**Chop Wood, Carry Water** Rick Fields,1984-12-01 An inspirational handbook to discovering spiritual fulfillment in everyday activities and applying ancient wisdom to your modern life. More than a thousand years ago a Chinese Zen Master wrote: Magical Power, Marvelous Action! Chopping Wood, Carrying Water... The message is as true today as it was then: the greatest lessons and the profoundest heights of the spiritual path can be found in our everyday lives. It is the greatest challenge for people living in contemporary society to find the spiritual aspects of working in an office, store, or factory; balancing a checkbook; raising a family; or making a relationship work. How can we make all these daily activities a part of the path? How can we apply the insights of great spiritual traditions, and our own experience, to the way we live and develop? This book is a guide—a handbook filled with information, advice, hints, stories, inspiration, encouragement, connections, warning, and cautions, for the inner journey as we live throughout our lives. Chop Wood, Carry Water contains much ancient wisdom, but the emphasis is on contemporary perceptions. Many of our guides have been known to humanity for millennia: they are the world's great spiritual teachers—Christ, the Buddha, Lao Tse, Confucius. Others are contemporary teacher and healers, widely recognized and respected. All offer ways to integrate the events, our focus on relationships and family, our struggle with technology, money, politics and more—into the quest for spiritual fulfillment.

Making Things Happen Scott Berkun,2008-03-25 In the updated edition of this critically acclaimed and bestselling book, Microsoft project veteran Scott Berkun offers a collection of essays on field-tested philosophies and strategies for defining, leading, and managing projects. Each essay distills complex concepts and challenges into practical nuggets of useful advice, and the new edition now adds more value for leaders and managers of projects everywhere. Based on his nine years of experience as a program manager for Internet Explorer, and lead program manager for Windows and MSN, Berkun explains to technical and non-technical readers alike what it takes to get through a large software or web development project.

Making Things Happen doesn't cite specific methods, but focuses on philosophy and strategy. Unlike other project management books, Berkun offers personal essays in a comfortable style and easy tone that emulate the relationship of a wise project manager who gives good, entertaining and passionate advice to those who ask. Topics in this new edition include: How to make things happen Making good decisions Specifications and requirements Ideas and what to do with them How not to annoy people Leadership and trust The truth about making dates What to do when things go wrong Complete with a new forward from the author and a discussion guide for forming reading groups/teams, Making Things Happen offers in-depth exercises to help you apply lessons from the book to your job. It is inspiring, funny, honest, and compelling, and definitely the one book that you and your team need to have within arm's reach throughout the life of your project. Coming from the rare perspective of someone who fought difficult battles on Microsoft's biggest projects and taught project design and management for MSTE, Microsoft's internal best practices group, this is valuable advice indeed. It will serve you well with your current work, and on future projects to come.
