**Thurman Charles Crook**

**Drafting for the Theatre** Dennis Dorn, Mark Shanda, 1992 In the early sessions, Dorn and Shanda focus on the basics of lettering, tool introduction, geometric constructions, orthographic techniques, soft-line sketching applications, and dimensioning and notation skills. After several weeks the student begins to apply these drafting skills to design and technical theatre. At this point, the projects in the text expand to include ancillary skills such as time and material estimation, shop drawing nomenclature, and techniques such as simplified drafting pin graphics, theatre drafting standards, and CADD processes. The text concludes with a final project that will help the student develop a portfolio set of drawings.
