Internationalisation of Post-1992 UK Universities Peter Brady, 2020-03-19 When they gained university status ex-polytechnics expected to be funded on a par with their new university colleagues. This was not the case and a number of government initiatives encouraged them to look overseas to recruit fee-paying students. 'Internationalisation of Post-1992 UK Universities' details how the reaction to these initiatives changed the nature of post-1992 universities. It also looks at how these universities work overseas and how foreign government strategies and policies mean that they are helping competitors and ensuring that foreign students gain a better educational experience than home students.

The EU, NATO and the Libya Conflict Stefano Marcuzzi, 2021-12-24 This book explores the causes and implications of the Libyan crisis since the anti-Gaddafi uprisings of 2011 from the perspective of the EU and NATO. It asks the question of why those organizations failed to stabilize the country despite the serious challenges posed by the protracted crisis to European and transatlantic stakes in the region. This book argues that such failure originated in a twofold problem common to both organizations: their prioritization of legitimacy over strategy, and their path dependence - the insufficient degree of adaptation to meet the different needs of the crisis. Through a critical and integrated analysis of official sources and extensive interviews with EU, NATO, UN, and national government officials and militaries, as well as from NGO personnel, Libyan institutions and civil society, and media, the volume brings the perspective of both state and non-state actors to the fore. It reveals how wrong assumptions and centrifugal forces within the EU and NATO hampered initiatives, and how the inability to use hard power judiciously and effectively in an increasingly complex and multifaceted scenario worsened the crisis. This allowed for unprecedented influence of regional and global competitors such as Egypt, the United Arab Emirates

(UAE), Turkey and Russia in the richest African country. This book will be of key interest for scholars and students of Libya and North Africa, NATO, the European Union, security and conflict studies, Middle East studies, migration, terrorism, peacebuilding and, more broadly, international relations.

Immigration Policy in the Federal Republic of Germany Douglas B. Klusmeyer, Demetrios G. Papademetriou, 2009 German migration policy now stands at a major crossroad, caught between a fifty-year history of missed opportunities and serious new challenges. Focusing on these new challenges that German policy makers face, the authors, both internationally recognized in this field, use historical argument, theoretical analysis, and empirical evaluation to advance a more nuanced understanding of recent initiatives and the implications of these initiatives. Their approach combines both synthesis and original research in a presentation that is not only accessible to the general educated reader but also addresses the concerns of academic scholars and policy analysts. This important volume offers a comprehensive and critical examination of the history of German migration law and policy from the Federal Republic's inception in 1949 to the present.

A Place of Refuge, 2005 A Place of Refuge tackles the topical issue of asylum in the UK. Against a background of ignorance, racism and media bias, the Christian Church is called by God to show care of the marginalized. After exploring this biblical call to offer hospitality, A Place of Refuge examines the claims made against refugees - that they are lazy, uneducated or involved in criminal activity - and uses statistical evidence to show that these claims are largely unfounded. It explains the legal and factual basis of the asylum system and highlights the positive contribution that refugees make to the UK. It includes: practical suggestions for action at a local and national level; useful contacts and resources. Based on up-to-date detailed research, this study is a positive and challenging contribution to an important debate.

Solidarity in the Media and Public Contention over Refugees in Europe Manlio Cinalli, Hans-Jörg Trenz, Verena Brändle, Olga Eisele, Christian Lahusen, 2021-04-13 This book examines the 'European refugee crisis', offering an in-depth comparative analysis of how public attitudes towards refugees and humanitarian dispositions are shaped by political news coverage. An international team of authors address the role of the media in contesting solidarity towards refugees from a variety of disciplinary perspectives. Focusing on the public sphere, the book follows the assumption that solidarity is a social value, political concept and legal principle that is discursively constructed in public contentions. The analysis refers systematically and comparatively to eight European countries, namely, Denmark, France, Germany, Greece, Italy, Poland, Switzerland and the United Kingdom. Treatment of data is also original in the way it deals with variations of public spheres by combining a news media claims-making analysis with a social media reception analysis. In particular, the book highlights the prominent role of the mass media in shaping national and transnational solidarity, while exploring the readiness of the mass media to extend thick conceptions of solidarity to non-members. It proposes a research design for the comparative analysis of online news reception and considers the innovative potential of this method in relation to established public

