italian Literature** Peter Brand, Lino Pertile, 1999-08-28 Italy possesses one of the richest and most influential literatures of Europe, stretching back to the thirteenth century. This substantial history of Italian literature provides a comprehensive survey of Italian writing since its earliest origins. Leading scholars describe and assess the work of writers who have contributed to the Italian literary tradition, including Dante, Petrarch and Boccaccio, the Renaissance humanists, Machiavelli, Ariosto and Tasso, pioneers and practitioners of *commedia dell'arte* and opera, and the contemporary novelists Calvino and Eco. The Cambridge History of Italian Literature sets out to be accessible to the general reader as well as to students and scholars: translations are provided, along with a map, chronological chart and substantial bibliographies.

**Exploring Intersections between Nizami and Dante**, 2025-12-11 This book takes readers on a journey across eras, exploring cultural, philosophical, and literary parallels between Islamic and Christian civilizations through the lens of medieval poets Nizami and Dante. Using the concept of 'before and after' as a platform for comparative analysis, it offers a fresh perspective on medieval cultural heritage and reveals modern reinterpretations. Through discussions of medieval symbols as beauty, wine, sage, sacred and profane passion, moral foundations, the book sheds light on medieval symbols and the evolving role of love in the human spirit. Perfect for scholars and curious readers seeking to bridge historical divides and explore the legacies of the past.

*Interpreting the Italian Renaissance* Antonio Toscano, 1991

From Madrigal to Opera Mauro Calcagno, 2012-04-18 This pathbreaking study links two traditionally separate genres as their stars crossed to explore the emergence of multiple selves in early modern Italian culture and society. Mauro Calcagno focuses on the works of Claudio Monteverdi, a master of both genres, to investigate how they reflect changing ideas about performance and role-playing by singers. Calcagno traces the roots of dialogic subjectivity to Petrarch's love poetry arguing that Petrarchism exerted a powerful influence not only on late Renaissance literature and art, but also on music. Covering more than a century of music and cultural history, the book demonstrates that the birth of opera relied on an important feature of the madrigalian tradition: the role of the composer as a narrative agent enabling performers to become characters and hold a specific point of view.

Antonio Gardano, Venetian Music Printer, 1538-1569 Mary Lewis, 2013-10-18 Antonio Gardano's publications are among the most important sources of sixteenth-century music. This final volume in Mary Lewis's three volume set completes the catalogue of Antonio Gardano's publications, covering the years 1560-1569.
