*Black Talk, Blue Thoughts, and Walking the Color Line* Erin Aubry Kaplan, 2011 This lively and thoughtful book explores what it means to be black in an allegedly postracial America

**Hip Hop America** Nelson George, 2005-04-26 From Nelson George, supervising producer and writer of the hit Netflix series, *The Get Down*, *Hip Hop America* is the definitive account of the society-altering collision between black youth culture and the mass media.

**Contemporary American Crime Fiction** Hans Bertens, T. D'haen, 2001-10-25 This highly accessible, lively and informative study gives a clear and comprehensive overview of recent trends in American crime fiction. Building on a discussion of the immediate predecessors, Bertens and D'haen focus on the work of popular and award-winning authors of the last fifteen years. Particular attention is given to writers who have reworked established conventions and explored new directions, especially women and those from ethnic minorities.

*Disturbing Argument* Catherine Palczewski, 2015-01-30 This edited volume represents the best of the scholarship presented at the 18th National Communication Association/American Forensic Association Conference on Argumentation. This biennial conference brings together a lively group of argumentation scholars from a range of disciplinary approaches and a variety of countries. *Disturbing Argument* contains selected works that speak both to the disturbing prevalence of violence in the contemporary world and to the potential of argument itself, to disturb the very relations of power that enable that violence. Scholars' essays analyze a range of argument forms, including body and visual argument, interpersonal and group argument, argument in electoral politics, public argument, argument in social protest, scientific and technical

argument, and argument and debate pedagogy. Contributors study argument using a range of methodological approaches, from social scientifically informed studies of interpersonal, group, and political argument to humanistic examinations of argument theory, political discourse, and social protest, to creatively informed considerations of argument practices that truly disturb the boundaries of what we consider argument.

**Colored Contradictions** Harry Justin Elam, Robert Alexander, 1996 A collection of plays by contemporary African-American writers.

Black Voices in Commentary, 1993

**Black Women in America** Darlene Clark Hine, 2005 Winner of the Dartmouth Medal for Outstanding Reference Publication of 1994, the first edition of *Black Women in America* broke ground - pulling together for the first time all of the research in this vast but underrepresented field to provide one of the strongest building blocks of Black Women's Studies. Hailed by Eric Foner of Columbia University (for a *Lingua Franca* survey) as one of those publishing events which changes the way we look at a field, it simultaneously filled a void in the literature and sparked new research and concepts regarding African American women in history. Since the first edition was published, a new generation of American black women has flourished, demanding this landmark reference be brought up to date. Women such as Venus and Serena Williams, Condoleezza Rice, Carol Mosley-Braun, Ruth Simmons, and Ann Fudge have become household names for their remarkable contributions to sports, politics, academia, and business. In three magnificent volumes, *Black Women in America*, Second Edition celebrates the remarkable achievements of black women throughout history, highlights their ongoing contributions in America today, and covers the new research the first edition helped to generate. Features: \* Includes more than 150 new entries, plus revisions and updates to all previous entries \* Contains 500 illustrations, many published here for the first times \* Includes over 335 biographies, many newly prepared for this publication \* Offers sidebars on interesting aspects of the history and culture of black women \* Provides a bibliography for each entry, plus a major bibliographical essay \* Features a chronology and a comprehensive index For a complete listing of contents, visit [www.oup.com/us/bwia](http://www.oup.com/us/bwia)

Bodies Barry Glassner, 1992

Black America, Body Beautiful Eric J. Bailey, 2008-07-30 Despite all the medical and media attention focused on the rate of overweight and obesity in the African American population, African American images and body types are greatly influencing changes in the fashion, fitness, advertising, television and movie industries. This is because overweight, like beauty, can be in the eye of the beholder. Most research studies investigating attitudes about body image and body type among African Americans have shown they are more satisfied with their bodies than are their white counterparts and that there appears to be a wider range of acceptable body shapes and weights, and a more flexible standard of attractiveness, among black Americans as compared to whites. That fact is not being lost on leaders of industries that might profit from understanding this wider range of beauty, as well as playing to it. In this book, medical anthropologist Eric Bailey introduces and explains the self-acceptance and body image satisfaction of African Americans, and traces how that has spurred changes in industry. His book fills the void of scientific evidence to enhance the understanding of African Americans' perceptions related to body image and beauty—and is the first to document these issues from the perspective of an African American male. Despite all the medical and media attention focused on the rate of overweight and obesity in the African American population, African American images and body types are greatly influencing changes in the fashion, fitness, advertising, television, and movie industries. This is because overweight, like beauty, can be in the eye of the beholder. Most research studies investigating attitudes about body image and body type among African Americans have shown they are more satisfied with their bodies than are their white counterparts. Most black women, for example, are of course concerned with how they look, but do not judge themselves in terms of their weight and do not believe they are valued mostly on the basis of their bodies. Black teen girls most often say being thick and curvaceous with large hips and ample thighs is seen as the most desirable body shape. Thus, there appears to be a wider range of acceptable body shapes and weights, and a more flexible standard of attractiveness, among black Americans as compared to whites. That fact is not lost on leaders of industries that might profit from understanding this wider range of beauty, as well as playing to it. Voluptuous supermodel Tyra Banks is just one African American who's broken the mold in that industry. The effects have been seen right down to department and local clothes stores, where lines of larger and plus-size fashions are expanding, becoming more colorful and more ornate. In the fitness industry, health gurus Madonna Grimes and Billy Blanks have been revolutionizing how people get fit and how fitness needs to be redeveloped for the African American population. Advertising has taken a similar turn, not the least manifestation of which were the major campaigns Dove and Nike ran in 2005 with plus-sized actresses (who continue to appear in promotions for both companies). In movies and on television shows, the African American beautiful body image has followed suit. In this book, medical anthropologist Eric Bailey introduces and explains the self-acceptance and body image satisfaction of African Americans, and traces how that has spurred changes in industry. His book fills the void of scientific evidence to enhance the understanding of African Americans' perceptions related to body image and beauty—and is the first

to document these issues from the perspective of an African American male.

**Hip-hop Revolution** Jeffrey Ogbonna Green Ogbar,2007 As hip-hop artists constantly struggle to keep it real, this fascinating study examines the debates over the core codes of hip-hop authenticity--as it reflects and reacts to problematic black images in popular culture--placing hip-hop in its proper cultural, political, and social contexts.

We Gotta Have It Esther Iverem,2007-04-13 An essential look at the cultural dissemination of African-American in film with an exclusive interview with Spike Lee.

**The Looks Book** Rebecca Odes,Esther Drill,Heather McDonald,2002 The gURLS behind the national bestseller, Deal With It!, are back - with a frank and fabulous look at teenage beauty, image, and style. As exciting to look at as it is to read, The Looks Book is guaranteed to be a must-have book for teens and young women. A fascinating exploration of the history, culture, science, and business of beauty, this is the first book to empower women to simply have fun with their looks. Throughout the book, real-life examples of a stunning range of beauty archetypes help young women to re-define their concepts of beauty, while emphasizing self-expression, self-invention, and a healthy irreverence toward traditional ideals.
