L Darling-Hammond

La diferencia inquietante Teresa San Román, 2010 La realidad actual sobre los gitanos nos llega marcada por el desconocimiento y los estereotipos. Este libro aporta elementos para el conocimiento y la comprensión de la historia de los gitanos en España y su evolución, rupturas y adaptaciones hasta entrar en una descripción de su cultura a lo largo del siglo XX. Desde esta perspectiva, analiza algunas cuestiones centrales para la comprensión de los gitanos que actualmente viven en condiciones precarias o en situaciones de exclusión. En este libro, la autora tras una larga y fecunda trayectoria académica y vital dedicada a la investigación antropológica de los gitanos calés, con la empatía necesaria para comprender al otro, al mismo tiempo que con gran rigor científico y sin concesiones románticas, hace un recorrido magistral por el laberinto de la identidad gitana. Desde que lo concluyó Teresa San Román ha trabajado en muchas otras cosas, pero nunca se ha apartado de los gitanos a pesar de todo. En esta nueva edición, queda patente cómo la autora ha mantenido el contacto profesional con aquellos gitanos que en algún momento pensaron que podía aportarles algo, con asociaciones y líderes que han mostrado tener esa misma deferencia con ella, con jóvenes antropólogos y otros científicos sociales y con profesionales de la enseñanza, el trabajo social o la salud que siguen atareados en estas cuestiones porque, todos ellos, gitanos o payos, desean ser útiles en el proceso de desarrollo libre de este pueblo, tantas veces éste olvidado, tantas veces aquéllos ignorados.

Cultural Sustainability Timothy J Cooley, 2019-04-30 Environmental sustainability and human cultural sustainability are inextricably linked. Reversing damaging human impact on the global environment is ultimately a cultural question, and as with politics, the answers are often profoundly local. *Cultural Sustainability* presents twenty-three essays by musicologists and ethnomusicologists, anthropologists, folklorists, ethnographers, documentary filmmakers, musicians, artists, and activists, each asking a particular question or presenting a specific local case study about cultural and environmental sustainability. Contributing to the environmental humanities, the authors embrace and even celebrate human engagement with ecosystems, though with a profound sense of collective responsibility created by the emergence of the Anthropocene.

Roma Education in Europe Maja Miskovic, 2013-07-18 For the last three decades, the international response to the adverse conditions of Roma has been intensive, producing a plethora of educational policies, reforms, and strategies that have been developed and implemented. This edited volume gathers together prominent international scholars, advocates and activists, with the purpose of offering a comprehensive and integrated understanding of how historical, political, and cultural forces shape educational experiences and social policy for the Roma population in Europe. The book uses theoretical and empirical lenses to understand the formal and informal education of Roma. Through the contextualised theorisation of Roma education it illustrates, illuminates and discusses issues of wider concern. Interdisciplinary conceptual frameworks bind the chapters together and offer an in-depth examination of the questions and issues relevant to the field of education, structuring the book around three central themes: -schooling and social policy; the promises and pitfalls of multiculturalism, integration and inclusion and the deconstruction of educational policies and law -education inside and outside schools; empirical accounts of life in school and the achievements and missed opportunities of the Decade of Roma Inclusion -participation, activism and advocacy; investigating the responsibilities of Roma and non-Roma intellectuals, educators, activists and advocates. Roma Education in Europe grapples with uneven economic and political developments, and as a result, with the possibilities and shortcomings of integration, social justice, and the role of supranational agencies in changing the course of schooling and education. The book will be key reading for those researching or studying Romani studies, education, sociology, and cultural, ethnicity and immigration studies.

The Gypsies of Early Modern Spain R. Pym, 2007-01-05 Drawing extensively on the author's archival research, this is the first major study in English of the first three and a half centuries in Spain of a people, its 'gitanos', who, despite their elevation by Spaniards and non-Spaniards alike to culturally iconic status, have until now remained invisible to history in the English-speaking world.

