Halo: Silentium Greg Bear, 2019-01-01 The final novel of the Forerunner Saga trilogy by science fiction legend Greg Bear—set in the Halo universe and based on the New York Times bestselling video game series! One hundred thousand years ago. Chaos rules the final days of the Forerunner empire. The Flood—a horrifying, shape-changing, and unstoppable parasite—has arrived in force, aided by unexpected allies, and internal strife has desperately weakened Forerunner defenses. Facing the imminent collapse of their civilization, the Forerunners known as the Ur-Didact and the Librarian reveal what they know about the relationship between the long-vanished race of the Precursors and the Flood. While the Precursors created many technological species, including those of the Forerunners and humanity itself, the roots of the Flood may be found in an act of enormous barbarity, carried out beyond our galaxy ten million years before. Because of that savagery, a greater evil looms. Only the Ur-Didact and the Librarian—husband and wife pushed into desperate conflict—hold the keys to a solution. As they face the consequences of a mythic tragedy, one of them must now commit the greatest atrocity of all time—a shocking act designed to prevent an insane abomination from dominating the entire galaxy...

Halo: Primordium Greg Bear, 2019-01-01 The second novel of the Forerunner Saga trilogy by science fiction legend Greg Bear—set in the Halo universe and based on the New York Times bestselling video game series! One hundred thousand years ago. In the wake of the apparent self-destruction of the alien Forerunner empire, two humans—Chakas and Riser—are like flotsam washed up on very strange shores indeed. Captured by the Forerunner known as the Master Builder and then misplaced during a furious battle in space, Chakas and Riser now find themselves on an inverted world, where horizons rise into the sky and humans of all kinds are trapped in a perilous cycle of horror and neglect. They have become both research animals and strategic pawns in a cosmic game whose madness knows no end—a game of ancient vengeance between the powers who seeded the galaxy with life, and the Forerunners who expect to inherit their sacred Mantle of Responsibility to all living things. In the company of a young girl and an old man, Chakas begins an epic journey across a lost and damaged Halo ringworld in search of a way home, an explanation for the warrior spirits rising up within, and the reason for the Forerunner Librarian's tampering with human destiny. Their travels will take them into the domain of a powerful and monstrous intelligence—known as “the Captive” by Forerunners, and “the Primordial” by ancient human warriors, this being may not only control the fate of Chakas, Riser, and the rest of humanity, but of all sentient life across the galaxy...

Halo: Silentium Greg Bear, 2013-03-19 The final installment in the New York Times bestselling series In the last years of the Forerunner empire, chaos rules. The Flood—a horrifying shape-changing parasite—has arrived in force, aided by unexpected allies. Internal strife within the ecumene has desperately weakened Forerunner defenses. Too little, too late, the legal rate of Juridicals is only now investigating possible crimes by the Master Builder and others. Evidence-gathering agents known collectively as Catalog have been dispatched to collect testimony from the Librarian and both Didacts: the Ur-Didact, treacherously abandoned in a Flood-infested system, and the Bornstellar Didact, who accompanies the Librarian as she preserves specimens against the dire possibility of Halo extermination. Facing the imminent collapse of their civilization, the Librarian and the Ur-Didact reveal what they know about the relationship between the long-vanished Precursors and the Flood. The Precursors created many technological species, including humanity and the Forerunners. But the roots of the Flood may be found in an act of enormous barbarity, carried out beyond our galaxy ten million years before. Because of that barbarism, a greater evil looms. Only the Ur-Didact and the Librarian — husband and wife pushed into desperate conflict — hold the keys to a solution. Facing the consequences of a mythic tragedy, one of them must now commit the greatest atrocity of all time—to prevent an insane evil from dominating the entire universe.

They ruled in peace, but met opposition with quick and brutal effectiveness. They were the Forerunners—the keepers of the Mantle of Responsibility, the next stage of life in the Universe’s Living Time. And then they vanished. This is their story.

Crash Course in Gaming Suellen S. Adams, 2013-11-25 Video games aren't just for kids anymore. This book will describe the why and how to start or expand a video gaming program in the library, including some specific examples of how to target adult and female gamer patrons. Gaming supplies more than just visual stimulation and empty entertainment; it can also promote socialization as well as the learning of both traditional and new literacies required to succeed in the modern world. Problem-solving, multi-tasking, complex decision-making on the fly, and reading the combination of words and graphics are vital skills for the 21st century—all of which are required to play video games. Crash Course in Gaming discusses the pros and cons of gaming, the types of games and game systems, circulating collections, and game programs. It explains how a library's video game program can—and should—do much more than simply draw younger users to the library, providing examples of how everyone from parents to senior citizens can benefit from a patron-oriented computer gaming program. The appendices also include specific games, programs, review sources, and sources for further information.

The Forbidden Body Douglas E. Cowan, 2022-05-17 Throughout history, the religious imagination has attempted to control nothing so much as our bodies: what they are and what they mean; what we do with them, with whom, and under what circumstances; how they may be displayed-or, more commonly, how they must be hidden. Religious belief and mandate affect how our bodies are used in ritual practice, as well as how we use them to identify and marginalize threatening religious Others. This book examines how horror culture treats religious bodies that have stepped (or been pushed) out of their 'proper' place. Unlike most books on religion and horror, This book explores the dark spaces where sex, sexual representation, and the sexual body come together with religious belief and scary stories. Because these intersections of sex, horror, and the religious imagination force us to question the nature of consensus reality, supernatural horror, especially as it concerns the body, often shows us the religious imagination at work in real time. It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction, but considers a wide range of material, including

literary horror, weird fiction, graphic storytelling, visual arts, participative culture, and aspects of real-world religious fear. It is less concerned with horror as a genre (which is mainly a function of marketing) and more with the horror mode, a way of storytelling that finds expression across a number of genres, a variety of media, and even blurs the boundary between fiction and non-fiction. This expanded focus not only deepens the pool of potential examples, but invites a much broader readership in for a swim--
