Robin Cook Lorena Laura Stookey,1996-09-24 Like Arthur Conan Doyle before him, best-selling novelist Robin Cook has turned from the practice of medicine to that of writing popular suspense fiction. Widely recognized as the Master of the Medical Thriller, Cook uses the medium of the popular novel to address a range of social issues: environmental pollution, gender inequality in the workplace, the risks inherent in the common practice of secrecy in science research, and above all, the ramifications of medicine's transition from profession to corporate industry. This study analyzes in turn each of Cook's medical thrillers, from *Coma* to *Contagion*. Following a biographical chapter, the genre chapter examines the ways in which Cook's medical thriller incorporates plotting conventions and strategies borrowed from such popular literary genres as the science fiction novel, the murder mystery, and the gothic romance. Each novel is then examined in a separate chapter with subsections on plot, character, and theme. Stookey also offers an alternative critical approach to the novel, which gives the reader another perspective from which to read and discuss the text. A complete bibliography of Cook's fiction, general criticism and biographical sources, and listings of reviews of each novel complete the work. The only study of one of America's most popular contemporary novelists, read by adults and young adults alike, this is a key purchase for schools and public libraries.

Manner of Death Robin Cook,2023-12-05 In the new fast-paced medical thriller from bestselling author Robin Cook, fan favorites Jack and Laurie are inadvertently drawn into a dangerous vortex of a series of homicides that have been cleverly staged as suicides. After Dr. Jack Stapleton's near-death confrontation with a medical serial killer, his wife, NYC Chief Medical Examiner Laurie Montgomery, is carrying the load both at work and at home. When Laurie insists that Dr. Ryan Sullivan—an underperforming senior pathology resident who is spending his required month at the medical examiner's office but who truly detests doing forensic autopsies—assist her on a suicide autopsy in hopes of stimulating his interest in the field, the last thing she expects is to be unwittingly drawn into a major conspiracy that puts her own life in jeopardy. Desperate to avoid performing as many forensic autopsies as possible, Dr. Ryan Sullivan offers to participate in a research project on a series of suicides put together by one of the medical legal investigators. These suicides, like the case Ryan analyzes with Laurie, hint at some bothersome questions about their manner of death. Although the project was more of a ruse than a serious study, Ryan surprises himself by immediately uncovering unexpected shared commonalities. Most

astonishing of all, Ryan's inquiries eventually put him and Laurie at risk by leading to a nefarious cancer diagnostics company that promotes the very latest, groundbreaking cancer screening technology in a shockingly self-serving and fraudulent fashion.

Intervention Robin Cook, 2009-08-11 New York Times bestselling author Robin Cook returns with another ripped-from-the-headlines medical thriller, as medical detective Jack Stapleton investigates the promises—and deadly risks—of alternative medicine and is led deep into the heart of a religious conspiracy... Medical examiners and husband-and-wife pair Jack Stapleton and Laurie Montgomery are consumed with worry for their young son, who has been diagnosed with neuroblastoma, a childhood cancer. But, as always, Jack turns to his work for solace; after performing a postmortem on a promising young woman who had recently been treated by a chiropractor, he begins researching alternative medicine as a way to avoid obsessing about his child's illness. Meanwhile, Jack's college buddy, a renowned archaeologist and biblical scholar, makes a spectacular find at a souk in Cairo: an ancient codex, whose contents may vault him to international fame—and jeopardize the very nature of papal infallibility. And the bishop of the Archdiocese of New York, another former classmate, turns to Jack to help safeguard an explosive secret, one with the power to change lives forever...

Jack and Laurie return in another fast-paced spine chiller about a deadly bioweapon that could disrupt the world order as we know it. “Masterful . . . Robin Cook is at the top of his game.” –#1 NYT bestselling author FREIDA MCFADDEN When Laurie Montgomery temporarily steps down from her position as Chief Medical Examiner, she and Jack find themselves uncharacteristically free for a couple of weeks. And the timing couldn't be better when they receive a call from Jack's former medical school classmate, Robert Neilson, who is the sole family practitioner in Essex Falls, an idyllic town tucked away in New York State's Adirondack Mountains. Serving also as the Hamilton County coroner, Dr. Neilson is in over his head trying to explain the sudden death of a young, healthy pest control worker on top of an outbreak of rapidly progressive Alzheimer's-like cases, and he pleads with Jack and Laurie to come lend a professional hand. Unable to resist a good mystery and a vacation in one, Laurie and Jack agree to help and head upstate. Essex Falls is beautiful enough and their accommodations are even better than they imagined. But they soon learn the town has suffered a major economic and social setback, which has shaken its residents to their cores. When the body of the pest control worker disappears without a trace just prior to an autopsy, Jack's penchant for solving forensic conundrums launches him into a full-scale investigation that uncovers the most frightening modus operandi of his career so far.

Religion in the Secular Age Herta Nagl-Docekal, Waldemar Zacharasiewicz, 2023-09-05 What does it mean to be religious believers for people whose living conditions are defined by an increasingly secularized environment? Is the common distinction between faith and knowledge valid? The 21 essays cover approaches from various fields of the humanities. Some explore post-Kantian thoughts, discussing, i.a., American Pragmatism, M. Buber, M. Horkheimer, H. Putnam, J. Habermas, Ch. Taylor and variants of deconstruction, while other essays focus on ways in which the conflict between agnostics and seekers is addressed in US literary works, as in Fl. O'Connor, W. Percy, N. Hawthorne, J. Updike and in novels dealing with pandemics, for instance by L. Wright, E. M. Wiseman and R. Cook. Historical studies examine the intermingling of the sacred and the secular in the American South and neo-scholastic objections to modernity. Theological issues are being re-framed in essays discussing the relevance of pluralism, the relation of religious conviction and public opinion, the situation of scientists who believe and the thoughts of N. Frye and M. McLuhan. Finally, essays pay attention to religious aspects in works of art, e.g. in Ukrainian poetry, G. Mahler's symphonies and in a TV show presenting new "American Gods" of globalization.