Diversidad(eS) Asun Pié Balaguer (coord.), Ramon Duch Almo, Mercedes Martínez Torres, Rosa Maria Miró Rovira, Israel Rodríguez Giralt, 2015-09-18 Diversidade(S). Discapacidad, altas capacidades intelectuales y trastornos del espectro autista se estructura en tres partes. En primer lugar, se presenta la discapacidad intelectual desde el modelo social. En segundo lugar, se estudian los trastornos del espectro autista desde una visión amplia e interdisciplinaria hasta los aportes específicos de Fernand Deligny en Francia y el movimiento de la neurodiversidad en Inglaterra. En tercer lugar, se indican los elementos esenciales para el trabajo educativo con niños con altas capacidades intelectuales en el aula. El libro recoge los enfoques

teóricos, modelos epistemológicos, técnicas de acompañamiento socioeducativo, instrumentos de detección, evaluación y orientaciones generales de trabajo en contextos educativos para los tres casos citados. Se plantea una aproximación teórico-práctica que ofrece criterios de actuación a los profesionales de la educación. Por otro lado, se interroga sobre algunos debates y controversias presentes en los casos estudiados ofreciendo, en su conjunto, un contenido extenso y de gran aplicación práctica.

Enemies Within María Sierra, 2015-11-25 Can citizenship rights be denied to significant groups in a society that regards itself as civilized and self-governing? Is it possible to exclude such people in the name of freedom and reason? Is it plausible to explain classifications that differentiate between first- and second-class citizens as “natural”? This is the paradox inherent in modern politics, born of the revolutions that ended the Ancien Régime in the western world. Throughout the nineteenth century and at the beginning of the twentieth, liberalism inspired a representative form of government that appealed to citizenship, yet marginalized many social groups, including natives, women, immigrants, workers, slaves and nomads. In the Hispanic dimension of the Atlantic world that this book deals with, modern politics was based on exclusions explained as natural and necessary. In both Europe and America, a distinction was made between the responsible citizen and those “others” in society, potential “enemies within”, who had to be controlled and supervised. This book explains the success of this political operation by analysing the historical construction of figures of alterity that were fundamental to the definition of national civic identities. Its basic premise is that imaginaries that were constructed in the nineteenth century can be found even today in western political conceptions. The cultural complexity of enduring political images is revealed by exploring the inner workings of virtuous figures in relation to their opposites: readers will find the mosaic of representations of civic alterity both recognisable and surprising. The contributors to this volume provide historical perspectives on the debate on political legitimacy in open societies. Reinventing democracies involves understanding the historicity of inherited formulae of governance and considering them, therefore, as amenable to improvement. The readiness to do this is not a threat to democracy but, rather, a commitment to looking for it.

Transnational Perspectives on Culture, Policy, and Education Cameron McCarthy, Cathryn Teasley, 2008 This series publishes critical scholarship that seeks to engage and transcend the disciplinary isolationism and genre confinement that now characterize so much of contemporary research in communication studies and related fields. It focuses on studies that address the broad intersections and hybrid trajectories that define the encounters between human groups in modern institutions and societies and the way these intersections are represented in contemporary popular cultural forms of knowledge.

Configuring Community Parvati Nair,2004 Annotation The concept of community has become central to constructions of Spanish identities, since the Transition to democracy. Contemporary Spain witnesses a political, social, and economic resurgence of community, which both cuts across and is prioritized over nation. Yet, few studies of contemporary Spanish culture deal with this concept. This book aims, therefore, to fill a gap in Spanish cultural studies by providing an in-depth analysis of the intersections of theories, narratives and concepts of community identities across a broad range of media. Literature, film, music, and photography are analysed here in order to explore the diverse means by which community is imagined and constructed. This is a strongly interdisciplinary study, bringing together cultural studies and ethnography. The specific 'texts' that are analysed are located within a larger framework provided by Spain's involvement in processes of globalization. Unusual in this study, therefore, is the use of fieldwork and interview, as well as the application of the work of cultural theorists to the Spanish context. This book, thus, extends the field of Spanish cultural studies through its original and deliberate examination of community; it is equally relevant to a more general reading public, interested in the diverse media covered here. By the same token, this book is of relevance to scholars in the Arts, Social Sciences, and Humanities, through its exploration and application of the ideas of theorists of modernity, space, and time.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
