John Benjamin

The Palpable Universe Mohammed Muflahi,2014-03-28 In a feeble attempt to deceive mankind, Stephen W. Hawking and Richard Dawkins, among others of their ilk, have painstakingly persevered in creating a Godless society, in the hope intelligent people will accept the theory of evolution as the source that caused the universe to exist. Bringing forward arguments, they create a multitude of problems they cannot answer, resulting in guesses and lies. Not knowing where we came from and why we are here, scientists will never cease their search for the Truth. I have written this book in refutation of their claims and expounded on the subject for clarification.

The Strong Delusion John W. Milor,2017-02-20 John Milors fascinating work is based on the Bible telling of a powerful deception that will overshadow the Earth, a deception so intense that only those with a genuine love relationship with God will be able to endure it. Events from the authors own life, including a series of supernatural encounters, have revealed some key components of this strong delusion, which he believes will initiate a grand display of open contact with extraterrestrials. It will also involve the global rise of Islam. Its no mistake that the faiths of four billion people (Christians and Muslims) include two versions of prophetic visions that are nearly identical, yet they represent opposite sides of a global conflict that will end in the Battle of Armageddon. This book delves into myriad topics, including: Encounters with angels, otherworldly beings, and Jesus Christ; Encounters with demons, ghosts, nephilim, jinns, and mythical creatures; The Bibles explanation of ET good guys and bad guys; The Quran and Hadiths ET connection: Was Muhammad abducted as a boy, and operated on? Was the angel that abducted Muhammad really Gabriel? Were the mysterious jinns of Islam actually surviving nephilim? Is the Quran and Hadiths ideology specifically tailored for the Antichrist? These and other topics harken to ancient times and peer into a not-too-distant future, when the author believes we will see a return to the days of Noah, as prophesied by Jesus.

Earthshaker John Benjamin,2012-10-19 What in the world is going on? Almost overnight our modern world has entered into a period of great change, very suddenly and unexpectedly, with the largest and most violent storms, earthquakes, solar flares, flooding, droughts, severe weather anomalies, and earth changes than the greater majority of us have ever experienced in our lifetimes. The largest drought ever recorded in Americas history struck so quickly in 2012 that it was called a flash drought, encompassing over half of the entire nation. The full extent of the damage that this has caused through crop loss has yet to be realized on the worlds markets, but there will most certainly be food shortages soon, and

prices are already beginning to skyrocket worldwide! Water shortages and actual water wars are also beginning to occur. The rest of the entire world is also experiencing these same disastrous events. Gigantic earthquakes are happening worldwide causing untold destruction! So many people have lost their lives or have been displaced by these unexpected tragedies that there is simply no way to account for them all. India had a power outage so great that seven hundred million people were without electricity for weeks, and people worldwide fear that something of this same magnitude may also strike their area in the very near future. What in the world is going on here? This book provides the answer to this question and gives sound advice on what you can do to prepare yourself as well as your family and friends to survive the even more severe earth events that may be set to occur shortly in our modern, rapidly changing world. It is my earnest hope that this book will be a great help and source of strength for you in the uncertain times that lie directly ahead. John Benjamin

A Day Apart Christopher D Ringwald,2008-11-20 In today's frantic 24/7 world, the Sabbath - a day devoted to rest and contemplation - has never been more necessary. A Day Apart offers a portrait of a truly timeless way to escape the everyday world and add meaning to our lives.

The Gods Were Astronauts Erich von Däniken,2002 Why do nearly all the world's major religions share similar myths? Erich Von Däniken, author of the runaway international bestseller *Chariots of the Gods*, believes he knows: the winged deities populating ancient religious texts were in reality extraterrestrials. Fully illustrated with compelling color and black-and-white photographs, the book takes us from Myanmar to Peru's and Egypt's unexplained "landing strips."

Summary of Erich von Däniken's Chariots of the Gods Everest Media,2022-04-30T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The astronomers estimate that there are about 4,500 stars that can be seen with the naked eye. The telescope of a small observatory makes nearly two million stars visible, and a modern reflecting telescope brings the light from thousands of millions more to the viewer. But in the colossal dimensions of the cosmos, our stellar system is only a tiny part of an incomparably larger stellar system. #2 There are 18,000 planets in our galaxy that are similar to the earth, and it is estimated that two million different species of living creatures live on the earth. The idea that life can only exist and develop on a planet like the earth is no longer true. #3 The universe is estimated to be between eight and twelve milliard years old. Meteorites bring traces of organic matter under our microscopes. Bacteria millions of years old wake up to new life. Floating spores propelled by the light of a sun travel the universe and are captured by the gravitational field of a planet. #4 We took 400,000 years to reach our present state and stature. Who can produce concrete proof that another planet did not provide more favorable conditions for the development of other or similar intelligences. We are nothing but ants in the vast State of the universe.
