

Death Of An Author

William Cowper

The Death of the Author and Anticolonial Thought Michael R. Griffiths, 2025-03-20 The Death of the Author and Anticolonial Thought promises to transform a decades old debate in literary studies about the relation between structure and agency, form and intention by giving a detailed account—previously unstudied—of the way colonized writers have responded to, learned from, and critiqued the death of the author postulate declared by Roland Barthes in 1967. The book is a cultural history of these debates—with a particular focus on two crucial two key case studies, Martinican poet and thinker Édouard Glissant and Palestinian literary and cultural critic Edward Said, this book, then, examines the immediate emergence and intensification of such responses to the postulate of the author's deathly absence from the text, in order to suggest that metropolitan literary theory drew both critique and engagement from scholars of black, decolonial and Global South background from both before 1967 and Barthes's declaration and in its wake. This book provides a focused account of the early history of the way global literatures have engaged with, critiqued, and occasionally adopted the lessons and limitations of the poststructuralist critique of that most fetishised and also reviled of figures: the author.

The Birth and Death of the Author Andrew J. Power, 2020-07-09 The Birth and Death of the Author is a work about the changing nature of authorship as a concept. In eight specialist interventions by a diverse group of the finest international scholars it tells a history of print authorship in a set of author case studies from the fifteenth to the twenty-first century. The introduction surveys the prehistory of print authorship and sets the historical and theoretical framework that opens the discussion for the seven succeeding chapters. Engaging particularly with the history of the materials and technology of authorship it places this in conversation with the critical history of the author up to and beyond the crisis of Barthes' 'Death of the Author'. As a multi-authored history of authorship itself, each subsequent chapter takes a single author or work from every century since the advent of print and focuses in on the relationship between the author and the reader. Thus they explore the complexities of the concept of authorship in the works of Thomas Hoccleve and John Lydgate (Andrew Galloway, Cornell University), William Shakespeare and Christopher Marlowe (Rory Loughnane, University of Kent), John Taylor, the Water Poet (Edel Semple, University College Cork), Samuel Richardson (Natasha Simonova, University of Oxford), Herman Melville (and his reluctant scrivener 'Bartleby') (William E. Engel, Sewanee, The University of the South), James Joyce (Brad Tuggle, University of Alabama), and Grant Morrison (Darragh Greene, University College Dublin).

An Analysis of Roland Barthes's The Death of the Author Laura Seymour,2018-05-11 Roland Barthes's 1967 essay, The Death of the Author, argues against the traditional practice of incorporating the intentions and biographical context of an author into textual interpretation because of the resultant limitations imposed on a text. Hailing the birth of the reader, Barthes posits a new abstract notion of the reader as the conceptual space containing all the text's possible meanings. The essay has become one of the most cited works in literary criticism and is a key text for any reader approaching reader response theory.

The Post-war Novel and the Death of the Author Arya Aryan,2020-08-07 This book not only discloses and examines different functions and concepts of authorship in fiction and theory from the 1950s and 1960s to the present but it also reveals, at least implicitly, a trajectory of some of the modes and functions of the novel as a genre in the last few decades. It argues that the explicit terms of much of the theoretical and philosophical debate surrounding the concept of authorship in the moment of High Theory in the 1980s had already been engaged, albeit often more implicitly, in literary fictions by writers themselves. This book examines the fortunes of the authorship debate and the conceptualisations and functions of authorship before, during, and after the Death of the Author came to prominence as one of the key foci for the moment of High Theory in the 1980s.

The Death of an Author S. L. Edwards,2021-06-25 “S.L. Edwards presents stories that should be savored like a fine liquor, tales hauntingly crafted with notes of darkness, a touch of madness, spiced with melancholy, and given just one insubstantial twist of hope.” —Peter Rawlik, author of *The Peaslee Papers* In his second short story collection, S. L. Edwards offers tales of fantasy and horror, all-too human and all-too terrifying. In this volume, you’ll find stories of vampires lording over the zombie apocalypse, gunslingers fighting their way through haunted mining towns, dragons at the end of the world, and the death of an author. At the intersection of pulp horror, weird fiction, and a general love for fantasy, *The Death of an Author* is a kinetic collection, with offerings both for those who enjoyed *Whiskey and Other Unusual Ghosts* and for new readers as well.
