Love in America Lawrence R. Samuel,2019-11-29 Widely considered the most complex of human emotions, romantic love both shapes and reflects core societal values, its expression offering a window into the cultural zeitgeist. In popular culture, romantic love has long been a mainstay of film, television and music. The gap between fictitious narratives of love and real-life ones is, however, usually wide--American's expectations of romance and affection often transcend reality. Tracing the history of love in American culture, this book offers insight into both the national character and emotional nature.

Medieval Iberian Crusade Fiction and the Mediterranean World David A. Wacks,2019-09-06 Reading crusader fiction against the backdrop of Mediterranean history, this book explains how Iberian authors reimagined the idea of crusade through the lens of Iberian geopolitics and social history. The crusades transformed Mediterranean history and inaugurated complex engagements between Western Europe, the Balkans, North Africa, and the Middle East in ways that endure to this day. Narratives of crusades powerfully shaped European thinking about the East and continue to influence the representation of interactions between Christian and Muslim states in the region. The crusade, a French idea that gave rise to Iberian,

North African, and Levantine campaigns, was very much a Mediterranean phenomenon. French and English authors wrote itineraries in the Holy Land, chronicles of the crusades, and fanciful accounts of Christian knights who championed the Latin Church in the East. This study aims to explore the ways in which Iberian authors imagined their role in the culture of crusade, both as participants and interpreters of narrative traditions of the crusading world from north of the Pyrenees.
