Actualidades del mundo del trabajo en un contexto postpandemia ,2025-03-25 Las investigaciones reunidas en esta obra dan cuenta de las transformaciones del trabajo en la era postpandemia, desde abordajes específicos desarrollados en la Maestría y el Doctorado en Estudios Multidisciplinarios sobre el trabajo, el Cuerpo Académico Trabajo, Cultura y Región y del Centro Laboral de la Universidad Autónoma de Querétaro. El diálogo entre la sociología del trabajo, las teorías organizacionales, la historia, la antropología, el análisis económico, la psicología social, los enfoques en salud laboral y la perspectiva de género; caracterizan los estudios situados en la región centro de México que se presentan. Comparten un mismo objeto de estudio, las problemáticas y transformaciones del trabajo y sus vínculos con los cambios estructurales y productivos a escala global, regional y local y sus alcances e incidencias en distintos sectores de trabajadores. Algunos de los sujetos laborales contemporáneos que se abordan son: los jóvenes, las mujeres y las infancias. Así también, integra el estudio de los sindicatos, sus retos y transformaciones. La obra integra los diversos sectores productivos predominantes en la región; automotriz, industrial y de servicios, así como artesanal; sin dejar de lado la mirada hacia los entornos rurales y la inclusión del sector informal. Sus ejes de análisis principales son: el estudio de los procesos de trabajo; la relación entre el trabajo y la construcción de subjetividades; el trabajo desde una perspectiva colectiva y en torno a las condiciones estructurales y normativas actuales; así como la relación del trabajo, el género, los riesgos y la salud. Estudio del empleo verde, actual y potencial, en el sector de bioenergías Organización de las Naciones Unidas para la Alimentación y la Agricultura ,2019-07-12 El presente estudio tiene como objetivo estimar valores cuantitativos del empleo verde en el sector de bioenergías de la provincia de Santa Fe (Argentina). Debido a que la definición de empleo verde implica dos condiciones, una ambiental y otra de calidad de trabajo, su estimación necesita también de un análisis cualitativo del empleo generado en el sector. Asimismo, se propone describir las características económicas del sector bioenergético de Santa Fe y utilizar matrices de insumo- producto para estimar el impacto que políticas o regulaciones seleccionadas tendrían sobre el nivel de empleo provincial.

Lúdicas como estrategia de aprendizaje en la enseñanza de la producción y operaciones Rafael Guillermo García Cáceres, Oscar Alberto Alarcón Pérez, Luis Felipe Amaya González, Sidhar Francisco Contreras Balaguera, Fredy Guillermo García Corredor, Sandra Mimiya Gómez Ángel, Margarita Avellaneda Vargas, 2024-05-01 El presente texto emplea la

simulación y el juego de roles en un entorno lúdico participativo, con el objetivo de lograr una comprensión más profunda y aplicar los conocimientos mediante la resolución de problemas de la vida real. Desde la década de los años 2000, las estrategias lúdicas de enseñanza han ganado importancia en la educación superior, aprovechando el auge de las tecnologías de la información y llevando la mecánica de juegos a contextos donde su aplicación podría haber sido considerada inapropiada en el pasado. Este libro responde a las demandas del estudiante universitario del siglo XXI, que busca fortalecer su autonomía, participación y desarrollo del pensamiento, alineándose con las nuevas normativas mundiales y nacionales que enfatizan el desarrollo de competencias y resultados de aprendizaje. Las lúdicas diseñadas se sustentan en proyectos previos, que revelan que el 49 % de las estrategias lúdicas diseñadas por las instituciones de educación superior se centran en temas de investigación y operaciones; por ello, estos estudios evidenciaron una brecha menos explorada en estrategias lúdicas basadas en las demás áreas propias de la producción y operaciones, a la cual este trabajo busca contribuir abarcando la gran mayoría de temáticas contenidas en los planes de estudios de Ingeniería Industrial, Administración Industrial, Administración y afines.

