Tratamiento paso a paso de los problemas psicológicos en adultos José Pedro Espada Sánchez, Mireia Orgilés Amorós, Francisco Xavier Méndez Carrillo, 2023-04-27 Se estima que una de cada cuatro personas adultas en España tiene o tendrá en el futuro un problema de salud mental. Atender los problemas y trastornos psicológicos de la población supone todo un reto para nuestra sociedad. La intervención psicológica en este ámbito requiere profesionales con dominio de las técnicas de evaluación y tratamiento psicológico que cuentan con la mayor evidencia científica. En esta obra se aúna la investigación y la práctica clínica. Por un lado, se describe con detalle la psicopatología, la evaluación y el tratamiento psicológico de cada problema o trastorno desde el rigor científico de la investigación; por otro lado, se expone de manera didáctica y paso a paso el proceso de evaluación y tratamiento de un caso clínico, siguiendo el método científico en la

intervención. A lo largo de veinticuatro capítulos, con más de cuarenta expertos del campo académico y aplicado, se abordan problemas psicológicos que, por su frecuencia o por su tratamiento novedoso, contribuyen a la formación de estudiantes y a la actualización de profesionales. Esta obra es una guía para el terapeuta en formación o profesional que quiera conocer, desde un acercamiento científico y riguroso, el proceso de evaluación y tratamiento de los problemas psicológicos.

European Drug Index Niels F. Muller, Rudolf P. Dessing, 2022-03-07 Many health care providers are frequently dealing with problems related to the identification and interpretation of medicines and prescriptions of foreign origin. Health authorities, customs and travel agencies also encounter such problems, which are related to the increasing mobility of the European population. Thus the need for a European Drug Index is obvious. The EDI provides extended information for practitioners confronted with the enormous number of drug names available on the European pharmaceutical market. This market is increasing due to the rapidly changing palette of countries and economic restrictions in Europe. The listings have been derived from drug data sources from the increased number of participating countries in this second edition. Each item starts with a trade name, in alphabetical order, followed by (depending on the original source) dosage forms, strength, volume (if applicable), and generic name(s) of the active principle(s) in a random sequence. The item is concluded by the Anatomical Therapeutic Chemical (ATC) classification (when made available by the original source) and a code for the country of origin.
