Victims Anonymous Angela R. Hester, 2014-11-11 Many people feel so overwhelmed by their past that they become victims of that past. This is no way to live. In Victims Anonymous: Do Not Allow your Past to Victimize You, author Angela Hester provides advice and encouragement for coming to terms with the past in order to live fully in the present and succeed in the future. Drawing from her own life experiences, Hester delivers empowerment to make amends with the past in order to realize the success you can have in the future by transforming the negative you into a positive and successful, new you. Victims Anonymous: Do Not Allow your Past to Victimize You eliminates the fictitious factors that lead you to believe achieving something great is unthinkable because of where you have come from and what you have been through. Through the use of reflective exercises and anecdotes from others, Victims Anonymous: Do Not Allow your Past to Victimize You instills trust that if you work hard to overcome obstacles, whether in the past or present, that achievement is remarkable. The past is labeled just that, because it describes events that have already taken place. The beauty of your future is that you can dictate the outcome if you do not let your past rule your future.

Water Stewardship Pernille Ingildsen, 2020-06-15 Achieving true wholesome sustainability requires a change of heart. Hence this book starts in the heart. It asks the timely question of ‘how do we become true water stewards?’ The transformation to a new sustainable practice will be made through a new connection with our heart, a more holistic type of analysis (brains) and the right actions based on personal integrity (hand). A water steward should be similar to the shepherds of olden days. They were given the responsibility to guard the sheep. The village trusted they would take care of the flock, make sure it would be well fed, protected from storms and kept together. The shepherd learned to take a long term perspective for the flock, ensuring that the pastures were not overgrazed, that the flock was not led too far away from access to water and that shelter was in reach in the event of storms and dangerous predators. Over time the shepherds became increasingly skilled in caring for the flock. They integrated the responsibility of the well-being of the flock into their identity. In a similar way, we can take the responsibility for human water consumption and our interaction with the natural world. We need to understand and work according to the big picture and the very long term perspective. Being a water steward requires deep reflection of how water should be treated and our relationship with water. Water utility professionals have the knowledge and have been trusted with the role of managing human water consumption. This is a great responsibility and requires deep reflection of how this should be done. The book will present ideas and concepts for the new role as well as questions for personal reflection.

Black Politics 2.0 Gary James, 2016-08-17 Gary James explores electoral politics from the 1960s to present day, providing a portal to black American contemporary politics. His insightful book discusses the internal dynamic between the civil rights and black power juxtaposition. Two main characters animate the narrative, Spike and CadreUSA, who hold an informal dialogue on black politics from their respective points of view. Apart from the traditional perspectives that are contrasted in the political conversation of African Americans – from Africa to the Caribbean to the American mainland – the election of President Barack Obama in 2008 as the first African American president has overshadowed and colored the conversation among black Americans in particular. This stunning and politically earth-shattering event had an incendiary impact on the popular political imagination, igniting and inspiring many questions and speculations relative to the trajectory of American politics. Some of these questions, speculations, and perspectives are debated by the two main characters. The setting is Harlem, and the period is now.

The Routledge Handbook of Museums, Heritage, and Death Trish Biers, Katie Stringer Clary, 2023-07-26 This book provides a comprehensive examination of death, dying, and human remains in museums and heritage sites around the world. Presenting a diverse range of contributions from scholars, practitioners, and artists, the book reminds us that death and the dead body are omnipresent in museum and heritage spaces. Chapters appraise collection practices and their historical context, present global perspectives and potential resolutions, and suggest how death and dying should be presented to the public. Acknowledging that professionals in the galleries, libraries, archives, and museums (GLAM) fields are engaging in vital discussions about repatriation and anti-colonialist narratives, the book includes reflections on a variety of deathscapes that are at the forefront of the debate. Taking a multivocal approach, the handbook provides a foundation for debate as well as a reference for how the dead are treated within the public arena. Most important, perhaps, the book highlights best practices and calls for more ethical frameworks and strategies for collaboration, particularly with descendant communities. The Routledge Handbook of Museums, Heritage, and Death will be useful to all individuals working with, studying, and interested in curation and exhibition at museums and heritage sites around the world. It will be of particular interest to those working in the fields of heritage, museum studies, death studies, archaeology, anthropology, sociology, and history.

Craft Brewed Jesus Michael Camp, 2016-04-08 What if the modern American church has its Christian history wrong? According to ex-evangelical Michael Camp, most American believers fail Christian History 101. Drawing on his own historical research and missionary experience, he discovers that most popular Christian views of the Bible, church, sin, salvation, judgment, the kingdom of God, the end times, and the afterlife--pretty much all religious sacred cows--don't align with the beliefs of the original Jesus movement. Some of them not even close. Camp's Craft Brewed Jesus paves a fascinating journey of a group of disillusioned evangelicals and Catholics. When they decide to meet regularly over craft beers to study the historic foundations of their faith, their findings both rock their world and resolve ancient mysteries. They examine well-documented narratives of the early Jesus saga, Eastern streams of a lost Christianity, and the roots of our modern religious assumptions, all while striving to steer clear of either a conservative or liberal bias. What they uncover is a vital, refreshing spiritual paradigm no longer at odds with reality. Grab your brew of choice and trace this transformational journey based on a true story that will encourage you in your walk of life and faith.
