Resorts and Ports Peter Borsay,John K. Walton,2011-10-14 Histories of seaports and coastal resorts have usually been kept in separate compartments. This book brings them together and looks at how resort development affected historic ports during the rise and development of the seaside holiday in Europe from the 18th century to the 20th, and what the attributes of ports (fishing, harbour crafts, the whiff of the exotic, fishermen's homes and families) contributed to the attractions of resorts. Case-studies drawn from across Europe, from Wales and the Netherlands to Norway, Latvia and Spain, bring original perspectives to bear on these histories and relationships, and consider their influence on seaside heritage and regeneration at a time when coastal settlements are increasingly using their past to secure their future. The book will interest academics in tourism studies, history, geography and cultural studies, as well as provide essential information and analysis for policy-makers in coastal regeneration.

Shadow Warriors Tom Clancy,Carl Stiner,Tony Koltz,2003-02-04 An unconventional war requires unconventional men—the Special Forces. Green Berets • Navy SEALs • Rangers • Air Force Special Operations • PsyOps • Civil Affairs • and other special-mission units The first two Commanders books, *Every Man a Tiger* and *Into the Storm*, provided masterly blends of history, biography, you-are-there narrative, insight into the practice of leadership, and plain old-fashioned storytelling. *Shadow Warriors* is all of that and more, a book of uncommon timeliness, for, in the words of Lieutenant General Bill Yarborough, “there are itches that only Special Forces can scratch.” Now, Carl Stiner—the second commander of SOCOM, the U.S. Special Operations Command—and Tom Clancy trace the transformation of the Special Forces from the small core of outsiders of the 1950s, through the cauldron of Vietnam, to the rebirth of the SF in the late 1980s and 1990s,

and on into the new century as the bearer of the largest, most mixed, and most complex set of missions in the U.S. military. These are the first-hand accounts of soldiers fighting outside the lines: counterterrorism, raids, hostage rescues, reconnaissance, counterinsurgency, and psychological operations—from Vietnam and Laos to Lebanon to Panama, to Saudi Arabia, Kuwait, and Iraq, to the new wars of today...

Security Cooperation in the Pacific Islands Joanne Wallis, Henrietta McNeill, James Batley, Anna Powles, 2025-03-20 Wallis, McNeill, Batley, Powles and the contributors examine the dynamics of Pacific Islands' security cooperation, analysing how it helps address regional security challenges amid the broader strategic competition between China and the United States that is increasingly playing out in the region. Pacific Island countries do not want to become pawns in this competition, but its impacts are inescapable and are creating additional security challenges. Compounding these effects are climate change and COVID-19, both of which have intersected with existing traditional and non-traditional security challenges facing the region. In response, Pacific Island leaders have vowed to pursue greater security cooperation amongst themselves and with partner states. This book addresses partner states' interests in the region, how these interests and Pacific priorities align, and if not, what the possible consequences may be. It also analyses successful areas of security cooperation and tackles how challenges may be improved. Incorporating a range of perspectives from key leaders, practitioners and scholars, this is an empirically grounded analysis of security cooperation within the Pacific Islands region and by the region's major partners. A vital resource for researchers and practitioners seeking to better understand Pacific Islands' security collaboration and the inherent challenges it faces. Wind Energy for Power Generation K. R. Rao, 2019-10-17 This far-reaching resource covers a full spectrum of multifaceted considerations critical for energy generation decision makers considering the adoption or expansion of wind power facilities. It contextualizes pivotal technical information within the real complexities of economic, environmental, practical and socio-economic parameters. This matrix of coverage includes case studies and analysis from developed and developing regions, including North America and Europe, Asia, Latin America, the Middle-East and Africa. Crucial issues to power generation professionals and utilities such as: capacity credits; fuel saving; intermittency; penetration limits; relative cost of electricity by generation source; growth and cost trends; incentives; and wind integration issues are addressed. Other economic issues succinctly discussed inform financial commitment to a project, including investment matrices, strategies for economic evaluations, econometrics of wind energy, cost comparisons of various investment strategies, and cost comparisons with other energy sources. Due to its encompassing scope, this reference will be of distinct interest to practicing engineers, policy and decision makers, project planners, investors and students working in the area of wind energy for power

generation.

The Steadfast Leader: Control Anxiety, Make Confident Decisions, and Focus Your Team Using the New Science of Leadership Randy Brazie,Geoffrey VanderPal,2023-11-27 Discover how integrating rational thought and gut feelings together will make you a calmer, more powerful leader Business leaders today face unprecedented challenges—and it's not uncommon to feel overwhelmed by the sheer number and complexity of nonstop decision making. To further complicate matters, you may believe that some decisions require rational (brain) decision making, while others call for you to go with your gut. In *The Steadfast Leader*, you'll discover that integrating the two—brain and gut—will help you become the calm, steadfast and powerful leader you want to be. With their combined expertise in both business and medicine, Dr. Geoffrey VanderPal and Dr. Randy Brazie frame the latest scientific understanding of the human nervous system, drawing on Polyvagal Theory to show how the brain and the gut (connected by the vagus nerve) make decisions together. Helping to put an end to the tension caused by either-or, they show how using both-and works better in every situation. Packed with eye-opening research, case studies, and relatable examples from the business world, *The Steadfast Leader* provides practical, cutting-edge neuroscientific concepts to help you stay focused and make better decisions—for yourself, your team, and your organization. Inside you'll learn how to: Make optimal decisions without the negativity of past stress and trauma influencing decisions Become a more successful manager using tools you can adapt to your team Improve the physical workspace for happier, more focused employees Stand up and stand out: Take your career from the margins to center stage Make wiser financial decisions in good times and bad Make better recruitment decisions and manage interpersonal challenges Master focus, productivity, and connection with yourself and others