Critical and Feminist Perspectives on Financial and Economic Crises Sakiko Fukuda-Parr, James Heintz, Stephanie Seguino, 2017-10-02 Economic and financial crises have become perennial features of today's global economy. Macroeconomic theories of crisis, including the global crisis that unfolded in 2008, emphasize the role of financial deregulation; capital flow imbalances; and growing debt, fueled by income and wealth inequality. These approaches tend to be divorced from feminist thinking which analyzes broader distributional dynamics transmitted through structural channels and government policy responses, with an emphasis on gender, race, class and ethnicity. This volume brings together innovative thinking from heterodox macroeconomists and feminist economists to explore the causes, consequences, and ramifications of economic crises. By doing so, it highlights aspects of the economy that are frequently overlooked or ignored, such as the impact of crises on the vast amount of unpaid work which women perform relative to men.? The collection of international studies assembled here takes an innovative approach to analyzing a range of issues, from the subprime mortgage crisis to the gendered effects of austerity to the role of the International Monetary Fund in governing an unstable global economy. In so doing, it looks beyond causes and consequences and points to new directions for macroeconomic and financial policy. This book was originally published as a special issue of Feminist Economics.

Manual de metodología de estimación de empleo verde en la bioenergía Organización de las Naciones Unidas para la Alimentación y la Agricultura , Organización Internacional del Trabajo, 2020-05-01 Este manual tuvo como objetivo principal brindar un conjunto de herramientas para la realización de estudios sobre el potencial de creación de empleo de la bioenergía a nivel provincial, con los requerimientos de habilidades y capacidades que implica. Tales herramientas surgieron

principalmente de los estudios sobre el empleo en el sector bioenergético en las provincias de Santa Fe, Salta y Misiones desarrollados por el Proyecto FAO para la promoción de la energía derivada de biomasa y la OIT durante 2016 y 2017, que produjeron una cantidad importante de material, como formularios, guías de entrevistas y otros instrumentos de relevamiento.

La Relación Laboral Universal Miguel Ángel Herrera Rodríguez, 2018-05-14 Una palabra, s, una sola palabra; bast para dejar en el desamparo de las normas jurídicas laborales, y con ello, huérfanos de la seguridad social a cientos de millones de personas que en la actualidad viven marginadas de la malla protectora del Derecho del Trabajo. Esa palabra fue introducida por el jurista italiano Lodovico Barassi, 1873-1961, y desde entonces vigente a lo actual. La palabra es la subordinación laboral, su definición y su enjertación en la definición de la relación laboral como elemento esencial de ella. Esta obra científica trata en todos sus aspectos el problema y con fundamento en ello hace una propuesta para solucionar el problema. Este es un libro para filósofos, juristas y sociólogos interesados en la investigación y contiene una abundante bibliografía de los diversos temas. En suma, es un verdadero tratado sobre el contexto enunciado.

Handbook of Research on the Global Political Economy of Work Maurizio Atzeni, Dario Azzellini, Alessandra Mezzadri, Phoebe Moore, Ursula Apatzsch, 2023-10-06 This ground-breaking Handbook broadens empirical and theoretical understandings of work, work relations, and workers. It advances a global, intersectional labour studies agenda, laying the foundations for the politically emancipatory project of decolonising the political economy of work.

Critical Legal Perspectives on Global Governance Gráinne de Búrca,Claire Kilpatrick,Joanne Scott,2013-12-20 This book of essays, written in honour of Professor David Trubek, explores many of the themes which he has himself written about, most notably the emergence of a global critical discourse on law and its application to global governance. As law becomes ever more implicated in global governance and as processes related to and driven by globalisation transform legal systems at all levels, it is important that critical traditions in law adapt to the changing legal order and problématique. The book brings together critical scholars from the EU, and North and South America to explore the forms of law that are emerging in the global governance context, the processes and legal roles that have developed, and the critical discourses that have been formed. By looking at critical appraisals of law at the global, regional and national level, the links among them, and the normative implications of critical discourses, the book aims to show the complexity of law in today's world and demonstrate the value of critical legal thought for our understanding of issues of contemporary governance and regulation. Scholars from many countries contribute critical studies of global and regional institutions, explore the governance of labour and development policy in depth, and discuss the changing role of lawyers in global regulatory space.

Trabajo doméstico María Elena Valenzuela,Claudia Mora,2009 Más de 14 millones trabajadoras en América Latina realizan las labores de cuidado de otra familia. A pesar de que este trabajo es fundamental para el funcionamiento de la sociedad y la economía, las trabajadoras domésticas enfrentan serios déficit de trabajo decente. Sin embargo, el creciente reconocimiento de las labores del cuidado como actividad económica está llevando a nuevas regulaciones y políticas, a nivel nacional e internacional, para mejorar las condiciones de trabajo y equiparar los derechos laborales de estas trabajadoras--Back cover.
