The Invisible Hand in Popular Culture Paul Arthur Cantor, 2012-11-05 Popular culture often champions freedom as the fundamentally American way of life and celebrates the virtues of independence and self-reliance. But film and television have also explored the tension between freedom and other core values, such as order and political stability. What may look like healthy, productive, and creative freedom from one point of view may look like chaos, anarchy, and a source of destructive conflict from another. Film and television continually pose the question: Can Americans deal with their problems

on their own, or must they rely on political elites to manage their lives? In this groundbreaking work, Paul A. Cantor explores the ways in which television shows such as Star Trek, The X-Files, South Park, and Deadwood and films such as The Aviator and Mars Attacks! have portrayed both top-down and bottom-up models of order. Drawing on the works of John Locke, Adam Smith, Alexis de Tocqueville, and other proponents of freedom, Cantor contrasts the classical liberal vision of America -- particularly its emphasis on the virtues of spontaneous order -- with the Marxist understanding of the culture industry and the Hobbesian model of absolute state control. *The Invisible Hand in Popular Culture* concludes with a discussion of the impact of 9/11 on film and television, and the new anxieties emerging in contemporary alien-invasion narratives: the fear of a global technocracy that seeks to destroy the nuclear family, religious faith, local government, and other traditional bulwarks against the absolute state.

The Philosophy of Tim Burton Jennifer L. McMahon, 2014-03-19 In 1952, just one year after Coach Adolph Rupp's University of Kentucky Wildcats won their third national championship in four years, an unlikely high school basketball team from rural Graves County, Kentucky, stole the spotlight and the media's attention. Inspired by young coach Jack Story and by the Harlem Globetrotters, the Cuba Cubs grabbed headlines when they rose from relative obscurity to defeat the big-city favorite and win the state championship. A classic underdog tale, *The Graves County Boys* chronicles how five boys from a tiny high school in southwestern Kentucky captured the hearts of basketball fans nationwide. Marianne Walker weaves together details about the players, their coach, and their relationships in a page-turning account of triumph over adversity. This inspiring David and Goliath story takes the reader on a journey from the team's heartbreaking defeat in the 1951 state championship to their triumphant victory over Louisville Manual the next year. More than just a basketball narrative, the book explores a period in American life when indoor plumbing and electricity were still luxuries in some areas of the country and when hardship was a way of life. With no funded school programs or bus system, the Cubs's success was a testament to the sacrifices of family and neighbors who believed in their team. Featuring new photographs, a foreword by University of Kentucky coach Joe B. Hall, and a new epilogue detailing where the players are now, *The Graves County Boys* is an unforgettable story of how a community pulled together to make a dream come true.