opinion research. The book is of particular interest for scholars who are interested in the fields of European solidarity, migration and refugees, contentious politics, while providing an approach that talks to scholars of journalism and political communication studies, as well as digital journalism and online news reception.

Aftershock John Feffer, 2017-11-15 In this unique, panoramic account of faded dreams, journalist John Feffer returns to Eastern Europe a quarter of a century after the fall of communism, to track down hundreds of people he spoke to in the initial atmosphere of optimism as the Iron Curtain fell – from politicians and scholars to trade unionists and grass roots activists. What he discovers makes for fascinating, if sometimes disturbing, reading. From the Polish scholar who left academia to become head of personnel at Ikea to the Hungarian politician who turned his back on liberal politics to join the far-right Jobbik party, Feffer meets a remarkable cast of characters. He finds that years of free-market reforms have failed to deliver prosperity, corruption and organized crime are rampant, while optimism has given way to bitterness and a newly invigorated nationalism. Even so, through talking to the region's many extraordinary activists, Feffer shows that against stiff odds hope remains for the region's future.

Annual Review of Sociology Karen S. Cook, John Hagan, 2001-08 Cook (Stanford U.) and Hagan (Northwestern U.) have assembled 19 essays on diverse topics by specialists, almost all of whom work in American universities. Individual papers consider the following topics: sociological miniaturism, consequences of victimization for personal and social development, religious nationalism and collective representation, sport and society, social implications of the Internet, homophily, globalization, education and class in developing countries, urban poverty, and hate crime. Two concluding essays on historical sociology discuss US social policy and early traditions of African-American sociology. c. Book News Inc.

Changes in Attitudes to Immigrants in Britain, 1841-1921 Ben Braber, 2020-11-25 This book reviews changes in attitudes to immigrants in Britain and the language that was used to put these feelings into words between 1841 and 1921. Using a historical and linguistic method for an analysis of so far for this purpose relatively unused primary sources, it offers novel findings. It has found that changes in the meaning and use of the word alien in Britain coincided during the period between 1841 and 1921 with the expression of changing attitudes to immigrants in this country and the modification of the British variant of the English language. When people in Britain in these years used the term 'an alien', they meant most likely a foreigner, stranger, refugee or immigrant. In 1841 an alien denoted a foreigner or a stranger, notably a person residing or working in a country who did not have the nationality or citizenship of that country. However, by 1921 an alien mainly signified an immigrant in Britain – a term which, as this book shows, had in the course of the years since 1841 acquired very

negative connotations.

Bloody Foreigners Robert Winder, 2004 Immigration is one of the most important stories of modern British life, yet it has been happening since Caesar first landed in 53 BC. Ever since the first Roman, Saxon, Jute and Dane leaped off a boat we have been a mongrel nation. Our roots are a tangled web. From Huguenot weavers fleeing French Catholic persecution in the 18th century to South African dentists to Indian shopkeepers; from Jews in York in the 12th century (who had to wear a yellow star to distinguish them and who were shamefully expelled by Edward I in 1272) to the Jamaican who came on board the Windrush in 1947. The first Indian MP was elected in 1892, Walter Tull, the first black football player played (for Spurs and Northampton) before WW1 (and died heroically fighting for the allies in the last months of the war); in 1768 there were 20,000 black people in London (out of a population of 600,000 - a similar percentage to today). The 19th century brought huge numbers of Italians, Irish, Jews (from Russia and Poland mainly), Germans and Poles. This book draws all their stories together in a compelling narrative.
