*Supporting Reading in Grades 6-12* Sybil M. Farwell,Nancy L. Teger,2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. Supporting Reading Grades 6-12: A Guideaddresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits

as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.

Solitude and the Manifestations of the Solitary Characters in Selected Short Stories: An Interdisciplinary Study Najat Ismael Sayakhan, 2024-07-02 Solitude is the state of being alone or isolated from others. It is often a voluntary choice for meditation, introspection, reflection, or simply enjoying one's own company. Solitude can be peaceful and conducive to deep thinking or creativity, contrasting with loneliness, which implies a negative feeling of being alone and disconnected. This book investigates the types of solitude in twelve modern short stories written by authors of different nationalities, races, and genders. It also explores how the setting boosts the state of solitude of each character. There are different manifestations of solitude and the solitary character: a person living among other people, refusing to be part of them, unwilling to be part of them, or being refused and rejected to be part of them. This character is a child, a teenager, a man (or an abnormal, freakish man) or a woman of sorrow, a recipient of much unbearable pain.

**Here I Am** Keith Scott, 2021-12-09 What if God is hiding in plain sight? This is the question that author Keith Scott asks

in his book about finding God's presence in our lives. Here I Am flips the response that Abraham and Moses gave to God's call, imagining it as God's response to our question, Where are you? The book shows that God reveals himself in human nature, history, science, classical and popular culture, and in our common customs and habits. *Teaching short stories in the EFL-Classroom* Berenice Walther, 2008-02-29 Seminar paper from the year 2007 in the subject American Studies - Literature, grade: 1,3, University of Münster, course: Teaching Short Stories in the EFL-Classroom, language: English, abstract: The short story has its origins in traditional oral storytelling. Many of the world's greatest literary classics such as *El Cid*, *La Chanson de Roland*, *Beowulf* or the *Odyssey* were originally orally transmitted. In most cases, the story has undergone many modifications in the course of the telling processes; still they are today's primary testimonies for language, history, culture and people of the past. They were told in rhyming and therefore functioned as a mnemonic device for easier recall. In Europe, the short story began to evolve from oral storytelling in the early 14th century with Chaucer's *Canterbury Tales* and Boccaccio's *Decamerone*, books consisting of individual short stories within a larger frame story. Only in the 19th century, modern short stories began to be considered a proper genre. Print magazines represented a strong market for short fiction, theories related to this began to surge, as for example, Edgar Allan Poe's *The Philosophy of Composition*. Nowadays, the number of commercial magazines publishing short stories has decreased but they appear to have found their place in online publications. Today, reading has become a minor activity in people's lives with globalisation, technological progress and a fast-growing media industry. In schools, pupil's interest is increasingly difficult to stimulate, especially when it comes to literature in the English Second Language classroom. Students are used to fast information input without necessarily having to become active themselves, they lose concentration easily when the learning process takes too long or they lose patience when they do not understand right away. The use of short stories in the English Foreign Language classroom is one possibility to respond to this problem teachers of foreign languages have to face. Therefore, this paper is going to define the genre of the short story as such to create a basis for the following presentation of the benefits of short stories for the North Rhine-Westphalian English Language Classroom. In the next step, the curricula and guidelines are taken into consideration in order to develop some ideas on how to implement *The Machine that Won the War* by Isaac Asimov in class. These will be integrated into a lesson plan with several activities around the story. There are several theoretical works dealing with the lecture of short stories, starting with Poe's work mentioned above, Allen Walter's *The Short Story in English*, Charles E. May's *The Short Story - The Reality Artifice* or Frank Myszor's *The Modern Short Story*. Some articles have been written e.g., by Rüdiger Ahrens *Die bisherige Rolle der Short Story im Englischunterricht der Sekundarstufe II*, dealing with the use of short stories as a way of teaching literature. Most has certainly been written about

didactics of English in German classrooms such as Wolfgang Gehring's Englische Fachdidaktik Eine Einführung, Englisch lernen und lehren, Didaktik des Englischunterrichts by Johannes - P. Timm or Egon Werlich's Praktische Methodik des Fremdsprachenunterrichts mit authentischen Texten.

**Why Choose the Liberal Arts?** Mark William Roche, 2010-08-20 In a world where the value of a liberal arts education is no longer taken for granted, Mark William Roche lucidly and passionately argues for its essential importance. Drawing on more than thirty years of experience in higher education as a student, faculty member, and administrator, Roche deftly connects the broad theoretical perspective of educators to the practical needs and questions of students and their parents. Roche develops three overlapping arguments for a strong liberal arts education: first, the intrinsic value of learning for its own sake, including exploration of the profound questions that give meaning to life; second, the cultivation of intellectual virtues necessary for success beyond the academy; and third, the formative influence of the liberal arts on character and on the development of a sense of higher purpose and vocation. Together with his exploration of these three values—intrinsic, practical, and idealistic—Roche reflects on ways to integrate them, interweaving empirical data with personal experience. *Why Choose the Liberal Arts?* is an accessible and thought-provoking work of interest to students, parents, and administrators.
