What Do Men and Women Really Want from Each Other in a Relationship Joe L Gathers,2021-03-10 The book is about relationships and the quest to achieve it. Women are always demanding, men to tell them what he really wants from her. And on the other hand, men are asking how he can measure up to her laundry list of specifications. Funny huh, because each are looking for the same thing as they pursuit love but are expressing their wants in so many ways. The key to all relations is communications, understanding, respect and trust. But men and women do not need to rush into anything without having their eyes wide open, and not be in denial when something is not working. Another thing to remember, is do not get into a relationship until you are truly ready and prepared to deal with being on a team, and you are willing to work extremely hard. When you are unsure about the relationship and you have a strong gut feeling that something does not feel right, or he is not the person you want, know that you have options and not being held hostage in any relationship. Please people out there, stay focus and watch for the red flags, signs, and signals of his or her behaviors. A relationship requires two not one and women you must always know your worth, always be a woman about your business and know that there is no controlling in a relationship, and in the end, there must be trust and respect. Make no mistake about it, men want sex and a beautiful woman in his arms, and women want love, security and eventually marriage. But how they achieve it is a different subject, because sometimes it appears the message from both gets lost in translation.
