**Royal Pharmaceutical Society of Great Britain, 1841-1991** Sydney W. F. Holloway, 1991 This account of the story of the Royal Pharmaceutical Society of Great Britain, from its foundation in 1841 to the present day, is based on its archive papers and describes the purposes for which the Society was founded, the efforts made to fulfil them and ways in which the Society developed and was helped or hindered by other institutions.

**The Modern Law of Contract** Richard Stone, 2013 'The Modern Law of Contract' provides a detailed account of the subject in England and Wales. Centred around a thorough analysis of case law and statute, it also takes into account a variety of theoretical approaches.

**International Aviation Law** Ron Bartsch, 2018-06-27 International Aviation Law: A Practical Guide explains the international context and application of the law as it applies to commercial and recreational aviation, and to the broader aviation environment. It provides a comprehensive introduction to all aspects of aviation law, from criminal law to contract law, to the legal duties and responsibility of aircrew and other aviation personnel including airport operators, air traffic controllers and aircraft engineers. Each area of the law is clearly explained in accessible language and supported with practical case studies to illustrate the application of the law within an operational aviation context. It also provides advice on how to avoid or minimize legal liability for those working in the aviation industry. Thoroughly revised and updated throughout, this second edition adds new material on subjects such as unmanned aircraft systems, ASEAN's Single Aviation

Market, common rules on compensation and assistance to passengers, and a discussion on the impact of Brexit to the UK's aviation market and legal status.

**Contract Law in Singapore** Andrew B.L. Phang, Goh Yihan, 2021-10-21 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in Singapore covers every aspect of the subject – definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Singapore will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.

**International Aviation Law** Ron Bartsch, Ronald I.C. Bartsch, 2016-05-23 International Aviation Law: A Practical Guide explains the international context and application of the law as it applies to commercial and recreational aviation, and to the broader aviation environment. It provides a comprehensive introduction to all aspects of aviation law from criminal law to contract law to the legal duties and responsibility of aircrew and other aviation personnel including airport operators, air traffic controllers and aircraft engineers. Each area of the law is clearly explained in accessible language and supported with practical case studies to illustrate the application of the law within an operational aviation context. It also provides advice on how to avoid or minimize legal liability for aviation practitioners and enthusiasts.

**Business Law** Nickolas James, Timothy Thomas, 2020-01-21 Business Law, 5th Edition (James et al.) is written for business students to provide a clear and accessible introduction to the legal system. Business law courses are the first exposure to law for many business students and the first time they are obliged to think deeply about the discipline. This updated edition presents business law in a practical context rather than the doctrinal context that many major legal publishers use. The Business Law interactive e-text features a range of instructional media content designed to provide students with an

engaging learning experience. This includes practitioner videos from Herbert Smith Freehills, animated work problems and questions with immediate feedback. This new edition is a unique resource that can form the basis of a blended learning solution for lecturers.
