Tom Wolfe

The Bonfire of the Vanities Tom Wolfe, 1987 One of the most celebrated bestsellers of the decade, here is Wolfe's wise and wickedly brilliant novel of lust, greed, Wall Street and the American way of life in the '80s.

The Bonfire of the Vanities Tom Wolfe, 2002-02-21 Vintage Tom Wolfe, *The Bonfire of the Vanities*, the #1 bestseller that will forever define late-twentieth-century New York style. No one has portrayed New York Society this accurately and devastatingly since Edith Wharton (The National Review) "A page-turner . . . Brilliant high comedy." (The New Republic) Sherman McCoy, the central figure of Tom Wolfe's first novel, is a young investment banker with a fourteen-room apartment in Manhattan. When he is involved in a freak accident in the Bronx, prosecutors, politicians, the press, the police, the clergy, and assorted hustlers high and low close in on him, licking their chops and giving us a gargantuan helping of the human comedy, of New York in the 1980s, a city boiling over with racial and ethnic hostilities and burning with the itch to Grab It Now. Wolfe's novel is a big, panoramic story of the metropolis that reinforces the author's reputation as the foremost chronicler of the way we live in America. Adapted to film in 1990 by director Brian De Palma, the movie stars Tom Hanks, Bruce Willis, Melanie Griffith, and Morgan Freeman.

The Bonfire of the Vanities Tom Wolfe, 1988 One night in the Bronx a millionaire, Sherman McCoy, and his mistress have an accident. The next day a young Black is in hospital in a coma as McCoy heads for disaster. His humiliation is at the centre of a satire on the decaying class, racial and political structure of New York in the 1980s.

A Man in Full Tom Wolfe, 2001-10-30 #1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD FINALIST • “A masterpiece” (The Wall Street Journal) of a novel by the era-defining author of *The Bonfire of the Vanities*—now a Netflix original limited series from David E. Kelley (*Big Little Lies*) starring Jeff Daniels, Lucy Liu, and Diane Lane “Wolfe is a peerless observer, a fearless satirist, a genius in full.”—People The setting is Atlanta, Georgia—a racially mixed, late-twentieth-century boomtown full of fresh wealth and wily politicians. The protagonist is Charles Croker, once a college football star, now a late-middle-aged Atlanta conglomerate king whose outsize ego has at last hit up against reality. Charlie has a 29,000-acre quail-shooting plantation, a young and demanding second wife, and a half-empty office complex with a staggering load of debt. Meanwhile, Conrad Hensley, idealistic young father of two, is laid off from his job at the Croker Global Foods warehouse near Oakland, California, and finds himself spiraling into the lower depths of the American legal system. And back in Atlanta, when star Georgia Tech running back Fareek “the Canon” Fanon, a homegrown product of the city's slums, is accused of date-raping the daughter of a pillar of the white establishment, upscale black lawyer Roger White II is asked to represent Fanon and help keep the city's delicate racial balance from blowing sky-high. Networks of illegal Asian immigrants crisscrossing the continent, daily life behind bars, shady real estate syndicates—Wolfe shows us contemporary turn-of-the-century America with all the verve, wit, and insight that have made him one of our most admired talked-about novelists.

Politics, Satire, and Historical Consciousness in Contemporary American Novel Olena Boylu, 2022-11-01 What is the role of the historical and political novel in our lives? Is it just a story from the past, or does it shape our historical consciousness? Can we rely on the information within this type of fiction? According to many historicists, we cannot. However, we can also question numerous ideologically shaped history books that look more like fiction than scientific

sources. Hence, historically and politically loaded fiction has an equal chance in the formational process of our historical consciousness. Besides, through satire and humor, which a scientist omits in a history book, a novelist manages to affect its reader on a different scale and leave a deeper trace. As E.L. Doctorow once stated, ``The historian tells you what happened. The novelist will tell you what it felt like." Hence, this study analyzes several significant concepts such as historiography, historical consciousness, power, its elements, and the way it operates; traces major characteristics of historical and political fiction, and determines the role of satire within them. Eventually, through the analysis of several prominent contemporary novels, it provides vivid examples of all the concepts that have been discussed.

Crowds, Community and Contagion in Contemporary Britain Sarah Lowndes,2022-09-30 Crowds, Community and Contagion in Contemporary Britain presents the COVID-19 pandemic as an opportunity to re-assess the neoliberal politics, xenophobia and racism that have undermined community cohesion in the United Kingdom since 1979, and which have continued largely unchecked through the last four decades. Guided by three interconnected ideas used throughout to scrutinise the meaning of culture as a way of life – Welsh cultural theorist Raymond Williams’ structure of feeling, Jamaican-British sociologist Stuart Hall’s conception of the conjuncture and Belgian political philosopher Chantal Mouffe’s agonistic pluralism – Sarah Lowndes finds that a renewed sense of mutual regard and collective responsibility are necessary to meet the unprecedented challenges of the COVID-19 pandemic. She begins by reflecting on public gatherings in Britain from 1945 to 2019, moving on to analyse five key examples of public gatherings affected by the pandemic in 2020 onwards: Chinese New Year, the UEFA Champions League Final, VE Day street parties, Black Lives Matter demonstrations, and the cancellation of Eid ul-Adha celebrations. A thorough examination of how ideas proliferate and spread through our society, public sphere and collective consciousness, this book will appeal to scholars and upper-level students of cultural studies, cultural history, sociology and politics.

The American Popular Novel After World War II David Willbern, 2013-04-05 Through the perspectives of selected best-selling novels from the end of World War II to the end of the 20th century--including *The Catcher in the Rye*, *To Kill a Mockingbird*, *The Godfather*, *Jaws*, *Beloved*, *The Silence of the Lambs*, and *Jurassic Park*--this book examines the crucial issues the U.S. was experiencing during those decades. These novels represent the voices of popular conversations, as Americans considered issues of family, class, racism and sexism, feminism, economic ambition, sexual violence, war, law, religion and science. Through the windows of fiction, the book surveys the Cold War and anti-communism, the prefeminist era of the 1950s and the sexual revolution of the 1970s, forms of corporate power in the 1960s and 1980s, the traumatic legacies of slavery and Vietnam, the American fascination with lawyers, cops and criminals, alternate styles of romance in the era of late capitalism, our abiding distrust of science, and our steadfast wonder about the Great Mysteries.
